Segal,Daniela Koleva,2014-10-06 Researchers in the new field of literary and cultural studies look at social issues especially issues of change and mobility through the lens of literary thinking The essays range from cultural memory and migration to electronic textuality and biopolitics      *Battle on the Lomba 1987* David Mannall,2022-05-20 A South African national serviceman recounts becoming a soldier and an ensuing David and Goliath face off against Angolan armed forces in 1987 The climactic death throes of Soviet Communism during the 1980s included a last gasp attempt at strategic franchise expansion in southern Africa Channeled through Castro s Cuba oil rich Angolan armed forces FAPLA received billions of dollars of advanced weaponry and thousands of armored vehicles Their intent to eradicate the US backed Angolan opposition UNITA then push southwards into South Africa s protectorate SWA Namibia ostensibly as liberators 1985 saw the first large scale mechanized offensive in southern African history Russian Generals planned and oversaw the offensive but didn t account for the tenacity of UNITA supported by the South African Defense Forces SADF or the rainy season The 85 offensive floundered in the mud and FAPLA returned to their capital Luanda The South Africans stood down confident their covert support for UNITA had demonstrated the folly of prosecuting war so far from home against Africa s military Superpower However they were mistaken Fidel and FAPLA immediately redoubled their efforts strengthening fifteen battalions with even more Soviet

hardware while Russian and Cuban specialists oversaw troop training As Cuban and Angolan fighter pilots honed their skills over the skies of Northern Angola David Mannall a normal seventeen year old kid completing high school was preparing for two years of compulsory military service before beginning Tertiary education Through a series of fateful twists he found himself leading soldiers in several full scale armored clashes including the largest and most decisive battle on African soil since World War II This is a David and Goliath story that has never been truthfully told The author reveals how Charlie Squadron comprising just twelve 90mm AFVs crewed by thirty six national servicemen as part of the elite sixty one Mechanized Battalion engaged and effectively annihilated the giant FAPLA 47th Armored Brigade in one day 3 October 1987 Their 90mm cannons were never designed as tank killers but any assurances that it would never be used against heavy armor were left in the classroom during the three month operation and never more starkly than the decisive Battle on The Lomba River The Communist backed offensive died that day along with hundreds of opposition fighters 47th Brigade survivors abandoned their remaining equipment eventually joining the 59th Brigade in what became a full scale retreat of over ten thousand soldiers to Cuito Cuanevale The myth perpetuated by post apartheid politicians goes something like this The SADF force that destroyed 47th Brigade on 3 October numbered 6 000 men and that all the hard yards were run by the long suffering UNITA The inconvenient truth is that there were just 36 South African boys on the frontline that day but it is also true to say they would never have achieved such a stunning victory without the support of many more This is their story

**Reckless** Alasdair Fotheringham, 2014-05-08 This is the first ever biography in English of the Spanish Merckx who remains one of the most fascinating Tour de France champions Luis Oca a seemed doomed to live in the shadow of cycling s greatest ever rider Eddy Merckx The Cannibal Their rivalry defined Oca a s entire career yet he was the one rider capable of beating the all conquering Merckx in his prime After an impoverished upbringing he flourished at the sport he loved and in 1970 secured his biggest victory on home soil winning the Vuelta a Espa a and confirming his status as a Grand Tour challenger But it was in the 1971 Tour de France that the battle between Merckx and Oca a reached its peak when at the Orci res Merlette stage he inflicted on Merckx the worst defeat he would suffer in a major Tour with an astonishing 120 kilometre solo breakaway through the Alps But then came one of most gut wrenching crashes in Tour de France history when Oca a fell heavily on a Pyrenean descent losing his leader s jersey and with it his best chance of destroying Merckx s reputation of invincibility In the midst of a torrential downpour with minimal visibility rider after rider crashed into the injured rider as he lay prone The following day Merckx refused to wear the leader s jersey out of respect It was only when Merckx was missing from the start line in 1973 that Oca a became Spain s second ever Tour de France winner If Merckx had been present Oca a s chances of success would have been far slimmer Further triumphs amassed before his swansong in 1976 but Oca a s decline in later life reflects the immense struggle he embraced during the height of his career An enigmatic outsider to both the Spanish and French throughout his career never truly accepted in either country he died in mysterious

circumstances aged just 48 A fascinating complicated character both on and off his bike Oca a s fierce determination impetuosity and some would say recklessness created some of the most beautiful and gripping episodes in the history of the sport

**Sierra Quest** Edward Etzkorn,2005-04 An engaging tale spun from the author s wilderness experience and his imaginative treatment of a male female relationship in the making Jerry Schad author of the Afoot and Afield series September 29 1991 Roy Ogilvie walks out of a Fresno bank to his waiting getaway car with nearly 1 million By the end of the day his stolen airplane has crashed into the side of a mountain in the remote Sierra Nevada Mountains Searchers find the wreckage but not Roy or any trace of the stolen money September 28 2003 Nathan Rubideau knows where the searchers went wrong With his present life in shambles he sees the million dollar treasure as his ticket to a new life Only his inexperience in the wilderness has the potential to spoil his plan As he gazed satisfied out the cockpit window he pulled back on the control lever The forest petered out and the land began to lump itself into weird shapes of granite Ahead rose even higher peaks that would force him to climb even higher Once over the Sierra crest he d be home free He could glide down into any desert town he wished He was just zipping the bag shut and marveling at its weight when the plane s nose took an almost imperceptible dip and the engine made a spluttering sound A man not accustomed to small planes might not have noticed but nothing about a plane escaped Roy s attention With a stab of fear he glanced at the fuel gauge Its pointer had settled on E

Photography and Failure Kris Belden-Adams,2020-08-06 Throughout photography s history failure has played an essential recurring part in the development and perceived value of this medium Exploring a range of failures individual and institutional technological and historiographical Photography and Failure asks what it means to fail and considers how this narrative of failure has shaped our understanding of photography From the trial and error beginnings of photochemistry to poor business decisions influenced by fickle public opinion and taste the founders and early practitioners of photography frequently faced bankruptcy and ignominy Alongside these individual failures this collection of essays examines the role of museums in rediscovering

preserving and presenting photographs within institutions as well as technological limitations such as the problematic panoramic lens or the digital archival failures of Snapchat Moving beyond the physical photograph and these processes the book also investigates the limitations of photographs themselves as purveyors of truth time space documentary realism and social change whether these failures are used to effect or not Finally the book probes the historiographical failures affecting the discipline drawing on key debates such as the perceived over emphasis on European and American photography and the place of photography theory in contemporary art practice Blurring the boundaries between traditional binaries of art and non art photography amateur and professional practice and individual and corporate perspectives Photography and Failure presents a new approach to understanding and evaluating photographic history **They Met in a Tavern** Sir
