History and general Description of New France P. F. X. de Charlevoix,2022-01-20 Reprint of the original first published in 1866 History of New France Marc Lescarbot,1968 *Building a House in New France* Peter N. Moogk,1977 Building a House in New France is an unconventional account of early French Canada It describes the social background of popular architecture and show how the evolution of the Canadiens was mirrored in the house they build The story covers New France from Newfoundland to the Great Lakes Using new historical sources the author weaves colorful anecdotes into a scholarly analysis of the contractual arrangements and building techniques used in Canada before 1760 In this book the reader will discover the jug of wine that sealed contracts administrators whose town plans foundered on the independence of the colonists a surgeon who ruined himself in an attempt to keep up with his brother the Montreal nuns who feared peeping toms the missing workers who were found in taverns and the patient craftsmen who endured the scrutiny of amateur experts In this account is the story of an ingenious building technique developed in the St Lawrence valley that spread across Canada to become the first national style of construction This is a human and lively chronicle based on pioneer research Publisher

refugees from India and Sri Lanka to Montr al Qu bec in the late twentieth and early twenty first centuries Fort Niagara William Edward Utley, Patricia Kay Scott, 2019-05-01 Fort Niagara is located twelve miles downriver from the world renowned Niagara Falls yet few visitors to either site know this was once Iroquois territory and claimed by France This volume summarizes the fascinating span of North American history when New France was established during the sixteenth century in present day Canada explored and expanded to the Niagara River a strategic water and portage route connected to the Great Lakes Chronologically the authors dramatically trace how the Iroquois gained the Niagara River and how they kept this lucrative trade route for themselves long after the French became established fur traders in the Great Lakes The Iroquois continued to control the Niagara River as the French built the short lived Forts Conti 1669 Denonville 1687 1688 and finally Fort Niagara 1726 1759 Fort Niagara The Key to the Inland Oceans and the French Movement to Dominate North America incorporates actions and political changes elsewhere that influenced the French and Iroquois at Niagara especially during the French and Indian War which ended the French Occupation of Fort Niagara and set the stage for the Iroquois to lose their long held Niagara River territory Young Subjects Julia M. Gossard, 2021-03-15 Across the metropole the colonies and the wider eighteenth century world French children and youth participated in a diverse set of state building initiatives social reform programs and imperial expansion efforts Young Subjects explores the lives and experiences of these youth revealing their role as active and vital agents in the shaping of early modern France Through a set of regional case studies Julia Gossard demonstrates how thousands of children and youth were engaged in the service of the state In Lyon charity schools cultivated children as agents of moral and social reform who carried their lessons home to their families In Paris orphaned and imprisoned youth trained in skilled trades or prepared for military service while others were sent to the French colonies in North America as filles du roi and sturdy labourers Young people from merchant families were recruited to serve as cultural brokers and translators on behalf of French commerical interests in the Ottoman Empire and Siam In each case Gossard considers how these youth played negotiated and sometimes resisted their roles and what expressions of individual identity and agency were available to subjects under the legal control of others As sources of labour future taxpayers colonial subjects cultural mediators and potential criminals children and youth were objects of intense interest for civic authorities Young Subjects refocuses our attention on these often overlooked historical subjects who helped to build France **American Beginnings** Emerson W. Constant Struggle Julien Mauduit, Jennifer Tunncliffe, 2021-10-06 Most Canadians assume they live under some form of democracy Yet confusion about the meaning of the word and the limits of the people's power obscures a deeper understanding Constant Struggle looks for the democratic impulse in Canada's past to deconstruct how the country became a democracy if in fact it ever did This volume asks what limits and contradictions have framed the nation's democratization process examining how democracy has been understood by those who have advocated for or resisted it and exploring key historical realities that have shaped it Scholars from a range of disciplines tackle this elusive concept suggesting that instead of looking for a simple narrative we must be alert to the slower untidier and incomplete processes of democratization in Canada Constant Struggle offers a renewed sometimes unsettling depiction stretching from studies of early Indigenous societies through colonial North America and Confederation into the twentieth century Contributors reassess democracy in light of settler colonialism and white supremacy investigate connections between capitalism and democracy consider alternative conceptions of democracy from Canada's past and highlight the various ways in which the democratic ideal has been mobilized to advance particular visions of Canadian society Demonstrating that Canada's democratization process has not always been one that empowered the people Constant Struggle questions traditional views of the relationship between democracy and liberalism in Canada and around the world

Fear and the Shaping of Early American Societies Lauric Henneton, Louis Roper, 2016-04-08 Fear and the Shaping of Early American Societies is the first collection of essays to argue that fear permeated the colonial societies of 17th and 18th century America and to analyse its impact on the political decision making processes from a variety of angles and locations Indeed the thirteen essays range from Canada to the Chesapeake from New England to the Caribbean and from the Carolina Backcountry to Dutch Brazil This volume assesses the typically American nature of fear factors and the responses they elicited in a transatlantic context The essays further explore how the European colonists handled such challenges as Indian conspiracies slave revolts famine popery and tyranny as well as werewolves and a dragon to build cohesive societies far from the metropolis Contributors are Sarah Barber Benjamin Carp Leslie Choquette Anne Claire Faucquez Lauric Henneton Elodie Peyrol Kleiber Susanne Lachenicht Bertie Mandelblatt Mark Meuwese L H Roper David L Smith Bertrand Van Ruymbeke Christopher Vernon and David Voorhees

Empire Trevor Lloyd, 2006-08-24 For almost two hundred years Britain dominated the world its naval supremacy enabling it to acquire a vast empire including India Canada Australia New Zealand and much of Africa Although it could not prevent its American colonies from becoming independent its industrial and commercial power helped it to keep its scattered possessions under control while a small army was sufficient to put down native rebellions in the absence of the involvement of other European states A dwindling economy and the cost of two world wars saw this once mighty empire crumble giving in the process independence to nearly all of its dominions in the years after 1945 Empire is a succinct and highly readable account of this extraordinary rise and fall
