Retos Para La Modernización Industrial De México:

Retos para la modernización industrial de México Guillermo Becker, 1995 A la manera de una pirámide invertida esta obra se organiza primeramente su razón de ser la indispensable aplicación en México de una política industrial que rijan paralelamente los diversos acuerdos comerciales del país con el extranjero el autor toma en cuenta el desigual grado de desarrollo de nuestro país ante sus socios y los países con quienes compite el nivel de apertura la necesidad de más exportaciones y la urgencia de nuevos empleos Por otra parte descompone el todo que conforman los distintos sectores empresariales analiza el estado por el que atraviesan estos y lo sustenta con cifras y estadísticas sumamente reveladoras

Mexico's Economic Dilemma James M. Cypher, Raúl Delgado Wise, 2010-07-16 Written by two leading scholars this book provides a detailed analysis of Mexico's political economy James M Cypher and Raúl Delgado Wise begin with an examination of Mexico's pivotal economic crisis of the 1980s and the consequent turn toward an export led economy later anchored by NAFTA They show how Mexico after abandoning frequently successful past practices of state led development disastrously tied its future to an unconditional reliance on foreign corporations to promote an export led growth strategy Focusing on Mexico's cheap labor export model the authors use the maquiladora sector and the auto industry as case studies of the perils of globalization the race to the bottom as capital becomes ever more international The government's unconstrained free market policies they convincingly argue have resulted in a fragmented economy marked by stagnation falling wages informal part time employment and massive migration which define daily life for all but a tiny minority

Aspectos tecnológicos de la modernización industrial de México Pablo Mulás del Pozo, Jesús Álvarez C., 1995 En los diez capítulos de esta obra escritos por renombrados expertos se presentan diferentes facetas de los aspectos tecnológicos en la industria mexicana su modernización y la necesidad de competitividad en mercados internacionales Se incluyen también estudios de la preparación y motivación de los recursos humanos y las peculiaridades de la micro pequeña y mediana industrias
