Christian Gerlach, 2010-10-14 In this groundbreaking book Christian Gerlach traces the social roots of the extraordinary processes of human destruction involved in mass violence throughout the twentieth century He argues that terms such as genocide and ethnic cleansing are too narrow to explain the diverse motives and interests that cause violence to spread in varying forms and intensities From killings and expulsions to enforced hunger collective rape strategic bombing forced labour and imprisonment he explores what happened before during and after periods of widespread bloodshed in countries such as Armenia Indonesia Bangladesh Nazi occupied Greece and in anti guerilla wars worldwide in order to highlight the crucial role of socio economic pressures in the generation of group conflicts By focussing on why so many different people participated in or supported mass violence and why different groups were victimized he offers us a new way of understanding one of the most disturbing phenomena of our times *Understanding ASEAN's Role in Asia-Pacific Order* Robert

Yates, 2019-03-25 This book assesses the important role of the Association of Southeast Asian Nations ASEAN in the management of regional political security and economic relations The author argues that ASEAN's prominent role in the region spanning 50 years is largely due to the acquiescence of the great powers who endorsed ASEAN accepted its regional position and accorded the institution a legitimacy and durability that otherwise it would not have This text offers a key intervention into the debate regarding ASEAN and regional order by showing how ASEAN's contribution to order management is part of a negotiated division of labour with the great powers The author applies an innovative social roles analysis which captures the dynamic interactions between ASEAN and the great powers from the Cold War to the present day **A Companion to John F. Decolonisation Eileen Hanrahan, 2021-02-01 In alignment with Indigenous Politics an emerging sub field of Politics and IR this book considers West Papuan Indigenous nationhood Combining Settler Colonial Studies and Critical Indigenous Theory the research opens up sovereignty as a political category of analysis to reveal an embedded nation within Indonesia In June 2000 the Second Papuan People's Congress in Jayapura rejected the basis on which West Papua had been incorporated into

Indonesia and resolved that the people of Papua have been sovereign as a nation and a state since 1 December 1962 Indonesian president Wahid firmly opposed this resolution and state officials posted historical narratives on the Australian Embassy website that legitimated Indonesia's incorporation of the once non self governing territory A mapping and analysis of these narratives demonstrate a settler colonial present within Southeast Asia It is argued that the US's appeasement of Indonesia's takeover in the 1960s was based on the Great Power's concern to promote its strategic and economic status in the region This is a timely intervention that contributes to a growing debate on settler colonialism as a mode of domination that characterises the global present and involves locales not normally seen as settler colonial West Papua fits the bill
