The Frankenstein Notebooks Charles Robinson, 2022-07-30

Mary Shelley's *Frankenstein* is arguably the best known work of the English Romantic period. First published in 1996, this edition of *The Frankenstein Notebooks* contains not only facsimiles and transcriptions of all of the surviving manuscripts related to the novel and a corrected critical text of *Frankenstein or The Modern Prometheus* but also a full range of factual information drawn from Shelley's and William Godwin's letters and journals, from newspaper ads of the day and from other available scholarship about the conception, gestation and birth of Mary Shelley's monster. This two-volume set contains a wealth of information vital to the creation and reception of *Frankenstein*. It will enable scholars, critics and students to see for themselves the exact extent of P. B. Shelley's editorial contributions and trace the artistic and ideological development of the novel at various stages in its formation. It will also enable the reader to explore the text itself to test and evaluate their own theses. This set will be of keen interest to those studying *Frankenstein*, the Romantics and 19th century literature. **Global**

Milton and Visual Art Angelica Duran, Mario Murgia, 2021-03-18 *Global Milton and Visual Art* showcases the aesthetic appropriation and reinterpretation of the works and legend of the early modern English poet and politician John Milton in diverse eras, regions and media: book illustrations, cinema, digital reworkings, monuments, painting, sculpture, shieldry and stained glass. It innovates an inclusive approach to Milton's literary art, especially his masterpiece *Paradise Lost*, in global contemporary aesthetics via intertextual and interdisciplinary relations. The fifteen purposefully brief chapters, 103 illustrations and 64 supplemental web images reflect the great richness of the topics and the diverse experiences and expertise of the contributors. Part I, *Panoramas*, provides overviews and key contexts. Part II, *Cameos*, offers different perspectives of the varied afterlives of the most widely circulating illustrations of *Paradise Lost*, those by Gustave Doré. Part III, *Textual Close-ups*, focuses on a rich variety of book illustrations from centuries-old elite engravings to a twenty-first-century graphic novel. Part IV, *A Prospect beyond Books*, explores visual media outside of books that manifest powerful connections, direct and indirect, with Milton's works and legend. *Dracula* Bob Madison, 1997 *The Visual Arts and Christianity in America* John Dillenberger, 2004-09-13 How has religion affected the creation and patronage of American art? This is the question explored in *The Visual Arts and Christianity in America*, the most comprehensive treatment of this subject to date. With its 184 illustrations, the volume is a visual and textual survey of both the religious paintings, statuary and architecture produced in America since colonial times and the attitudes toward such art expressed by the artists, the clergy and the religious press. By means of a multifaceted approach that includes investigation of biographical, journalistic, art historical as well as religious literature, a broad range of art objects and buildings are carefully placed in their social and intellectual context. Part One presents the colonial backdrop, both English and Spanish, against which and out of which the ensuing developments in American art and religious life took shape. Part Two treats nineteenth-century views of art and

architecture focusing on the views held by the clergy and conveyed in religious journals as well as the religious views of the artists and architects themselves In Part Three devoted to art in private and public life major issues emerge that will remain as such into the twentieth century the relation between nature and history the place of art in civil religion and the presence or absence of explicit biblical themes The fourth and entirely new portion of the book devoted to the twentieth century examines the continuities and discontinuities in style and content between nineteenth and twentieth century art in relation to spiritual and religious perceptions **Fantastic Monsters of the Films Complete Collection** ,2017-02-21 Horror

attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions. It is also closely connected to secularization, that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self-imposed state of religious indecision. *Children of Lucifer* makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it. Offering the most comprehensive account of this history yet written, van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction. *The Arts of Deception* James W. Cook, 2001. In *The Arts of Deception* James Cook explores the distinctly modern mode of trickery designed to puzzle the eye and challenge the brain. Upsetting the normally strict boundaries of value, race, class, and truth, the spectacles offer a revealing look at the tastes, concerns, and prejudices of America's very first mass audiences. God and the Gothic Alison Milbank, 2018. Alison Milbank provides a complete reimaging of the Gothic literary canon to examine its engagement with theological ideas, tracing its origins to the apocalyptic critique of the Reformation, female martyrs, and to the Dissolution of the monasteries, now seen as usurping authorities. *Paradise Preserved* Max F. Schulz, 1985. Examines the ways in which the idea of an earthly paradise inspired English life and thought in the eighteenth and nineteenth centuries.
