B. Paine, 1971 *Religious Business* Maxwell John Charlesworth, 1998-09-05 This remarkable interdisciplinary collection spans twenty years of scholarship on Aboriginal religions Contributors include Diane Bell Ronald M Berndt Deborah Bird Rose Frank Brennan Max Charlesworth Rosemary Crumlin Norman Habel Nonie Sharp W E H Stanner Tony Swain and Peter Willis Saqqaq Jens Dahl, 2015-02-26 In the early eighteenth century West Greenland became a colonial territory of Denmark Nevertheless a large number of Inuit communities maintained significant aspects of their cultural and economic practices When home rule was introduced in 1979 the benign paternalism of colonial days was superseded by the incorporation of ethnic and institutional relations under a unified political system in Greenland A national Greenlandic Inuit community was created forcing further cultural adaptation on the part of the Inuit Jens Dahl analyses life in Saqqaq a small Greenlandic hunting community and explores the changes that have taken place there over the last couple of decades As modern technology is introduced and the worldviews of the Greenlandic Inuit change the hunting community continues to base its life on a traditional notions including an economy involving sharing exchanging and free access to the hunting and fishing grounds Dahl demonstrates that Saqqaq and other communities have adapted to colonial and post colonial influences by combining their practices of hunting and fishing with other forms of employment In the midst of these economic developments however hunters are losing control over their traditional lands Dahl discusses this conflict within the political context making Saqqaq a unique and valuable example of Inuit survival in the modern world **Applied Anthropology in Canada** Edward J. Hedican, 2008-01-01 Anthropologists are often reluctant to present their work relating to matters of a broad social context to the wider public even though many have much to say about a range of contemporary issues In this second edition of a classic work in the field Edward J Hedican takes stock of Anthropology s research on current indigenous affairs and offers an up to date assessment of Aboriginal issues in Canada from the perspective of applied Anthropology In his central thesis Hedican underlines Anthropology s opportunity to make a significant impact on the way Aboriginal issues

are studied perceived and interpreted in Canada He contends that anthropologists must quit lingering on the periphery of debates concerning land claims and race relations and become more actively committed to the public good His study ranges over such challenging topics as advocacy roles in Aboriginal studies the ethics of applied research policy issues in community development the political context of the self government debate and the dilemma of Aboriginal status and identity in Canada Applied Anthropology in Canada is an impassioned call for a revitalized Anthropology one more directly attuned to the practical problems faced by First Nations peoples Hedican s focus on Aboriginal issues gives his work a strong contemporary relevance that bridges the gap between scholarly and public spheres *Politics and History in Band Societies* Richard Lee,1982-09-30 The papers collected in this volume present important information on the history and culture of contemporary gathering and hunting peoples from Canada India Africa Australia and the Philippines The volume focuses on two themes first on the techniques which band living foraging peoples employ to organise their social and economic lives and second on their fight for the right to their own lands and for a measure of cultural and political autonomy The contributors maintain that gatherer hunters are not examples of a disappearing way of life but peoples who have maintained their social and economic practices through long periods of contact with stratified societies The aim of this volume it to make known to as wide an audience as possible the daily lives the patterns of relations between the sexes and the political orientations of the world s contemporary foragers *The Return of Polyandry* Heidi E. Fjeld,2022-08-12 Tibet is known for its broad range of marriage practices particularly polyandry where two or more brothers share one wife With economic development and massive Chinese social and political reforms including new marriage laws prohibiting plural marriages polyandry was expected to disappear from Tibetan communities This book takes as its starting point the surprising increase in polyandry in Panam valley from the 1980s
