The New Community Firm T. Inagami, D. Hugh Whittaker, 2005-01-06 After sweeping all before it in the 1980s Japanese management ran into trouble in the 1990s especially in the high tech industries prompting many to declare it had outlived its usefulness. From the late 1990s leading companies embarked on wide ranging reforms designed to restore their entrepreneurial vigour. For some this spelled the end of Japanese management for others little had changed. From the perspective of the community firm Inagami and Whittaker examine changes to employment practices corporate governance and management priorities in this 2005 book drawing on a rich combination of survey data and an in depth study of Hitachi Japan's leading general electric company and enterprise group. They find change and continuity the emergence of a reformed model but not the demise of the community firm. The model addresses both economic vitality and social fairness within limits. This book offers unique insights into changes in Japanese management corporations and society. Asian Firms Frank B. Tipton, 2008-01-01 This book appeals to a wide range of readers who might be interested in the historical development of Asian economies evolutionary trajectories of Asian firms institutional change and dynamics in Asia and management and organization of Asian firms. Henry Wai chung Yeung National University of Singapore Tipton provides a fresh approach to understand how Asian firms differ from their western counterparts. Paul Beamish University of Western Ontario Canada Frank Tipton's book is a comparative study of the management structures of Asian firms. As Asian economies continue to expand the management of Asian firms becomes ever more important whether they are suppliers customers partners or rivals. As the author argues Asian firms are very different from their Western counterparts and these differences reflect the variations in national history and institutions within which they operate. Asian Firms compares Chinese Japanese Korean and Southeast Asian management structures and sets them in their historical and institutional context. Based on a wide range of interviews and material drawn from a variety of disciplines the argument is framed by the sayings of the legendary strategist Sun Tzu and the renowned businessman Tao Zhu gong. A series of case studies illustrate the strengths and weaknesses of the approaches of managers in each of the national traditions. Asian Firms asks in each case what Western managers can learn from Asian firms and what Asian firms can learn from each other. With a multidisciplinary approach and emphasis on practical lessons and tools the book will be of great use and interest for managers. It will also appeal to students and researchers of international business postgraduate management students in courses with a comparative or Asian emphasis as well as academics and researchers of Asian studies.
