Lordship, Knighthood and Locality Peter R. Coss, 1991 *Lordship, Knighthood and Locality* Peter R. Coss, 1991-09-19 A study of the evolution of the knightly class in Coventry and Warwickshire **Lords of the Central Marches** Brock Holden, 2008-08-07 In the Middle Ages the March between England and Wales was a contested militarised frontier zone a land of war With English kings distracted by affairs in France English frontier lords were left on their own to organize and run lordships in the manner that was best suited to this often violent borderland The centrepiece of the frontier society that developed was the feudal honour and its court and in the March it survived as a functioning entity much longer than in England However in the twelfth century as the growing power of the English crown threatened Marcher honours their lords asserted their independence from the king s courts and the March became a land where the king s writ did not run At the same time the increased military capability of their Welsh adversaries put the Marcher lordships under enormous military and financial strain Brock Holden describes how this unusual frontier society developed in reaction to both the challenge of the native Welsh and the power of the English kings Through a multi faceted examination political economic social legal and military of the lordships of the Central March of Wales it examines how the feudal matrix of Marcher power developed over the course of the eleventh to thirteenth centuries **Lordship, Knighthood and Locality** Peter R. Coss, 2004-06-03 This book is a study in the evolution of English society between c 1180 and c 1280 The argument proceeds by means of a detailed analysis of the honour and locality of Coventry concentrating upon the nature of lordship and upon the social and economic fortunes of knights free tenants and local administrators and the relationships between them A further dimension is added by the existence of an important seignorial borough at the centre of the locality The book therefore not only explores the role of the town in the evolution of the knightly class but also examines more broadly the relationship between town and country in this period Following this analysis the book turns to a broader consideration of the fortunes of the knightly class in the Warwickshire region and to the issues surrounding the evolution of knighthood in general British Economic and Social History R. C. Richardson, William Henry Chaloner, 1996 **Rural Society and Economic Change in County Durham** A. T. Brown, 2015 In the middle of the fifteenth century the economy of north east England was beset by crises population was low production was stagnant and many landowners faced penury By the end of the sixteenth century however the precocious development of the coal industry and high levels of inflation provided opportunities for investment and profit in the Durham countryside This book examines the development of agrarian capitalism estate management tenure and the land market social mobility the gentrification of merchant wealth and the emergence of the yeomanry during this period in the region It looks at such questions as how the coal industry was affected by the fifteenth century recession and the effects its rapid expansion had upon landed society reassesses debates on the rise of the gentry and the crisis of the aristocracy and considers how the wholesale economic changes of this period affected the social structure of late medieval

and early modern England Although this period is often seen as a transitional era this book argues that it needs to be studied as one long agrarian cycle showing the degree to which patterns of landholding fixed during the fifteenth century recession affected the distribution of profits between different types of lords and tenants in the sixteenth and early seventeenth century A T Brown is an Addison Wheeler Fellow at Durham University **York** Sarah Rees Jones, 2013-10 This volume is a study of the development of the city of York as a place and as a community between 1068 and 1350 **Southern History**, 1992
