Governing Ourselves? Mary Louise McAllister, 2011-11-01 Popular rhetoric suggests that the twenty first century has ushered in an era of homogeneity Urbanization globalization amalgamation media conglomeration and technological convergence have become familiar terms Given the pressures of integration and assimilation how are people within communities able to make decisions about their own environment whether individually or collectively To what extent can they govern themselves Governing Ourselves explores issues of influence and power within local institutions and decision making processes using numerous illustrations from municipalities across Canada It shows how communities large and small from Toronto to Iqaluit have distinctive political cultures and therefore respond differently to changing global and domestic environments Case studies of Prince George Sherbrooke Saint John and Kitchener Waterloo are used to illuminate historical and contemporary challenges to local governance This stimulating book covers traditional topics such as government structures and institutions and intergovernmental relations It also reaches more broadly into areas of inquiry relevant to geography urban planning environmental studies public administration sociology and Canadian studies **Citizen**

Participation at the Local Level in China and Canada Andrew Sancton, Chen Zhenming, 2014-11-13 What if anything is similar about citizen participation at the local level in Canada and China The answer of course is politically sensitive There are many in Canada who would claim that the question is absurd How can there be meaningful citizen participation in a country where there are significant restrictions on political activity including on the right to form organizations with political purposes Presenting the work of leading scholars Citizen Participation at the Local Level in China and Canada examines how citizens in each country participate at the local level The book examines the development of citizen participation in local governance in Canada and China respectively It then covers the characteristics of political culture and climate on local participation highlighting factors especially unique to urban poor class migration and aboriginal and immigrant populations The chapters also explore means of protest demonstration and articulation of preference by populations and issues where citizen participation has effected change such as land use housing urban development and resource sustainability The book includes case studies that compare Canadian and Chinese communities and extrapolate interesting policy level changes at the local level based on citizen behavior and involvement It underscores the similarities and differences in political participation in both countries and sets the stage for the steps in the citizen participation in both countries **Washington**

State Politics and Government T.M. Sell, 2023-11 In the twenty first century as many candidates actively campaign against the very government they seek to serve in and as many people appear to believe their government irreparably broken T M Sell argues that in Washington State the system works better than most realize In Washington State Politics and Government Sell explains how the many parts of government function and introduces readers to a diverse array of individuals who work in

government including how they got there and what it is they're trying to do. Sell covers the three branches of state government plus county city special purpose district and tribal governments. He explains the state budgets and taxes the functions of major and better known state agencies how policy is made the political landscape of Washington and parties voting and elections. Sell discusses economic development including the importance of high tech industry aviation Amazon.com and more traditional parts of the state economy such as timber and agriculture. He also provides a contemporary look at Washington's elected officials constitution judiciary media demographics and political culture and landscape. With this volume any Washington citizen student of politics or specialist in government can gain insight into the state's current political system.

Deindustrializing Montreal Steven High, 2022-06-13. Point Saint Charles a historically white working class neighbourhood with a strong Irish and French presence and Little Burgundy a multiracial neighbourhood that is home to the city's English speaking Black community face each other across Montreal's Lachine Canal once an artery around which work and industry in Montreal were clustered and by which these two communities were formed and divided. *Deindustrializing Montreal* challenges the deepening divergence of class and race analysis by recognizing the intimate relationship between capitalism class struggles and racial inequality. Fundamentally deindustrialization is a process of physical and social ruination as well as part of a wider political project that leaves working class communities impoverished and demoralized. The structural violence of capitalism occurs gradually and out of sight but it doesn't play out the same for everyone. Point Saint Charles was left to rot until it was revalorized by gentrification whereas Little Burgundy was torn apart by urban renewal and highway construction. This historical divergence had profound consequences in how urban change has been experienced understood and remembered. Drawing extensive interviews a massive and varied archive of imagery and original photography by David Lewis into a complex chorus Steven High brings these communities to life tracing their history from their earliest years to their decline and their current reality. He extends the analysis of deindustrialization often focused on single industry towns to cities that have seemingly made the post industrial transition. The urban neighbourhood has never been a settled concept and its apparent innocence masks considerable contestation divergence and change over time. *Deindustrializing Montreal* thinks critically about locality revealing how heritage becomes an agent of gentrification investigating how places like Little Burgundy and the Point acquire race and class identities and questioning what is preserved and for whom.

