'Crimes against Peace' and International Law Kirsten Sellars, 2013-02-28

In 1946 the judges at the International Military Tribunal at Nuremberg declared crimes against peace the planning initiation or waging of aggressive wars to be the supreme international crime. At the time the prosecuting powers heralded the charge as being a legal milestone but it later proved to be an anomaly arising from the unique circumstances of the post war period. This study traces the idea of criminalising aggression from its origins after the First World War through its high water mark at the post war tribunals at Nuremberg and Tokyo to its abandonment during the Cold War. Today a similar charge the crime of aggression is being mooted at the International Criminal Court so the ideas and debates that shaped the original charge of crimes against peace assume new significance and offer valuable insights to lawyers, policy makers and scholars engaged in international law and international relations.

Japanese Defence Syed Javed Maswood, 1990

This book focuses on the defence policy of the Nakasone administration and attempts to provide an explanation for the policy measures which its administration implemented or initiated. It suggests that the widening disparity between economic interests and political power forced Japan to review the traditional bases for defence policy making and prompted the search for a balance that would allow the country a more active role in the international sphere. The book is organized around the central theme that Nakasone's defence policy can be understood as an attempt to rehabilitate Japan as a normal state and end the state of affairs that had relegated it to a unique and low position.

International Criminal Procedure Göran Sluiter, Håkan Friman, Suzannah Linton, Sergey Vasiliev, Salvatore Zappalà, 2013-03-21. *International Criminal Procedure Principles and Rules* is a comprehensive study of international criminal proceedings written by over forty leading experts in the field. The book offers a systematic overview and detailed comparison of the standards governing the conduct of proceedings in all major international and internationalized criminal courts from the Nuremberg and Tokyo Tribunals to the recently established Cambodian Extraordinary Chambers and the Special Tribunal for Lebanon. Based on a major research project, the study covers all procedural phases from the initiation of investigation to the appeals process. It pays special attention to the crosscutting themes which shape the contemporary discourse on international criminal justice including the law of evidence, the defence issues, the procedural role of victims and negotiated dismissal of international crime cases. The book not only takes stock of the procedural legacy of the UN ad hoc Tribunals for the former Yugoslavia and Rwanda and the International Criminal Court but also reflects on the future directions of international criminal procedure. Investigating the tribunals' procedural law and practice through the prism of human rights law, domestic legal traditions and tribunals' special objectives, the expert group puts forth proposals on how the challenges facing international criminal jurisdictions can best be met. *International Criminal Procedure* will be an indispensable work for practitioners involved in the adjudication of serious

crimes on both national and international level as well as international law students and academics

Beyond Victor's Justice? The Tokyo War Crimes Trial Revisited Yuki Tanaka, Timothy L.H. McCormack, Gerry Simpson, 2011-06-09 The aim of this new collection of essays is to engage in analysis beyond the familiar victor's justice critiques. The editors have drawn on authors from across the world including Australia, Japan, China, France, Korea, New Zealand and the United Kingdom with expertise in the fields of international humanitarian law, international criminal law, Japanese studies, modern Japanese history and the use of nuclear, chemical and biological weapons. The diverse backgrounds of the individual authors allow the editors to present essays which provide detailed and original analyses of the Tokyo Trial from legal, philosophical and historical perspectives. Several of the essays in the collection are based on the authors' extensive archival research in Japan, Australia, the United States and New Zealand, providing rich insights into Japanese societal attitudes towards the Trial, biological experimentation by the Japanese Army in China as well as the trial of Korean prison guards and prosecutions for rape and sexual assault in the post-war period. Some of the essays deal with particular participants in the Trial, examining the role of individual judges and the selection of defendants and the decision not to prosecute the Emperor. Other essays analyse the Trial from a legal perspective and address its impact on concepts such as command responsibility, conspiracy and war crimes. The majority of the essays seek to identify and address some of the forgotten crimes in the Tokyo Trial. These include crimes committed in China and Korea, particularly the activities of the infamous Unit 731, crimes committed against comfort women and crimes associated with the atomic bombings of Hiroshima and Nagasaki, the conventional firebombing of other Japanese cities and the illicit drug trade in China. Finally, the collection includes a number of essays which consider the importance of studying the Tokyo Trial and its contemporary relevance. These issues include an examination of the way in which academics have written the Trial over the last 60 years and an analysis of some of the lessons that can be drawn for international trials in the future.

