This collection showcases the high quality work of internationally recognized researchers in the early stages of their independent careers. All Rising Star researchers were individually nominated by the Chief Editors of the Journal in recognition of their potential to influence the future directions in their respective fields. The work presented here highlights the diversity of research performed across the entire breadth of cardiovascular medicine including the elucidation of fundamental biology, the development of novel diagnostics or therapeutics, computational modelling approaches and bioengineering strategies for regeneration.

Threading Stars of Light Van Parker, 2011-08 Threading Stars Of Light is a grouping of prose poems with a theme of expression of emotions. With a craft of making The Stars Of Fate Starflakes to express emotion and letters of Hope and Light to try to get people that have had issues with or trouble expressing a need to ask for help or receive helpful words of inspirations from friends and family.

Binary Stars: Selected Topics on Observations and Physical Processes F. C. Lazaro, M.J. Arevalo, 2008-01-11 More than half of all stars in the universe formed and evolved as binary systems and their study is essential for understanding stellar and galactic evolution. The six lectures in this book give both a readable introduction and an up to date review of nearly all aspects of research into binary stars including the range from common binaries to more exotic systems composed of white dwarfs, neutron stars and black holes.
