Lorimer And The Edinburgh Craft Designers:

Lorimer and the Edinburgh Craft Designers Peter D. Savage,1980 **Ernest Gimson** Annette Carruthers,Mary Greensted,Barley Roscoe,2019-10-04 This rich new volume brings to light the versatility and accomplishments of the English architect designer and maker Ernest Gimson a central figure in the Arts and Crafts Movement **Gardens of the Arts and Crafts Movement** Judith B. Tankard,2018-11-27 The ever alluring Arts and Crafts garden is profoundly relevant to our 21st century needs Sam Watters author of Gardens for a Beautiful America In Gardens of the Arts and Crafts Movement landscape scholar Judith B Tankard surveys the inspirations characteristics and development of garden design during this iconic movement Tankard presents a selection of houses and gardens of the era from Great Britain and North America With almost 300 illustrations and photographs and an emphasis on the diversity of designers who helped forge the movement Gardens of the Arts and Crafts Movement is an essential resource for this truly distinct approach to garden design The Hero Building Johnny Rodger,2016-03-09 Why was it that across Scotland over the last two and a half centuries architectural monuments were raised to national heroes Were hero buildings commissioned as manifestations of certain social beliefs or as a built environmental form of social advocacy And if so then how and why were social aims and intentions translated into architectural form and how effective were they A tradition of building architectural monuments to commemorate national heroes developed as a distinctive feature of the Scottish built environment As concrete manifestations of powerful social and political currents of thought and opinion these hero buildings make important statements about identity the nation and social history The book examines this architectural culture by studying a prominent selection of buildings such as the Burns monuments in Alloway Edinburgh and Kilmarnock the Edinburgh Scott Monument the Glenfinnan Monument and the Wallace Monument in Stirling They give testimony to how a variety of architectural forms and styles can be adapted through time to bear particular social messages of symbolic weight This tradition which literally allows us to dwell on important social issues of the past has been somewhat neglected in serious architectural history and heritage and indeed one of the main monuments has already been destroyed By raising awareness of this rich architectural and social heritage while analysing and interpreting the buildings in their historical context this book makes an exciting and original scholarly contribution to the current debates on identity and nationality taking place in Scotland and the wider UK **Memory and Memorials** William Kidd,Brian Murdoch,2017-05-15 The twentieth century perhaps more than any other was shaped by war and conflict In particular the two world wars have had a profound influence on the development of world history especially in western Europe The aim of Memory and Memorials however is not to seek the effects war has had on the twentieth century but rather to explore how societies chose to remember wars and manipulate this memory for political and cultural purposes Tackling issues of actual memory distorted memory and reconstructions of the past the use and nature of the war memorial and the reflection of all these points in selected art literature and film the main theme of Memory and Memorials is to stress both

continuity and change in memory and memorial Great Houses of Scotland Hugh Montgomery-Massingberd, Christopher Simon Sykes, 1997 26 houses photographed in colour and accompanied by informative text about their history **Designs on Death** Hilary J. Grainger, 2020-10-01 Despite seven out of ten people in Scotland choosing cremation in many ways crematoria are invisible buildings visited only by necessity and they have not received the attention they deserve Crematoria present a real challenge for architects They are paradoxical buildings religious and secular functional and symbolic required to satisfy the practical and emotional needs of all faiths and none This book provides architectural biographies of Scotland's thirty one crematoria explaining their increasing relevance in contemporary Scottish society and pointing to Scotland's distinctive contribution to the progress of cremation and the architecture of crematoria Many leading architects and craftsmen including Sir Robert Lorimer and Sir Basil Spence produced designs of great architectural merit and Scottish local authorities led the way in designing some of the most progressive crematoria in the UK These singular often contested buildings many in magnificent natural landscape settings reveal a great deal about the complex changing and distinctive attitudes to death and funeral rituals in Scotland A New Race of Men Michael Fry, 2013-10-03 War opened and closed Scotland's greatest century a pitiless part in the defeat of Napoleon in 1815 a huge blood sacrifice for the sake of victory from 1914 In between came the greatest contributions to the progress and happiness of the rest of mankind that the Scots have ever made in everything from the combine harvester to the mackintosh to anaesthesia It was a supremely successful achieving society yet one not without deep flaws in its urban poverty its destruction of the environment its religious intolerance its moral hypocrisy its crushing of Highland culture Michael Fry shows with an emphasis always on the human story how a succession of deep crises undermined the usually tranquil and prosperous surface of life in Victorian Scotland to leave a legacy of paradox that the modern nation has even today yet to overcome **The Arts and Crafts Movements in Dublin & Edinburgh** Nicola Gordon Bowe, Elizabeth Cumming, 1998 Dublin and Edinburgh were ideally placed to become important centres of the Arts and Crafts movement and its National Romantic corollary the Celtic Revival This profusely illustrated volume is the first major study of Arts and Crafts design in these two great capital cities It examines shared literary formal and ideological links and values strongly influenced by radical figures like Patrick Geddes W B Yeats and George AE Russell as well as differences while exploring the ambivalent relationship each city enjoyed with its native cultural heritage and with England The text is a totally revised and expanded catalogue of the acclaimed exhibition curated by the authors for the 1985 Edinburgh International Festival Of interest to design social and cultural historians the book begins with a joint introduction and two essays which place the achievements of each city within their social and cultural contexts These are followed by substantial catalogue sections which give biographical accounts of artists designers architects and craftsmen and women whose range of work deserves contextual and critical re evaluation **The Rise of Everyday Design** Monica Penick, Christopher Long, Harry Ransom Center, 2019-01-01 This fresh look at the Arts and Crafts Movement charts

