Thirty one selected episodes of the series are written in a unique way by both the real Mark and his reel character Don West. This book has been written especially with the loyal fans of *Lost in Space* in mind. *Lost in Space* Judy Katschke, Akiva Goldsman, 1998 Ten year old Will Robinson and his family leave Earth to be colonists on the planet Alpha Prime only to become lost in space. **Lost in Space** Greg Klerkx, 2005-01-11 The daring revolutionary NASA that sent Neil Armstrong to the moon has lost its meteoric vision says journalist and space enthusiast Greg Klerkx. NASA he contends has devolved from a pioneer of space exploration into a factionalized bureaucracy focused primarily on its own survival. And as a result humans haven't ventured beyond Earth orbit for three decades. Klerkx argues that after its wildly successful Apollo program NASA clung fiercely to the spotlight by creating a government sheltered monopoly with a few Big Aerospace companies. Although committed in theory to supporting commercial spaceflight in practice it smothered vital private sector innovation. In striking descriptions of space milestones spanning the golden 1960s Space Age and the 2003 Columbia tragedy Klerkx exposes the real NASA and envisions exciting public private cooperation that could send humans back to the moon and beyond. lost in space Eckhard Feddersen, Insa Lüdtkke, 2014-09-05 Dementia presents immense challenges both for individuals as well as for society as a whole.
