Shaping and Reshaping the Caribbean Martin Munro, 2000 The current drive in Caribbean literary studies stresses similarities and points of convergence between the various islands of the archipelago and their authors the fundamental aim of which is to move closer to an all encompassing theory of Caribbeanness Martin Munro challenges this movement and through a study of the work of Aime Cesaire and Rene Depestre proposes an alternative vision of the present and future of Caribbean literature The main areas of inquiry are how these two Caribbean writers construct their sense of themselves how they relate to the Caribbean and to the wider world and how they have been influenced by the historical and cultural particularities of their respective islands Aime Cesaire s sense of self and of the Caribbean is essentially shaped around the circuit triangulaire the model of Africa Europe Caribbean interdependencies ultimately inherited from the time of the slave trade Munro shows how Cesaire views the Caribbean as a deeply traumatic insubstantial space how he looks to Africa for his lost sense of self and how Europe is seen at once as the malevolent colonial power and also the home of poetry and learning Rene Depestre s Caribbean shape is quite different Africa is relatively absent in Depestre s work Europe is not presented as a threat and Depestre unlike Cesaire sees in the Caribbean an energy and a creativity brought about by the historical fusion of disparate cultures An important factor in shaping Depestre s model of Caribbeanness is his long exile from Haiti and Depestre s experience of exile is analysed in detail The combination of broad contextualization diverse theoretical approaches and close analysis of these important writers work produces a strong argument against attempts to view and read writing from the Caribbean as one literature Difference and diversity it is argued predominate as Caribbean writing embraces the new century and the whole notion of Caribbeanness undergoes further processes of highly creative splintering and reshaping

*International Relations and Non-Western Thought* Robbie Shilliam, 2010-09-13 International Relations as a discipline tends to focus upon European and Western canons of modern social and political thought Alternatively this book explores the global imperial and colonial context within which knowledge of modernity has been developed The chapters sketch out the historical depth and contemporary significance of non Western thought on modernity as well as the rich diversity of its individuals groups movements and traditions The contributors theoretically and substantively engage with non Western thought in ways that refuse to render it exotic to superfluous to or derivative of the orthodox Western canon of social and political thought Taken

as a whole the book provides deep insights into the contested nature of a global modernity shaped so fundamentally by Western colonialism and imperialism Now as ever these insights are desperately needed for a discipline that is so closely implicated in Western foreign policy making and yet retains such a myopic horizon of inquiry This work provides a significant contribution to the field and will be of great interest to all scholars of politics political theory and international relations theory

Black Odysseys Justine McConnell, 2013-06-20 This book explores works from Africa and the African diaspora which respond to the Homeric Odyssey As a founding text of the Western canon and as a homecoming trope and quest for identity the Odyssey has inspired writers who are simultaneously striving against and appropriating the very forms which had been used to oppress them

**Process of Unity in Caribbean Society** Ileana

Rodríguez, Marc Zimmerman, 1983      Aimé Césaire Gregson Davies, 1997 Aimé Césaire is arguably the best known poet in the French Caribbean. His poetry and drama have established his formidable reputation as the leading francophone poet and elder statesman of the twentieth century. In this study Gregson Davis examines the evolution of Césaire's poetic career and his involvement with many of the most seminal political and aesthetic movements of the twentieth century. Davis relates Césaire's extraordinary dual career as writer and elected politician to the recurrent themes in his writings. As one of the most profound critics of colonialism, Césaire, the acknowledged inventor of the famous term *negritude*, has been a hugely influential figure in shaping the contemporary discourse on the postcolonial predicament. Gregson Davis's account of Césaire's intellectual growth is grounded in a careful reading of the poetry, prose, and drama that illustrates the full range and depth of his literary achievement.

Edouard Glissant J. Michael Dash, 1995-03-09 First full length study of influential novelist, poet, and theorist of Caribbean and post colonial literature.

**Aimé Césaire** Jane Hiddleston, 2025-01-22 Aimé Césaire is arguably the greatest Caribbean literary writer in history. Best known for his incendiary epic poem *Notebook of a Return to My Native Land*, Césaire reinvented black culture by conceiving *negritude* as a dynamic and continuous process of self-creation. In this essential new account of his life and work, Jane Hiddleston introduces readers to Césaire's unique poetic voice and to his role as a figurehead for intellectuals pursuing freedom and equality for black people. Césaire was deeply immersed in the political life of his native Martinique for over fifty years; as Mayor of Fort de France and Deputy at the French National Assembly, he called for the liberation of oppressed people at home and abroad while celebrating black creativity and self-invention to resist a history of racism. Césaire's extraordinary life reminds us that the much-needed revolt against oppression and subjugation can and should come from within the establishment as well as without.
