Lord William Bentinck The Making Of A Liberal Imperialist 1774 1839:

Lord William Bentinck John Rosselli, 1974 Liberalism, Imperialism, and the Historical Imagination Theodore Koditschek, 2011-02-10 This book examines the ways in which imperial agendas informed the writing of history in nineteenth century Britain and how historical writing transformed imperial agendas Using the published writings and personal papers of Walter Scott J A Froude James Mill Rammohun Roy T B Macaulay E A Freeman W E Gladstone and J R Seeley among others Theodore Koditschek sheds light on the role of the historical imagination in the establishment and legitimation of liberal imperialism He shows how both imperialists and the imperialized were drawn to reflect back on the Empire s past as a result of the need to construct a modern multi national British imperial identity for a more economically expansive and enlightened present By tracing the imperial lives and historical works of these pivotal figures Theodore Koditschek illuminates the ways in which discourse altered practice and vice versa as well as how the history of Empire was continuously written and re written

Guru English Srinivas Aravamudan, 2011-06-27 *Guru English* is a bold reconceptualization of the scope and meaning of cosmopolitanism examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years The book surveys a specific set of religious vocabularies from South Asia that Aravamudan argues launches a different kind of cosmopolitanism into global use Using *Guru English* as a tagline for the globalizing idiom that has grown up around these religions Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English language use The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social movements and literary texts Aravamudan looks at religious forms of neoclassicism nationalism Romanticism postmodernism and nuclear millenarianism bringing together figures such as Swami Vivekananda Sri Aurobindo Mahatma Gandhi and Deepak Chopra with Rudyard Kipling James Joyce Robert Oppenheimer and Salman Rushdie *Guru English* analyzes writers and gurus literary texts and religious movements and the political uses of religion alongside the literary expressions of religious teachers showing the cosmopolitan interconnections between the Indian subcontinent the British Empire and the American New Age

Mapping an Empire Matthew H. Edney, 2024-05-31 In this fascinating history of the British surveys of India Matthew H Edney relates how imperial Britain used modern survey techniques to not only create and define the spatial image of its Empire but also to legitimate its colonialist activities There is much to be praised in this book It is an excellent history of how India came to be painted red in the nineteenth century But more importantly Mapping an Empire sets a new standard for books that examine a fundamental problem in the history of European imperialism D Graham Burnett Times Literary Supplement Mapping an Empire is undoubtedly a major contribution to the rapidly growing literature on science and empire and a work which deserves to stimulate a great deal of fresh thinking and informed research David Arnold Journal of Imperial and Commonwealth History This case study offers broadly applicable insights into the relationship between ideology technology and politics Carefully read this is a tale of irony about wishful thinking and the limits of knowledge Publishers Weekly

Nationalism and Globalisation Stephen Tierney, 2015-10-08 This book addresses a seemingly paradoxical situation On the one hand nationalism from Scotland to the Ukraine remains a resilient political dynamic fostering secessionist movements below the level of the state On the other the competence and capacity of states and indeed the coherence of nationalism as an ideology are increasingly challenged by patterns of globalisation in commerce cultural communication and constitutional authority beyond the state It is the aim of this book to shed light on the relationship between these two processes addressing why the political currency of nationalism remains strong even when the salience of its objective independent and autonomous statehood becomes ever more attenuated The book takes an interdisciplinary approach both within law and beyond with contributions from international law constitutional law constitutional theory history political science and sociology The challenge for our time is considerable Global networks grow ever more sophisticated while territorial borders such as those in Eastern and Central Europe become

seemingly more unstable It is hoped that this book by bringing together areas of scholarship which have not communicated with one another as much as they might will help develop an ongoing dialogue across disciplines with which better to understand these challenging and potentially destabilising developments

Ideologies of the Raj Thomas R.

Metcalf,1997-02-27 Ideologies of the Raj examines how the British sought to justify their rule over India The author argues that two divergent strategies were devised to legitimate their authority the one defined characteristics which the Indians shared with the British themselves while the other emphasised qualities of enduring difference In the end however the differences predominated in the colonial view of India Since the British constructed few explicit ideologies of empire the author explores the workings of the Raj through the study of its underlying assumptions as revealed in policies and writings Students of modern India and the British Empire will find Thomas Metcalf s book relevant and accessible

The Great Indian Education Debate Martin

Moir,Lynn Zastoupil,2013-12-16 A bitter debate erupted in 1834 between Orientalists and Anglicists over what kind of public education the British should promote in their growing Indian empire This collection of the main documents pertaining to the controversy some published for the first time aims to recover the major British and South Asian voices broaden our understanding of imperial discourses and recognise the significant role of the colonised in the shaping of colonial knowledge Bringing together into a single volume documents not easily obtained long out of print never before published or scattered about in sundry books and journals enables modern readers to judge the relative merits of the various arguments and undermines the common impression that the controversy was simply an exercise in colonial power involving only Europeans
