The Beast of Bray Road Linda S. Godfrey, 2003 In the early 1990s people around the small town of Elkhorn Wisconsin claimed to see strange hairy wolf headed creatures that sometimes walked upright and seemed not afraid of man The canid sensation was soon dubbed Beast of Bray Road after the location of the first reported sightings Author Linda Godfrey began investigating this story and soon found herself in the middle of a national sensation Nobody has ever been able to prove whether the beast is a flesh and blood werewolf or will o' the wisp demon dog or noble animal But the author gives the reader plenty to chew on Make up your own mind if you do so at all only after the marrow has been extracted and well digested

Berman, 2015-05-01 Long ago the trees thought they were really people Long ago the mountains thought they were really people Long ago the animals thought they were really people Someday they will say Long ago the humans thought they were really people Constance O Day Flannery Shifting Love Introduction Shape shifting is a common theme in mythology folklore and fairy tales In its broadest sense shape shifting occurs when a being usually human either 1 has the ability to change its shape into that of another person creature or other entity or 2 finds its shape involuntarily changed by someone else If the shape change is voluntary its cause may be an act of will a magic word or magic words a potion or a magic object If the change is involuntary its cause may be a curse or spell a wizard's or magician's or fairy's help a deity's will a temporal

change such as a full Moon or nightfall love or death The transformation may or may not be purposeful The desire to be different in some way so as to match some ideal promoted through advertising has become an obsession especially for vulnerable younger members of society Perhaps the pressure to conform to some unrealistic ideal is something that has always been with us but surely not to the extent that now is the case And it is this desire that helps to account for the current interest in shape shifting as it would seem to provide a means of achieving the goal to bring about change However as many of the tales in this collection show it is only by coming to terms with who we really are that peace of mind can truly be ours once again Another and perhaps even more significant reason for the fascination with shape shifting is that stories and shamanic journeys that involve such transformations let us cross the threshold between this reality and other worlds at least in imagination Through such tales and journeys we learn to appreciate that we can in fact wear many shapes and inhabit many skins and we are reminded that we are all living beings beneath the fur the feathers and the scales Having no scripture liturgy or singular deity if one's desire is to find universal truth it is easy to perceive the Pagan outlook as too diverse and individualistic to have any weight or worth Restall Orr 2012 p 96 On the other hand if you take a Bible and put it out in the wind and rain soon the paper on which the words are printed will disintegrate and the words will be gone whereas for the Pagan his or her Bible IS the wind and rain And although there may not necessarily be key texts or set teachings to guide the Pagan there are stories legends shared with other people other lands tales from other older cultures that speak to us and it is those stories that form the focus of this book Shamanic Journeys, Shamanic Stories Michael Berman, 2011-03-16 A shamanic journey is one that generally takes place in a trance state to the sound of a drumbeat through dancing or by ingesting psychoactive drugs in which aid is sought from beings in other realities generally for healing purposes or for divination A shamanic story has either been based on or inspired by a shamanic journey or one that contains a number of the elements typical of such a journey In this collection of fascinating journeys and stories Michael Berman reveals the healing nature of shamanic practice **Tales of Superhuman Powers** Csenge Virág Zalka, 2013-10-11 Csenge Virag Zalka a Hungarian storyteller has collected 55 folktales from around the world about supernatural abilities like superhuman strength invulnerability flying heightened senses speed invisibility healing agility precognition telepathy fire manipulation teleportation water powers and shifting These tales represent powers that people have dreamed of conjured up and strived for through the ages Many of the powers are present in popular culture making the superheroes who wield them the direct descendants of characters such as the princess who could see through walls or the invulnerable Isfandiyar Zalka excluded stories about magic or about gods with divine powers and focused on less well known stories She included information on similar heroes the ability in the story sources of the powers the origin of the story teachings in it the recommended age group sources variants and comments *UNDER THE DOME, BOOK 1* Gorgi Shepentulevski, 2022-08-19 In this book of 17 Chapters called UNDER THE DOME BOOK 1 Soul Harvesting Facility Under the Dome I have revealed the true nature of

Soul Loss and the Shamanic Story Michael Berman, 2009-03-26 Stories from various cultures and periods of time can be identified which deal with a concept of soul loss that is essentially shamanic In shamanism soul loss is the term used to describe the way parts of the psyche become detached when we are faced with traumatic situations In shamanic terms these split off parts can be found in non ordinary reality and are only accessible to those familiar with its topography Case studies are presented to show how the way soul loss is dealt with by indigenous shamans differs from the

way it is treated by neo shamanic practitioners Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables and fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with soul loss and examples are presented and analysed to support this hypothesis
