Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1974 **The Patchwork of World History in Texas High Schools** Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States *The Beliefs and Experiences of World Language Teachers in the US* Pamela M. Wesely, 2024-06-11 This book tells the stories of 15 world language WL teachers in the United States at elementary and secondary levels through rich descriptions of their lived worlds and experiences In depth interviews extensive observations learner interviews and document and environment analysis illustrate in detail how teacher beliefs relate to their practices and are mediated and moderated by their learners institutional demands equity and access to WL education and other factors The chapters provide a deep and robust explanation of individual teachers teaching lives and a cross contextual comparison of their experiences shining a light on the realities and demands of modern US schools Grounded in the research literature on language teacher beliefs and cognition this book takes the stance that all teaching is situated and contextual and that addressing teachers methods practices and knowledges in ways that are divorced from their setting and environment has serious limitations It offers fascinating insights

for researchers language educators and pre and in service teachers with reflection questions at the end of each chapter to guide readers in drawing connections with their own practice interests and contexts **National Educational Technology Standards for Teachers** International Society for Technology in Education,2002 Standards were developed to guide educational leaders in recognizing and addressing the essential conditions for effective use of technology to support P 12 education Transforming the Culture of Schools Jerry Lipka,With Gerald V. Mohatt,Esther Ilutsik,2014-01-21 This book speaks directly to issues of equity and school transformation and shows how one indigenous minority teachers group engaged in a process of transforming schooling in their community Documented in one small locale far removed from mainstream America the personal narratives by Yup k Eskimo teachers address the very heart of school reform The teachers struggles portray the first in a series of steps through which a group of Yup k teachers and university colleagues began a slow process of reconciling cultural differences and conflict between the culture of the school and the culture of the community The story told in this book goes well beyond documenting individual narratives by providing examples and insights for others who are involved in creating culturally responsive education that fundamentally changes the role and relationship of teachers and community to schooling *Handbook of Artificial Intelligence in Education* Benedict du Boulay,Antonija Mitrovic,Kalina Yacef,2023-01-20 Gathering insightful and stimulating contributions from leading global experts in Artificial Intelligence in Education AIED this comprehensive Handbook traces the development of AIED from its early foundations in the 1970s to the present day Research Bulletin United States.