its origins in reformist ideals its engagement with commercial culture and its ultimate place in everyday households

Architecture in Transition Kelly Crossman,1987-11-01 However behind the public face of design architectural life in Canada during the 1880s and 1890s was in turmoil The Canadian public had lost confidence in its designers students were forced to study abroad to secure a first class education professional rivalry was unscrupulous architectural competitions a scandal American architects and their architecture were the fashion These things changed but not before the world of the Canadian architect had been turned on its head replaced by one which resembled the world of contemporary architects with professional organisations regulated standards formalised education centred in the universities and the belief that Canadian architecture should reflect local climates culture and geography Kelly Crossman provides the first analysis of this period Beginning with a review of the architectural milieu in Toronto and Montreal in the 1880s he traces the rise of professionalism as an idea and architectural nationalism as a goal His analysis is more a history of architectural ideas than a survey of forms It places the architecture of these years in an historical and ideological context demonstrating that it developed with its own logic in response to national and international factors During the two decades after 1885 Canadian architects grappled with problems whose long term implications they could not have foreseen the role of the architect in industrialised society the need to accommodate and integrate applied science and the need to express their own and their country s personality in architectural form By the beginning of this century they had begun to find their own voice The story of this process will be of interest not just to students and scholars but to anyone interested in the development of Canada and its architecture

Scotch Baronial Miles Glendinning,Aonghus MacKechnie,2019-01-10 As the debate about Scottish independence rages on this book takes a timely look at how Scotland s politics have been expressed in its buildings exploring how the architecture of Scotland in particular the constantly changing ideal of the castle has been of great consequence to the ongoing narrative of Scottish national identity *Scotch Baronial* provides a politically framed examination of Scotland s kaleidoscopic castle architecture tracing how it was used to serve successive political agendas both prior to and during the three unionist centuries from the early 17th century to the 20th century The book encompasses many of the country s most important historic buildings from the palaces left behind by the lost monarchy to revivalist castles and the proud town halls of the Victorian age examining their architectural styles and tracing their wildly fluctuating political and national connotations It ends by bringing the story into the 21st century exploring how contemporary neo modernist architecture in today s Scotland as exemplified in the Holyrood parliament relates to concepts of national identity in architecture over the previous centuries

Empire Not only were Clyde built ships known the world over Scotland produced half of Britain's total production of railway equipment and the cotton and jute industries flourished in Paisley and Dundee In addition Scots were a hugely important source of manpower for the colonies Yet after the war Scotland became an industrial and financial backwater Emigration increased as morale slumped in the face of economic stagnation and decline The country had paid a disproportionately high price in casualties a result of huge numbers of volunteers and the use of Scottish battalions as shock troops in the fighting on the Western Front and Gallipoli young men whom the novelist Ian Hay called the vanished generation In this book Trevor Royle provides the first full account of how the war changed Scotland irrevocably by exploring a wide range of themes the overwhelming response to the call for volunteers the performance of Scottish military formations in 1915 and 1916 the militarization of the Scottish homeland the resistance to war in Glasgow and the west of Scotland and the boom in the heavy industries and the strengthening of women's role in society following on from wartime employment Royle has done First World War History a great service Gary Sheffield military historian His exceptional talents at narration produce a work that is both through provoking and engaging A vivid solidly written book International Review of Scottish Studies
