Buildings that Have Disappeared Or Been So Altered as to be Denatured.... John Mead Howells, 1963 *Re-creating the American Past* Richard Guy Wilson, Shaun Eyring, Kenny Marotta, 2006

Although individually and collectively Americans have many histories the dominant view of our national past focuses on the colonial era The reasons for this are many and complex touching on stories of the country's origins and of the founding fathers the privileged position in history granted the thirteen original colonies and the ways in which the nation has adjusted to change and modernity But no matter the cause the result is obvious images and forms derived from and related to America's colonial past are the single most popular form of cultural expression Often conceived solely in architectural terms from the red brick and white trimmed buildings that recall eighteenth century James River estates to the clapboarded saltboxes that recall early New England Colonial Revival is in fact better understood as a process of remembering In *Re-creating the American Past* architectural historian Richard Guy Wilson and a host of other scholars examine how and why Colonial Revival has persisted in modern times The volume contains essays that explore Colonial Revival expressions in architecture landscape architecture historic preservation decorative arts and painting and sculpture as well as the social intellectual and cultural background of the phenomena Based on the University of Virginia's landmark 2000 conference *The Colonial Revival in America* *Re-creating the American Past* is a comprehensive and handsome volume that recovers the origins characteristics diversity and significance of the Colonial Revival situating it within the broader history of American design culture and society

Architecture in the United States, 1800-1850 William Barksdale Maynard,2002-01-01 This study traces the development of American architecture from the age of Jefferson to the antebellum era providing a survey of this important period W Barksdale Maynard overturns the long accepted notions that the chief theme of early 19th century American architecture was a patriotic desire to escape from European influence and that competing styles chiefly reflected the American struggle for cultural uniqueness Instead deep and consistent aesthetic ties especially with England shaped American architecture and house designs Maynard shows that the Greek Revival in particular was an international phenomenon with American achievements inspired by British example and with taste taking precedence over patriotism
