Video Games between Postcolonialism and Postcommunism Andrei Nae, 2025-12-14 Although in recent years there has been a growing interest in the racial politics of video games the wider context of colonialism is yet to benefit from the same level of academic consideration Moreover when colonialism is tackled directly the approach is limited to a Global North Global South or West East binary that does not do justice to the multiple forms of colonality that have existed around the world This volume sets out to fill the existing gap in scholarship on colonialism in video games by featuring a collection of essays that together provide insight into the complex ramifications of colonality and its multiple intersecting power structures not only in video games of the Global North Global South or West East divides but also in regions traditionally overlooked by postcolonial theory One such region that this volume focuses on is Eastern Europe and its postcommunist contexts that intersect with colonality in video games produced inside or outside the region Through its methodological

diversity and non provincial understanding of colonial power relations the present volume will offer scholars and students of game studies and area studies a rich perspective on video games entanglement with colonial legacies
