about the extent and nature of the genocide In *Broad Daylight* documents mass killings in seven countries formerly part of the Soviet Union that were invaded by Nazi Germany It shows how these murders followed a template or script which included a timetable that was duplicated from place to place Far from being kept secret the killings were done in broad daylight before witnesses Often they were treated as public spectacle The Nazis deliberately involved the local inhabitants in the mechanics of death whether it was to cook for the killers to dig or cover the graves to witness their Jewish neighbors being marched off or to take part in the slaughter They availed themselves of local people and the structures of Soviet life in order to make the Eastern Holocaust happen Narrating in lucid powerful prose that has the immediacy of a crime report Father Desbois assembles a chilling account of how concretely these events took place in village after village from the selection of the date to the twenty four hour period in which the mass murders unfolded Today such groups as ISIS put into practice the Nazis lessons on making genocide efficient The book includes an historical introduction by Andrej Umansky research fellow at the Institute for Criminal Law and Criminal Procedure University of Cologne Germany and historical and legal advisor to Yahad In Unum *American Independent Baker* ,1929 Best Backroads of Florida: The heartland Douglas Waitley,2000 Takes readers on a tour through the backroads of Florida providing directions maps and recommended sights
