Seeing Castaneda : reactions to the 'Don Juan' writings of Carlos Castaneda: reactions to the 'Don Juan' writings of Carlos Castaneda , 1976 **Seeing** George Gillespie, 2019-11-14 After years of lucid dreaming the author spontaneously experiences a series of religious encounters with intense light which bring an awareness of the presence of God He describes a number of these encounters in detail The greater part of the book then presents an analysis of these experiences Perhaps the most unique part of the analysis based on the author's study of his hypnopompic lattice imagery is the description of how the internal visual image is constructed and seen three dimensionally In fact the visual image is shown to be identified with the part of oneself that sees the image Every part of the visual field is a nonduality of seer and seen Finally he analyzes the imagery of dreams out of which the experiences of light arise light as visual image and as spiritual event and the awareness of the presence of God His religious experiences of light are shown not to be dreams but to lie in a sense beyond dream imagery and dreaming **Seeing Castaneda** Daniel C. Noel, 1975 The Ethnopoetics of Shamanism M. Santos, 2016-04-30 Over the last century Western portrayals of shamanism have changed radically toward an ethnopoetics of shamanism While shamanic practices had long been indirectly registered by Westerners it is only since the late nineteenth century that they have taken on symbolic import within discourses of primitivism and debates over magic and rationality

Fantasies of the Master Race Ward Churchill, 1998 Chosen an Outstanding Book on the Subject of Human Rights in the United States by the Gustavus Myers Center for the Study of Human Rights In this volume of incisive essays Ward Churchill looks at representations of American Indians in literature and film delineating a history of cultural propaganda that has served to support the continued colonization of Native America During each phase of the genocide of American Indians the media has played a critical role in creating easily digestible stereotypes of Indians for popular consumption Literature about Indians was first written and published in order to provoke and sanctify warfare against them Later the focus changed to enlisting public support for civilizing the savages stripping them of their culture and assimilating them into the dominant society Now in the final stages of cultural genocide it is the appropriation and stereotyping of Native culture that establishes control over knowledge and truth The primary means by which this is accomplished is through the powerful publishing and film industries Whether they are the tragically doomed noble savages walking into the sunset of *Dances With Wolves* or Carlos Castaneda's Don Juan the exotic mythical Indians constitute no threat to the established order Literature and art crafted by the dominant culture are an insidious political force disinforming people who might otherwise develop a clearer understanding of indigenous struggles for justice and freedom This book is offered to counter that deception and to move people to take action on issues confronting American Indians today
