## **Shared Experience Of Illness:**

**The Shared Experience Of Illness** Susan H. McDaniel, Jeri Hepworth, William J. Doherty, H McDaniel, 2009-08-05 In the narrative of every human life and family illness is a prominent character Even if we have avoided serious illness ourselves we cannot escape its reach into our circle of family and friends Illness brings us closer to one another through caregiving and separates us through disability and death yet little attention has been paid to personal and family illness in psychotherapy Rather therapists tend to focus on the psychosocial realm leaving the biological realm to other physicians and nurses Susan H McDaniel Jeri Hepworth and William J Doherty invited therapists who work with individuals and families experiencing chronic illness and disability to describe clinical cases that illustrate their approach to medical family therapy Contributors then were asked to share a personal story about their experiences with illness and to explain how those experiences affect the way they work with their clients Vivid case studies dealing with a range of illnesses including cancer infertility schizophrenia AIDS heart disease diabetes asthma and multiple sclerosis show how the therapists own experiences of illness are relevant to their care of others and how these experiences can be used to form a healing bond in therapy Poignant honest and illuminating The Shared Experience of Illness allows us to understand more fully the relationship between the personal and the professional

The Shared Experience of Illness Susan H. McDaniel, Jeri Hepworth, William Joseph Doherty, 1997 This volume shows the powerful benefits that can emerge when therapists acknowledge illness as a vital part of everyone's psychology Susan H McDaniel Jeri Hepworth and William J Doherty invited therapists who work with individuals and families experiencing chronic illness and disability to describe clinical cases that illustrate their approach to medical family therapy Contributors then were asked to share a personal story about their experiences with illness and to explain how those experiences affect the way they work with their clients Vivid case studies dealing with a range of illnesses including cancer infertility schizophrenia AIDS heart disease diabetes asthma and multiple sclerosis show how the therapists own experiences of illness are relevant to their care of others and how these experiences can be used to form a healing bond in therapy

**The Aesthetic Experience of Dying** Veronica M. F. Adamson, 2017-09-07 Structured around a personal account of the illness and death of the author's partner Jane this book explores how something hard to bear became a threshold to a world of insight and discovery Drawing on German Idealism and Jane's own research in the area *The Aesthetic Experience of Dying* looks at the notion of life as a binary synthesis or a return enhanced as a way of coming to understand death Binary synthesis describes the interplay between dynamically opposing pairs of concepts such as life and death resulting in an enhanced version of one of them to move forward in a new cycle of the process Yet what relevance does this elegant word game have to the shocking diagnosis of serious illness Struggling to balance reason with sense thought with feeling this book examines the experience of caring for someone from diagnosis to death and is illustrated with examples of the return enhanced The concluding chapter outlines how the tension of Jane's dying has been resolved as the rhythmic patterns of the lifeworld have been understood through the process of reflecting on the experience This creative and insightful book will appeal to those interested in the medical humanities It will also be an important reference for practising and student health professionals

*Living with Chronic Illness and Disability - eBook* Esther Chang, Amanda Johnson, 2017-07-26 A reinforced focus on person and family centred care Chapter 2 Partnerships in collaborative care includes new sections on the role of the pharmacist paramedic and exercise physiologist Principles for nursing practice are embedded throughout Section 2 Evolve Resources for students and instructors provide additional multimedia resources and reflective questions to assist learning and promote self inquiry [A Shared Experience](#) Laura McCall, Donald Yacovone, 1998-08 For decades women's history has been one of the most dynamic fields in all of American history More recently the study of manhood has drawn the attention of scholars students and general readers Despite the obvious intersections of female and male gender roles the nineteenth century doctrine of separate spheres has dominated historical inquiry The shared experiences and complementary lives of men and women have rarely been considered This important new anthology reflecting recent trends in the history of men and women calls for the reintegration of the study of gender Only by focusing on the similarities as well as the differences in the lives of men and women can we achieve a fully representative portrait The essays in this exciting collection most commissioned exclusively for this book cover American history from colonial times to the present representing multicultural and interdisciplinary scholarship at its most persuasive Combining compelling subjects and thorough research the contributors represent an appealing mix of established authors and new scholars A lively blend of experience and innovation *A Shared Experience* marks an important step in the development of American history and the burgeoning field of gender studies **Cardiac Nursing E-Book** Debra K. Moser, Barbara Riegel, 2007-08-08 Cardiac Nursing A Companion to

Braunwald's Heart Disease is the only comprehensive text available for cardiac nurses. This brand new reference emphasizes both evidence based practice and hands on care in a high tech high touch approach that meets the high stakes needs of cardiac and critical care nurses. What's more the book makes the material easily accessible by using clear language straightforward text and plenty of illustrations lists and tables. This book is the third in a series of companion texts for Braunwald's Heart Disease and the first specifically for nurses. Authored by the widely published well known co editors of The Journal of Cardiovascular Nursing two leaders in cardiac nursing. Endorsed by the authors of Braunwald's Heart Disease including Eugene Braunwald the physician considered by many to be the father of modern cardiology. Evidence based Practice boxes highlight research supported advances in knowledge and care practices. Conundrum boxes help readers hone their critical thinking skills by tackling tough questions for which there may be no easy answers. Technology boxes keep readers up to date with the latest technological advances. Genetics boxes help readers understand connections between genes and heart disease. Pharmacology tables present important drug related information at a glance. A guide to cardiac abbreviations and acronyms gives nurses quick access to essential information.

Established scholars and new researchers address issues such as communities on off line the Internet as a methodological tool and space for research and the places politics and policies of the Internet creating a volume that comprehensively covers the field of Internet research. Also included are a brief history of the organization a list of previously published papers from the conferences and works by several of the keynote speakers including Phil Agre Barbara Warnick Bill Dutton Sheizaf Rafaeli Susan Herring Robin Mansell and much more.

**Clinical Ethics and the Necessity of Stories** Osborne P. Wiggins, Annette C. Allen, 2011-02-02. This collection of articles honors the work of Richard Zaner a distinguished philosopher who has worked for over twenty years as an ethics consultant at Vanderbilt University Medical Center. His work in the clinical setting especially the use of narrative in understanding what is going on in this setting is the focus of some of the papers. Others relate his methodology and phenomenological approach to the more standard bioethical problemata and approaches. The essential questions what then is the role of the philosopher turned medical ethicist? Is medical ethics a form of applied philosophy or is it also a form of therapy? distinguish Zaner's phenomenology from hermeneutical philosophy.
