Religious Business:

The ^ABusiness Turn in American Religious History Amanda Porterfield, Darren Grem, John Corrigan, 2017-07-19 Focusing on the interdependence of business and religious life in America this volume explores the business aspects of numerous religious organizations with attention to the financing production marketing and distribution of religious goods and services and to the role of wealth and economic organization in worship charity philanthropy institutional growth and missionary work Treating religion and business holistically the essays show how business practices have continually informed American religious life and how business has operated as a vital domain of religious life that historians of religion often overlook

The Family Business Map M. Bennedsen, J. Fan, 2014-09-29 Combining the expertise of two consultants and academics from East and West this book provides an international guide for family businesses showing how to identify and implement the best governance strategies Packed with case studies and interviews this is the ultimate guide for family businesses wanting to achieve long term success

Religious-Spiritual Diversity in Organisations Edwina Pio, Robert Kilpatrick, Peter Lineham, 2024-02-12 Challenges involved in the interplay between religion and business are incredibly complex and as such this book thoughtfully considers the critical issue of inclusion and how employers should view its importance Whilst exploring the intricacies of organised religion it investigates how mindful religious wisdom can be harmoniously applied within corporate and not for profit environments

Expenditures of the 82,666 Membership Organizations with Payroll Totaled \$12.1 Billion in 1977 ,1980

Religion and Trade Francesca Trivellato, Leor Halevi, Cátia Antunes, 2014 This vibrant collected volume considers the question how exactly did the relationship between trade and religion develop historically Examining a wide range of commercial exchanges across religious boundaries around the Mediterranean Sea and the Atlantic and Indian Oceans during the second millennium it offers a variety of perspectives on this intriguing and surprisingly neglected subject

State-Business Alliances and Economic Development Işık Özel, 2014-08-07 This book argues that a key dynamic behind economic development in the emerging markets is the coordination between the state and businesses Exploring the links between institutions state business alliances and economic development in the context of tumultuous market transitions since the 1980s the book tackles the formation and sustainability of coordination inducing institutions besides their mere existence and points out the new modalities of coordination in the age of new developmentalism Based on extensive original research in Turkey and Mexico embedded in a comparative historical analysis the book shows how state business alliances have been formed collapsed and re formed between the respective states and shifting business actors since the launching of market transitions It demonstrates how both the state and business actors and their cohesiveness vs fragmentation play crucial roles in the making and sustainability of the institutions which are central to state business alliances It explores the emergence of new actors the diversification of the organizational landscape and the evolution of the ways in which the states interact with businesses throughout major

economic and political transformations that helped transform the respective states and their interactions with the non state actors It draws on the meandering developmental trajectories of Turkey and Mexico from the 1970s to the present and goes on to draw some lessons for institution building and market reforms in selected countries in North Africa **Creed &**

Grievance Abdul Raufu Mustapha,David Ehrhardt,2018 Analyses the complexities of Christian Muslim conflict that threatens the fragile democracy of Nigeria and the implications for global peace and security *The Evangelical Age of Ingenuity in Industrial Britain* Joseph Stubenrauch,2016 It demonstrates that developments in technology commerce and infrastructure in the late eighteenth and early nineteenth centuries were closely linked to theological shifts and changing modes of religious life as British evangelicals developed new methods of spreading the gospel and new forms of personal religious practice

Democracy, Religion, and Commerce Kathleen Flake,Nathan B. Oman,2023-03-13 This collection considers the relationship between religion state and market In so doing it also illustrates that the market is a powerful site for the cultural work of secularizing religious conflict Though expressed as a simile with religious freedom functioning like market freedom free market religion has achieved the status of general knowledge about the nature of religion as either good or bad It legislates good religion as that which operates according to free market principles it is private with no formal relationship to government and personal a matter of belief and conscience As naturalized elements of historically contingent and discursively maintained beliefs about religion these criteria have ethical and regulatory force Thus in culture and law the effect of the metaphor has become instrumental not merely descriptive This volume seeks to productively complicate and invite further analysis of this easy conflation of democracy religion and the market It invites scholars from a variety of disciplines to consider more intentionally the extent to which markets are implicated and illuminate the place of religion in public life The book will be a valuable resource for researchers and academics working in the areas of law and religion ethics and economics **The First Amendment and LGBT Equality** Carlos A. Ball,2017-03-27 Carlos A Ball argues that as

progressives fight the First Amendment claims of religious conservatives and other LGBT opponents they should take care not to forget the crucial role the First Amendment played in the early decades of the movement and not to erode the safeguards of liberty that allowed LGBT rights to exist in the first place **Managing God's Business** Malcolm

Torry,2017-03-02 Religious and faith based organisations constitute a large and important group of organisations This is the first book to study systematically their characteristics and the distinctive challenges they pose to the people managing them Malcolm Torry discusses how to define religious and faith based organisations how to study them and the secular context in which they operate in Western Europe and the USA There are chapters on congregations denominations governance membership the clergy leadership and religious and faith based organisations relationship to civil society The book relies on research based literature and case studies and contains full bibliographies making it an essential tool for anyone studying this important new field Religious Liberties for Corporations? D. Gans,I. Shapiro,Ralf Norrman,2014-11-07 An expanded

version of a series of debates between the authors this book examines the nature of corporate rights especially with respect to religious liberty in the context of the controversial Hobby Lobby case from the Supreme Court's 2013-14 term