Transcultural Justice at the Tokyo Tribunal, 2018-03-06 While the International Military Tribunal at Nuremberg has been at the centre of scholarly attention, the Tokyo Tribunal has for decades been largely neglected. This is surprising insofar as this tribunal was a well-organized Allied endeavour and prefigured the international courts and tribunals of our day. Eleven national teams were sent to Tokyo between 1946 and 1948 to bring about justice in the aftermath of the Pacific War. This volume offers an innovative approach to the Tokyo Tribunal as an arena of transcultural engagement. It contextualizes legal agents as products of transnational forces constituted through dialogues about legal concepts and processes of faction-making. The endeavour was challenged by different national policies, divergent legal traditions and varying cultural perceptions of the task ahead. Contributors are Milinda Banerjee, Anja Bihler, Neil Boister, David M. Crowe, Kerstin von Lingen, Narrelle Morris, Hitoshi Nagai, Valentyna Polunina, Ann Sophie Schoepfel, Lisette Schouten, James Burnham Sedgwick, Yuki Takatori and Urs Matthias Zachmann.

Japanese Diplomacy in the 1950s Makoto Iokibe, Caroline Rose, Junko Tomaru, John Weste, 2008-02-19 This book provides a detailed examination of Japan's diplomatic

relations in the 1950s an important decade in international affairs when new structures and systems emerged and when Japan established patterns in its international relationships which continue today It examines the process of Japan s attempts to rehabilitate itself and reintegrate into a changing world and the degree of success to which Japan achieved its goals in the political economic and security spheres The book is divided into three parts each containing three chapters Part I looks at Japan in the eyes of the Anglo American powers Part II at Japanese efforts to gain membership of newly forming regional and international organizations and Part III considers the role of domestic factors in Japanese foreign policy making Important issues are considered including Japanese rearmament and the struggle to gain entry into the United Nations In contrast to much of the academic literature on post war Japanese diplomacy generally presenting Japan as a passive actor of little relevance or importance this book shows that Japan did not simply sit passively by but formed and attempted to instigate its own visions into the evolving regional and global structures It also shows that whilst Japan did not always figure as highly as its politicians and policy makers may have liked in the foreign policy considerations of other nation states many countries and organizations did attach a great deal of importance to re building relations with Japan throughout this period of re adjustment and transformation

Kersten, 2013-06-17 *Democracy in Post War Japan* assesses the development of democracy through the writings of the brilliant political thinker Maruyama Masao. Democracy and Peace Making Philip Towle, 2004-01-14 *Democracy and Peace Making* is an invaluable and up to date account of the process of peace making which draws on the most recent historical thinking. It surveys the post war peace settlements of the nineteenth and twentieth centuries including the Vienna congress of 1815, the Treaty of Versailles, the peace settlements of the Second World War, peace talks after the Korean War, the Paris Peace Accords of 1973. *Japanese Army Stragglers and Memories of the War in Japan, 1950-75* Beatrice Trefalt, 2013-01-11 This book charts comprehensively the various discoveries in Southeast Asia and the Pacific of Japanese soldiers still fighting the Second World War many years after it had ended. It explores their return to Japan and their impact on the Japanese people, revealing changing attitudes to war veterans and war casualties, families as well as the ambivalence of memories of the war. *Nikolaus Pevsner* Susie Harries, 2011-08-18 Born Nikolai Pevsner into a Russian Jewish family in Leipzig in 1902, Nikolaus Pevsner was a dedicated scholar who pursued a promising career as an academic in Dresden and Göttingen. When in 1933 Jews were no longer permitted to teach in German universities, he lost his job and looked for employment in England. Here, over a long and amazingly industrious career, he made himself an authority on the exploration and enjoyment of English art and architecture, so much so that his magisterial county by county series of 46 books on *The Buildings of England*, first published 1951-74, is usually referred to simply as *Pevsner*. As a critic, academic and champion of Modernism, Pevsner became a central figure in the architectural consensus that accompanied post war reconstruction, as a general practitioner of architectural history he covered an astonishing range from Gothic cathedrals and Georgian coffee houses to the Festival of Britain and Brutalist tower blocks. Susie Harries explores the truth about Nikolaus Pevsner's reported sympathies with elements of Nazi ideology, his internment in England as an enemy alien and his sometimes painful assimilation into his country of exile. His *Heftchen* secret diaries, he kept from the age of 14 for another sixty years, reveal hidden aspirations and anxieties, as do his numerous letters he wrote to his wife Lola every day that they were apart. Harries is the first biographer to have read Pevsner's private papers and through them to have seen into the workings of his mind. Her definitive biography is not only rich in context and far ranging but is also brought to life by quotations from Pevsner himself. He was born a Jew but converted to Lutheranism; trained in the rigour of German scholarship, he became an Everyman in his copious commissions, publications, broadcasts and lectures on art, architecture, design, education, town planning, social housing, conservation, Mannerism, the Bauhaus, the Victorians, *Zeitgeist*, Englishness and how a nation's character may or must be reflected in its art. His life as an outsider yet an

insider at the heart of English art history illuminates both the predicament and the prowess of the continental migrants who did so much to shape British culture after 1945