Ecology or Catastrophe Janet Biehl, 2015-09-01. Murray Bookchin was not only one of the most significant and influential environmental philosophers of the twentieth century he was also one of the most prescient. From industrial agriculture to nuclear radiation Bookchin has been at the forefront of every major ecological issue since the very beginning often proposing a solution before most people even

recognized there was a problem Ecology or Catastrophe The Life of Murray Bookchin is the first biography of this groundbreaking environmental and political thinker Author Janet Biehl worked as his collaborator and copyeditor for 19 years editing his every word Thanks to her extensive personal history with Bookchin as well as her access to his papers and archival research Ecology or Catastrophe offers unique insight into his personal and professional life Founder of the social ecology movement Bookchin first started raising environmental issues in 1952 He foresaw global warming in the 1960s and even then argued that we should look into renewable energy sources as an alternative to fossil fuels Wary of pesticides and other chemicals used in industrial agriculture he was also an early advocate of small scale organic farming which has developed into the present locavore movement and the revival of organic markets Even Occupy can trace the origins of its leaderless structure and general assemblies to the nonhierarchical organizational form Bookchin developed as a libertarian socialist Bookchin believed that social and ecological issues were deeply intertwined Convinced that capitalism pushes businesses to maximize profits and ignore humanist concerns he argued that eco crises could be resolved by a new social arrangement His solution was Communalism a new form of libertarian socialism that he developed An optimist and utopian Bookchin believed in the potentiality for human beings to use reason to solve all social and ecological problems

Canadian Parties in Transition, Third Edition Alain G. Gagnon, Brian Tanguay, 2007-05-01 Alain G Gagnon and A Brian Tanguay continue the work of earlier editions of Canadian Parties in Transition by presenting a multi faceted image of party dynamics electoral behaviour political marketing and representative democracy with chapters written by an outstanding team of political scientists Innovative features of the third edition include an examination of party alignments and the mobilization of interests a discussion of democratic participation and a critical exploration of direct democracy through referendums and other mechanisms The comparative literature on party politics is brought in systematically to provide a better account of Canadian party politics The greater part of this volume consists of entirely new chapters others have been completely revised and updated An appendix that provides Canadian federal election results from 1925 to 2006 rounds out the book

Enlightenment and Ecology Tarinski Yavor Tarinski, 2021-02-20 Throughout his life prophetic American philosopher Murray Bookchin created social ecology as a comprehensive social program for the challenges of our present era Through tireless teaching speaking organizing and writing Bookchin presented a humanist vision of ecology based on community direct democracy and the better promises of the Enlightenment showing how we could transform our society into one that is free and egalitarian Enlightenment and Ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work This book also examines how the Kurdish freedom movement is using the Bookchin s utopian ideas In a time of urgent need for radical change these essays provide both precious historical lessons and a transformative road map

Problems of Change in Urban Government M.O. Dickerson, S. Drabek, John Woods, 2006-01-01 In 1911 one of every three Canadians lived in urban areas today three out of four do This growth has raised serious issues in urban government How should power and authority be distributed among differing often competing urban interests How can municipal governments obtain the funds they need to satisfy the increased demand for community and social services How much should citizens participate At a conference held in Banff on alternate forms of urban government academics and practitioners considered these and other pressing urban problems Problems of change in urban government presents the results of the conference along with other related essays The contributors are Lloyd Axworthy Meyer Brownstone Stephen Clarkson J A Johnson James Lorimer Allan O'Brien T J Plunkett Louise Quesnel Ouellet Paul Tennant and the volume editors *Canadian Books in Print* 2002 Marian Butler, 2002-02 *The Public Wealth of Cities* Dag Detter, Stefan Folster, 2017-07-18 How to leverage existing resources to meet the current and future needs of cities Crumbling streets and bridges Poorly performing schools and inadequate social services These are common complaints in cities which too often struggle just to keep the lights on much less make the long term investments necessary for future generations It doesn't have to be this way This book by

two internationally recognized experts in public finance describes a new way of restoring economic vitality and financial stability to cities using steps that already have been proven remarkably successful The key is unlocking social human and economic wealth that cities already own but is out of sight or hidden A focus on existing public wealth helps to shift attention and resources from short term spending to longer term investments that can vastly raise the quality of life for many generations of urban residents A crucial first step is to understand a city s balance sheet too few cities comprehend how valuable a working tool this can be With this in hand taxpayers politicians and investors can better recognize the long term consequences of political decisions and make choices that mobilize real returns rather than rely on more taxes debt or austerity Another hidden asset is real estate Even poor cities own large swathes of poorly utilized land or they control underperforming utilities and other commercial assets Most cities could more than double their investments with smarter use of these commercial assets Managing the city s assets smartly through the authors proposed Urban Wealth Funds at arm s length from short term political influence will enable cities to ramp up much needed infrastructure investments

Power to the People! Richard Panchyk, 2022-03-22 An important and empowering history of and guide to the battle for our right to safe products and conditions for younger readers Corporations enter our daily lives from the moment we wake up until we turn off the lights at night Large Internet companies health insurance companies fuel and transportation companies all play a role in our lives every moment of every single day And yet what power do we have over their actions or intentions None except through redress in a court of law for any harm they may have done This area of the law is known as torts from the French word for wrongs Power to the People offers a deep understanding of how civil actions work through many examples and straightforward language for the middle grade student reader From Ralph Nader s 1966 law changing address to Congress on automobile safety it s thanks to Nader that we wear seat belts to the decades long battle to raise awareness of the risks of smoking cigarette and cigar smoke contains over 7 000 chemicals and has caused the deaths of more than 2 5 million nonsmokers in the last half century readers will learn how we must fight to protect ourselves from corporations that are more concerned with profit than our safety Corporate America will listen Panchyk argues but only if we make ourselves heard Power to the People explores all the ways we the people can be powerful too *Fixing Broken Cities* John Kromer, 2023-03-28 Fixing Broken Cities explores the planning execution and impact of urban repopulation and investment strategies that were launched in the wake of two crises late twentieth century economic disinvestment and the outbreak of the COVID 19 pandemic Because past practices could no longer serve as a reliable guide to future outcomes in this uncertain environment any new initiatives had to involve a significant level of risk taking Based on the author s experience as a policymaker and practitioner this book provides detailed insights into the origins and outcomes of these high risk strategies along with an explanation of why they succeeded or failed This new edition examines policy initiatives from a fresh perspective based on an awareness that 1 real estate ventures are best evaluated over the long term rather than shortly after

the completion of construction activity 2 policies that had guided the allocation of public sector resources during past decades of urban disinvestment need to be reconsidered in light of the economic resurgence that many American cities are now experiencing and 3 the places described in this book are representative of other municipalities of all kinds where the pandemic has led to a fundamental rethinking of the relationship between home and workplace A key theme of the book is equitable development the question of who should benefit from the allocation of scarce public capital and what investment policies are most likely to support this principle over the long term The author provides realistic guidance about pursuing the best opportunities for improvement in highly disadvantaged resource starved urban areas with reference to several key issues that are pressing concerns for members of urban communities enlivening downtown and neighborhood commercial areas stabilizing and strengthening residential communities eliminating industrial age blight and providing quality public education options This new edition will be of great use to planning housing and community development professionals both regionally and nationally as well as to students on Urban Politics and Planning courses