Understanding the Relationship Between Religion and Entrepreneurship Tamzini, Khaled, Salem, Anis Ben, 2019-11-22 In recent years a number of scholars trained in the area of economics have begun to pay attention to a fascinating and increasingly important question Does the interrelationship between religion and enterprise shape entrepreneurial decision making Though religious groups can provide additional means for the generation of social capital especially where ethnicity is strongly associated with specific religious adherence it has been largely absent in economic discussions *Understanding the Relationship Between Religion and Entrepreneurship* is a collection of innovative research on the methods and applications of religious theology on entrepreneurial decision making While highlighting topics including women in business religious marketing and consumer behavior this book is ideally designed for entrepreneurs theologists business managers policymakers researchers industry professionals academician and students seeking current research on the economic impacts of religious beliefs and practices Religion, Race, and COVID-19 Stacey M. Floyd-Thomas, 2022-02-15 Examines how the dynamics emerging from the pandemic affect our most vulnerable populations and shape a new religious landscape The COVID 19 pandemic upset virtually every facet of society and in many cases exposed gross inequality and dysfunction The particular dynamics emerging from the coronavirus pandemic have been felt most intensely by America's most vulnerable populations who are disproportionately people of color and the working poor the people whom the Bible refers to as the least of these This book makes the case that the pandemic was not just a medical phenomenon or an economic or social one but also a religious one Religious practice has been altered in profound ways Controversies around religious freedom have been re ignited over debates concerning whether government can restrict church services Christian white supremacists not only defied shelter in place orders but found new ways to propagate racist attacks with their White Christian identity fueling their reactions to the pandemic Some religious leaders including those in communities of color saw the virus as an indicator of God's wrath or as a divine test and viewed altering their traditional practices to mitigate the virus's spread as a weakening of faith *Religion Race and COVID 19* argues that there is a religious hierarchy in US society that puts the least of these last while prioritizing those who benefit most from white privilege Yet these vulnerable populations draw on theological and religious resources to contend with these existential threats The volume shows how social transformation occurs when faith is both formed and informed during crises offering compelling insight into the saliency and lasting impact of religiosity within human culture **Sacred Mission, Worldly Ambition** Adele Oltman, 2008 Using Savannah Georgia as a case study *Sacred Mission Worldly Ambition* tells the story of the rise and decline of Black Christian Nationalism This nationalism emerged from the experiences of segregation as an intersection between the sacred world of religion and church and the secular world of business The premise of Black Christian Nationalism was a belief in a dual

understanding of redemption at the same time earthly and otherworldly and the conviction that black Christians once delivered from psychic spiritual and material want would release all of America from the suffering that prevented it from achieving its noble ideals The study s use of local sources in Savannah especially behind the scenes church records provides a rare glimpse into church life and ritual depicting scenes never before described Blending history ethnography and Geertzian dramaturgy it traces the evolution of black southern society from a communitarian nationalist system of hierarchy patriarchy and interclass fellowship to an individualistic one that accompanied the appearance of a new black civil society Although not a study of the civil rights movement Sacred Mission Worldly Ambition advances a bold revisionist interpretation of black religion at the eve of the movement It shows that the institutional primacy of the churches had to give way to a more diversified secular sphere before an overtly politicized struggle for freedom could take place The unambiguously political movement of the 1950s and 1960s that drew on black Christianity and radiated from many black churches was possible only when the churches came to exert less control over members quotidian lives A Sarah Mills Hodge Fund Publication

Official Gazette of the United States Patent and Trademark Office ,2007 *Women, a Documentary of Progress During the Administration of Jimmy Carter, 1977 to 1981* ,1981 Theosophical Quarterly ,1914 *1977 Census of Service Industries: Subject statistics* ,1981 **Religious Change and Indigenous Peoples** Helena Onnudottir,Adam Possamai,2016-04-08 Exploring religious and spiritual changes which have been taking place among Indigenous populations in Australia and New Zealand this book focuses on important changes in religious affiliation in census data over the last 15 years Drawing on both local social and political debates while contextualising the discussion in wider global debates about changing religious identities especially the growth of Islam the authors present a critical analysis of the persistent images and discourses on Aboriginal religions and spirituality This book takes a comparative approach to other Indigenous and minority groups to explore contemporary changes in religious affiliation which have raised questions about resistance to modernity challenges to the nation state and or rejection of Christianity or Islam Helena Onnudottir Adam Possamai and Bryan Turner offer a critical analysis to on going public political and sociological debates about religious conversion especially to Islam and changing religious affiliations including an increase in the number of people who claim no religion among Indigenous populations This book also offers a major contribution to the growing debate about conversion to Islam among Australian Aborigines Maoris and Pacific peoples
