Lost Volume Cornelia Parker, Edward Woodman, 1993 Tir du site Internet de Book Works Lost volume a catalogue of disasters continues Cornelia Parker's preoccupation with destruction Following on from Cold Dark Matter where with the help of the British Army Parker exploded a garden shed crammed with objects Lost volume a catalogue of disasters uses the intimate form of the book to present several flattened objects that through the use of trompe l'oeil appear to have been squashed between the pages of the book Parker crushes these selected objects in a press between sheets of heavy paper creating embossed indentations and reducing the objects to two dimensional representations of their former three dimensional selves The selected objects are seemingly unconnected a contents page that includes objects not flattened in the book confuses matters further The book is perhaps best read as a way of seeing objects and the world in a new light **Art and Destruction** Jennifer Walden, 2014-01-14 Most talk of and writing on art is about its relationship to creation and creativity This of course takes various forms but ultimately the creative act in the making of art works is a key issue What happens when we put together art and destruction This has been referenced in some major areas such as that of art and iconoclasm and auto destructive art movements Less evident are accounts of more intimate smaller scale destructive interventions into the world of the made or exhibited art object or more singular and particularised approaches to the representation of mass destruction This volume addresses these lacunae by bringing together some distinct and very different areas for enquiry which nevertheless share a theme of destruction and share an emphasis upon the history of twentieth and twenty first century art making Scholars and makers have come together to produce accounts of artists whose making is driven by the breaking of or breaking down of matter and medium as part of the creative materialisation of the idea such as Richard Wentworth Bouke de Vries Cornelia Parker to name some of those artists represented here and indeed in one case how our very attempts to write about such practices are challenged by this making process Other perspectives have engaged in critical study of various destructive interventions in galleries Some of these whether as actual staged actions in real time or filmic representations of precarious objects are understood as artistic acts in and of themselves At the same time an account included in this volume of certain contemporary iconoclasts defacing or otherwise effecting destructive attempts upon canonised exhibited artworks reflects upon these destructive interventionists as self styled artists claiming to add to the significance of works via acts of destruction Yet other chapters provide a fresh outlook upon distinctive and unusual approaches to the representation of destruction in terms of the larger scale and landscape of artistic responses to mass destruction in times of war This book will be of interest to readers keen to encounter the range of nuance complexity and ambiguity applicable to the bringing together of art and destruction *Umbrella*, 1994 *Printmaking Today*, 1993 *Art & Design*, 1995 **Cornelia Parker** Cornelia Parker, Jessica Morgan, Jonathan Watkins, 2002 From the book's foreword Focusing on Cornelia Parker's recent work with fireworks and meteorites A combination of wonderful images and

Artists' Books Stephen Bury, 1995. The spread of printing in the 16th century severed the relationship between artist and book, but modern developments in technology such as lithography and desktop publishing have enabled this relationship to be restored. This book, which explores the history of artists' involvement with the book format in the 20th century, provides the historical, philosophical, and artistic background for practitioners and art historians. The book considers the pre-history of the artist's book, beginning with the work of Mallarmé and Apollinaire; Cubist, Futurist, Dada, and Fluxus books; the upsurge of manifesto, serial, and conceptual works of the 1960s and 1970s; and the growth of a self-conscious artists' books tradition in the 1980s and 1990s. The development of the artists' books are placed in the context of technological changes and movements in the history of modern art. Comprehensive reference material is provided by a bibliographic listing of over 500 key artists' books, an exhibition chronology, invaluable practical advice for the collector and librarian, and an extensive index. The Lost Prophecies The Medieval Murderers, 2009-06-01. A mysterious book of prophecies written by a 6th-century Irish monk has puzzled scholars through the ages. Foretelling wars, plagues, and rebellions, the Black Book of Bran is said to have predicted the Black Death and the Gunpowder Plot. But is it the result of divine inspiration or the ravings of a madman? A hidden hoard of Saxon gold? A poisoned priest? A monk skinned alive in Westminster Abbey? Only one thing is certain: whoever comes into possession of the cursed book meets a gruesome and untimely end. **Extra Innings** Doris Grumbach, 2014-12-02. A New York Times Notable Book. A moving glimpse of a life shrewdly examined. Extra Innings follows a year in the life of Doris Grumbach, beginning with the release of her previous memoir and journal, *Coming into the End Zone*, and revealing that the devoted essayist, novelist, and critic possesses as keen an eye in her seventies as she did when she wrote *The Spoil of Flowers* thirty years earlier. Grumbach details each passing month and the trials and tribulations therein. Age and experience have tempered her anger, allowing her to view the world in a rosier light than she has before. In this eventful period that concludes with her move from Washington, DC, to Maine, Grumbach travels between signings and speeches, describes her home life in a new state, and deals not only with her own mortality but with that of her daughter. Grumbach's wisdom and wit endure as she looks back on her

own memories seeing the world as only Doris Grumbach can **The Sound of History** Richard Doherty, 2002 The Eighth Army's victory at El Alamein in November 1942 was one of the pivotal points of the Second World War and significant as the first major victory for a British Army under sole British command The North African campaign had captured the public imagination in Britain and the victors of Alamein joined those of Agincourt and Waterloo in the ranks of British heroes This book looks at the background to the battle the preparations and the battle itself Doherty uses personal accounts war diaries official regimental and divisional histories and material from numerous archives to tell the story of this timely British victory
