Lost Civilizations Jim Willis, 2019-10-01 Unearthing the scientific evidence, myths and legends of ancient civilization. The reminders of the Ancients are everywhere. They are saved in remnants in archaeology. They are found in reminiscences in mythology. They are recorded in books, story, song and stone. Who were these people, aliens, man or myths? Do we still see their influences today? What remains of these inhabitants of the jungles, lost cities and dwellings underground, underwater and beyond? How did they rise? Why did they fall? Will they rise again? From pyramids and underground bunkers to watery graves and ancient astronauts. Lost Civilizations: The Secret Histories and Suppressed Technologies of the Ancients examines the archaeological evidence and the traces left behind by more than 70 ancient civilizations including Atlantis, Gobekli Tepe, Anasazi disappearance in the American Southwest, Nazca Lines of Peru, Turkey's Catalhuyk, Denisovan Ancestors' departure, Amazon Cities in the Jungle, Neanderthal Ancestors' extinction, The Eden Stories of Theoretical Physics, Underground Cities of the Grand Canyon. And many more. From ancient Egypt, middle America and the Nubian Desert to the frozen Antarctica, underwater ruins of Asia and clues of visits by ancient aliens. Lost Civilizations explores the unanswered questions about the true origins of man. Might there have been advanced civilizations long before the days of ancient Egypt and Mesopotamia? What do 3D imaging and new underwater mapping technology reveal? What do prehistoric artifacts, architecture, carvings, maps and monoliths tell us? Were rising waters, erupting volcanoes, catastrophic solar flares, comet or asteroid fragments or some other unimaginable cataclysmic disasters the death of these advanced civilizations? Touring the world and reviewing the scientific evidence, this fascinating book ties together historical events in one part of the world that produced actual effects in others. Uncovering hidden and suppressed pasts of technologically and culturally advanced ancient civilizations, it looks at how modern civilization compares and contrasts to those who have gone before. It will leave you with the sense that what has happened to past advanced civilizations might very well be happening again in our own time. With more than 120 photos and graphics, it is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

Opportunity Lost Marcus D. Pohlmann, 2008 In Opportunity Lost, Marcus D. Pohlmann examines the troubling issue of why Memphis city school students are underperforming at alarming rates. His provocative interdisciplinary analysis, combining both history and social science, examines the events before and after desegregation, compares a city school to an affluent suburban school to pinpoint imbalances and offers critical assessments of various educational reforms. In addition to his analysis of the problems, Pohlmann lays out educational reforms that run the gamut from early intervention and parental involvement to increasing teacher compensation, improving time utilization and more. Pohlmann's illuminating and original study has wide application for a problem that bedevils inner city children everywhere and prevents the promise of equality from reaching all of our nation's citizens. Lost in Transition Christian Smith,Kari Christoffersen,Hilary Davidson,Patricia Snell Herzog,2011-09-01 Life for emerging adults is vastly different today than it was for their counterparts even a generation ago Young people are waiting longer to marry to have children and to choose a career direction As a result they enjoy more freedom opportunities and personal growth than ever before But the transition to adulthood is also more complex disjointed and confusing In Lost in Transition Christian Smith and his collaborators draw on 230 in depth interviews with a broad cross section of emerging adults ages 18 23 to investigate the difficulties young people face today the underlying causes of those difficulties and the consequences both for individuals and for American society as a whole Rampant consumer capitalism ongoing failures in education hyper individualism postmodernist moral relativism and other aspects of American culture are all contributing to the chaotic terrain that emerging adults must cross Smith identifies five major problems facing very many young people today confused moral reasoning routine intoxication materialistic life goals regrettable sexual experiences and disengagement from civic and political life The trouble does not lie only with the emerging adults or their poor individual decisions but has much deeper roots in mainstream American culture a culture which emerging adults have largely inherited rather than created Older adults Smith argues must recognize that much of the responsibility for the pain and confusion young people face lies with them Rejecting both sky is falling alarmism on the one hand and complacent disregard on the other Smith suggests the need for what he calls realistic concern and a reconsideration of our cultural priorities and practices that will help emerging adults more skillfully engage unique challenges they face Even handed engagingly written and based on comprehensive research Lost in Transition brings much needed attention to the darker side of the transition to adulthood
