Translation and Own-language Activities Philip Kerr, 2014-03-27 Practical ideas for using students own languages within the language classroom **Rough Draft** Amy J. Rutenberg, 2019-09-15 Rough Draft draws the curtain on the race and class inequities of the Selective Service during the Vietnam War Amy J Rutenberg argues that policy makers idealized conceptions of Cold War middle class masculinity directly affected whom they targeted for conscription and also for deferment Federal officials believed that college educated men could protect the nation from the threat of communism more effectively as civilians than as soldiers The availability of deferments for this group mushroomed between 1945 and 1965 making it less and less likely that middle class white men would serve in the Cold War army Meanwhile officials used the War on Poverty to target poorer and racialized men for conscription in the hopes that military service would offer them skills they could use in civilian life As Rutenberg shows manpower policies between World War II and the Vietnam War had unintended consequences While some men resisted military service in Vietnam for reasons of political conscience most did so because manpower policies made it possible By shielding middle class breadwinners in the name of national security policymakers militarized certain civilian roles a move that ironically separated military service from the obligations of masculine citizenship and ultimately helped kill the draft in the United States Standards-based Activities with Scoring Rubrics:
