Secrets Of The New Age:

The Encyclopedic Sourcebook of New Age Religions James R. Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity. While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought. The present collection pursues this theme bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon.

Children of the New Age Steven Sutcliffe, 2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from the 1930s to the present day. **Handbook of New Age** Daren Kemp, James R. Lewis, 2007 The Handbook of New Age is a comprehensive survey of alternative spiritualities their history their global impact their cultural influence and how they are understood by scholars. Chapters by many of the leading scholars of the movement give the latest analysis of contemporary spiritual trends and present up to date observations of the interaction between the New Age movement and many different fields of knowledge and research. *The Gnostic Luciferian New Age Babylon Revisited* Gregory Lessing Garrett, 2019-09-30 The Gnostic Luciferian New Age Utopia will be based upon a Mystery Babylon re-visitation of tolerance for all behaviors narcissistically self-indulgent sexually perverse psychoactively induced and sinfully decadent with self-worship and self-adulation as the highest pinnacle of religious zeal. Additionally utilizing the trickery and artifice of an Alien Antichrist Messiah Deception the Luciferian Elite seek to obliterate Christianity and replace it with a Gnostic Pantheistic Cosmogogenesis narrative where Ancient Aliens are our true genetic origins and Cosmic Evolution with Mankind in tow is the Grand Design of the Universe. Since this is a very real situation which affects all the world in the direst sort of way the contents of this book are relevant to all citizens of the world. This book bravely explores the various guises that this repackaged Babylonian Gnostic Luciferianism has taken and how it got to this point as well as offers answers to this nefarious situation. **New Age Movement** Ron Rhodes, 2016-09-06 Reincarnation auras and energizing crystals surely these are the stuff of fairy tales nothing more.
