A Passion for Castles Janet Brennan-Inglis,2022-10-06 In the 1880s two Edinburgh architects began to survey measure and sketch the castles of Scotland travelling the length and breadth of the country on trains bicycles and on foot Together they produced the five magnificent volumes of The Castellated and Domestic Architecture of Scotland an unrivalled work of research that surveys more than 700 of Scotland s castellated buildings ranging from great medieval fortresses to small lairds houses with pepper pot turrets and is illustrated with thousands of sketches and plans The first part of A Passion for Castles tells the life stories of David MacGibbon and Thomas Ross and their work as Edinburgh architects before they embarked on their magisterial survey revealing interesting and previously unknown details about the two men The second part of the book sets their enormously ambitious castles project in its historical context and describes how MacGibbon and Ross managed to achieve their pioneering systematic and comprehensive survey The final part of the book provides a regional overview of the current status of all the castles surveyed by MacGibbon and Ross followed by a thematic exploration of those that have been lost those that have been transformed and those at risk of collapse before posing questions about what the future holds for the castles of Scotland

Byzantium and British Heritage

Amalia G. Kakissis, 2023-07-12 Byzantium was a very influential part of the development of the Arts and Crafts Movement 1880 1910 in Britain and although the influence of the Gothic Revival 1830 80 is well known that of the Byzantine Revival 1840 1910 is not This volume is about the people and the movements that created the Byzantine Revival and shows how they influenced British heritage from architecture to the decorative arts during the late nineteenth and early twentieth centuries The central pillars of the volume are the architects and scholars who created the Byzantine Research Fund BRF Archive a unique collection of architectural drawings and photographs of numerous monuments across the Byzantine world and the social and professional networks in which they circulated The BRF members an eclectic and little known group who based themselves at the newly founded British School at Athens established the research of Byzantium in Britain and Greece They were trained in the traditions of the Arts and Crafts Movement which sought authenticity in design and decoration in reaction to the styles that had developed through industrialisation Their work uniting a distinctively British design tradition with Byzantine arts and crafts represents a highly significant and under researched link between Britain and the Hellenic

Schroeter, 2011-07-01 With only a small remnant of Jews still living in the Maghrib at the beginning of the 21st century the vast majority of today s inhabitants of North Africa have never met a Jew Yet as this volume reveals Jews were an integral part of the North African landscape from antiquity Scholars from Morocco Algeria Tunisia Israel and the United States shed new light on Jewish life and Muslim Jewish relations in North Africa through the lenses of history anthropology language and literature The history and life stories told in this book illuminate the close cultural affinities and poignant relationships between Muslims and Jews and the uneasy coexistence that both united and divided them throughout the history of the Maghrib **Spaces for Shaping the Nation** Marina Beck, Christina Strunck, 2024-04-02 As spaces of knowledge the national museums and galleries of nineteenth century Europe played an important role both in the shaping of nation states and the education of their populations In this context such institutions sought to convey the history of the people for example by displaying pictorial cycles of important scenes from their history exhibiting objects associated with certain formative events or arraying period rooms to promote a specific impression of the past The contributions to this volume examine the purposes and educational strategies of national museums and national galleries via case studies from Denmark France Germany Great Britain Italy the Netherlands Poland Sweden and Switzerland
