Reconciliation Restoring Justice:

Reconciliation John W. De Gruchy, 1872 Whether born in the Mideast Africa Asia or brought home to the streets of America violent hatreds often threaten to swamp the minimal cooperation needed to foster life and health Does Christianity have anything besides warmed over pieties to offer a world torn by estrangement alienation and violently opposed worldviews In this signal contribution to public theology John de Gruchy an internationally esteemed political theologian emphatically affirms the possibility and necessity of reconciliation For Christians he says reconciliation is the center and perennial test of their faith De Gruchy expands reconciliation s relevance beyond personal piety and ecclesial harmony to encompass group relations politics and even the environment In all cases he argues it involves the restoration of justice Forged in the recent experience of South Africa his work delineates the political and ecclesial significance of reconciliation and shows its importance for interreligious relations addressing victimization and international peace Reconciliation will be welcomed by all whose faith leads them to help alleviate the world s mounting agonies *Restoring Justice* Daniel W. Van Ness, Karen Heetderks Strong, 2014-02-01 Restoring Justice An Introduction to Restorative Justice offers a clear and convincing explanation of restorative justice a movement within criminal justice with growing worldwide influence It explores the broad appeal of this new vision and offers a brief history of its development The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter amends inclusion and reintegration After exploring how restorative justice ideas and values may be integrated into policy and practice it presents a series of key issues commonly raised about restorative justice summarizing various perspectives on each Restoring Justice after Large-scale Violent Conflicts Ivo Aertsen, Jana Arsovska, Holger-C Rohne, Marta Valiñas, Kris Vanspauwen, 2013-05-13 This book provides a comparative analysis of the potential of restorative justice approaches to dealing with mass victimization in the context of large scale violent conflicts focusing on case studies from Kosovo Israel Palestine and Congo incorporating contributions from leading authorities in these areas One of the main objectives of the book is to examine if how and to what extent restorative justice is applicable in various different cultural social and historical contexts and what common themes can be identified within the different regions under analysis The book will also provide a critical analysis of the UN Basic Principles on the use of restorative justice programmes in criminal matters as applied to the context of large scale violence **The Church Struggle in South Africa** John W. De Gruchy, 2005 No more heartrending yet hopeful case study in Christian ethics exists than in the story of South African apartheid and its recent decisive transformation John de Gruchy s authoritative and newly updated account of Christian complicity with and then resistance to one of the world s most notoriously repressive regimes holds indispensable lessons and dangerous memories for all concerned about evil justice and racial reconciliation Towards a Contextualized Conceptualization of Social Justice for Post-Apartheid Namibia Basilius M. Kasera, 2024-05-31 The search for justice beyond the basic political understanding is

profoundly theological and ethical In this work Dr Basilius M Kasera analyses the meaning of justice in post apartheid Namibia from a biblical perspective He argues that notions of justice carry no meaning unless they emanate from the community of the affected Every group of people by virtue of being God s image bearers are able to assess their own context and provide befitting solutions However this kind of agency has not been afforded to the post apartheid Namibian society which continues to operate on borrowed models of justice While extrapolating on Allan Boesak s beneficial theological concepts of justice Dr Kasera encourages theologians and Christians at large to participate in the creation of meaningful effective and transformative policies programmes practices systems and justice institutions Just Revolution Anna Floerke Scheid,2015-06-17 Despite the U S Catholic Bishops 1983 declaration that insufficient analytical attention has been given to the moral issues of revolutionary warfare theological scholarship has been slow to engage in systematic analysis of what makes a revolution ethical or unethical Just Revolution A Christian Ethic of Political Resistance and Social Transformation aims to address this lacuna What principles and practices ought to guide people who want to free themselves from dictatorial or oppressive governments With this question in mind this book focuses on oppressed peoples as agents of their own processes of social transformation The model of just revolution proposed endeavors to limit violence to do the least possible harm while overcoming political oppression working toward a justice and promoting long term efforts at peacebuilding and sociopolitical reconciliation Using the South African struggle against apartheid as a case study Just Revolution posits an ethic for revolutionary activity that begins with nonviolent just peacemaking practices allows for limited and restrained armed resistance in accordance with revised just war criteria and promotes post revolutionary transitional justice and social reconciliation Together the practices and criteria that emerge from this study yield a rich and theologically grounded ethic of just revolution

Transitional Justice in Troubled Societies Aleksandar Fatic,Klaus Bachmann,Igor Lyubashenko,2018-11-26 This book discusses the crucial strategic topic for the practical implementation of transitional justice in post conflict societies by arguing that the dilemma is defined by the extent to which the actual achievement of the political goals of transition is a necessary condition for the long term observance and implementation of justice While in many cases the blind criminal justice does not enhance and even militates against the achievement of political transitions an understanding of transitional justice as a fundamentally political process is novel controversial and a concept which may shape the future of transitional justice This collection contributes to developing this concept both

Transformation Management Ronnie Lessem,Alexander Schieffer,2016-02-17 The concept of transformation has long been known to the sciences and has been around in the popular vocabulary for several decades Because it has never been fully developed as a managed process and applied to our organizations the way in which we have been trying to deal with the complex issues we face today is looking increasingly inadequate Transformation management argue the authors of this inspirational book now provides the opportunity for the application of the first significant world wide innovation in the way we manage since Drucker put management itself on the map in the 1950s In a book that draws on seminal theses and practical examples from the four corners of the world Ronnie Lessem and Alexander Schieffer provide leaders students of leadership managers and change agents with a trans culturally tested integrated approach to leadership and management Only through a redefinition of what leadership management and entrepreneurship amount to say the authors can organizations be transformed into sustainable enterprises capable of dealing with the burning issues of our time Leaders are coming to realise that it is no longer possible for organizations to operate in any sort of isolation from the society and the wider world in which they exist but paying lip service to notions of either social responsibility or globality is not good enough From this indispensable book those whose enterprises are to have any hope of becoming authentically socially responsible or authentically global will learn to understand and activate the process that dynamically links any organization with the society in which it is embedded and that links the local with the global The practice of transformation management is about creating real value for organizations people and society This book from the Transformation and Innovation Series makes that practice possible
