Lost Woods The Discovered Writing Of Rachel Carson:

Lost Woods Rachel Carson, 1999 This includes samples of Rachel Carson's early work for newspapers and for the U S Fish and Wildlife Service **Rachel Carson** Linda Lear, 1998-09-15 A biography of the environmentalist chronicles her development from biologist and nature writer to muckraker and champion of ecological causes [The Palgrave Handbook of Women and Science since 1660](#) Claire G. Jones, Alison E. Martin, Alexis Wolf, 2021-12-02 This handbook provides a comprehensive overview of core areas of investigation and theory relating to the history of women and science Bringing together new research with syntheses of pivotal scholarship the volume acknowledges and integrates history theory and practice across a range of disciplines and periods While the handbook's primary focus is on women's experiences chapters also reflect more broadly on gender including issues of femininity and masculinity as related to scientific practice and representation Spanning the period from the birth of modern science in the late seventeenth century to current challenges facing women in STEM it takes a thematic and comparative approach to unpack the central issues relating to women in science across different regions and cultures Topics covered include scientific networks institutions and archives cultures of science science communication and access and diversity With its breadth of coverage this handbook will be the go to resource for undergraduates taking courses on the history and philosophy of science and gender history while at the same time providing the foundation for more advanced scholars to undertake further historical and theoretical investigation

Routledge Handbook of Ecocriticism and Environmental Communication Scott Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2019-02-01 Ecocriticism and environmental communication studies have for many years co existed as parallel disciplines occasionally crossing paths but typically operating in separate academic spheres These fields are now rapidly converging and this handbook aims to reinforce the common concerns and methodologies of the sibling disciplines The Routledge Handbook of Ecocriticism and Environmental Communication charts the history of the relationship between ecocriticism and environmental communication studies while also highlighting key new paradigms in information studies diverse examples of practical applications of environmental communication and textual analysis and the patterns and challenges of environmental communication in non Western societies Contributors to this book include literary film and religious studies scholars communication studies specialists environmental historians practicing journalists art critics linguists ethnographers sociologists literary theorists and others but all focus their discussions on key issues in textual representations of human nature relationships and on the challenges and possibilities of environmental communication The handbook is designed to map existing trends in both ecocriticism and environmental communication and to predict future directions This handbook will be an essential reference for teachers students and practitioners of environmental literature film journalism communication and rhetoric and well as the broader meta discipline of environmental humanities *Rachel Carson: Pioneer of Environmentalism* Scott Gillam, 2010-09-01 This title examines the remarkable life of Rachel Carson

Readers will learn about Carson's family background, childhood education and groundbreaking work as an environmentalist and author. Color photos, detailed maps and informative sidebars accompany easy-to-read compelling text. Features include a table of contents, timeline, facts, additional resources, web sites, a glossary, a bibliography and an index. **Essential Lives** is a series in **Essential Library**, an imprint of **ABDO Publishing Company**. **Rachel Carson** Scott Gillam, 2010-08 Presents the life and accomplishments of the biologist whose work and advocacy, including her book *Silent Spring*, pioneered the environmental movement. **Rachel Carson**, Highwood N P presents a profile of American biologist and author Rachel Louise Carson, 1907-1964, as part of the *GirlSite* resource. The resource also offers access to additional information.

Debussy, Bergson and the Music of 'la duree' Charles Frantz, 2024-10-21 Charles Frederick Frantz provides a quantitative and qualitative analysis of Debussy's music through the lens of Bergson's philosophical perspective of *durée*, revealing his revolution in musical time. In *fin de siècle* Paris, Debussy was revolutionizing musical time while Bergson was establishing a metaphysics that challenged the notion of measured or spatialized time. Bergson argued that real time or *durée* could be grasped only through intuition, as opposed to analysis. Debussy eschewed analysis of music, declaring that separating it into parts was better left to engineers. Debussy's music and Bergson's *durée* were conceived and imagined in the environs of nature. The cycle of seasons, the gracefulness of a blooming flower or a gentle breeze all suggest continuity, flow and uninterrupted rhythm. The time of nature is the time of Debussy's music and Bergson's *durée*. Debussy's use of open forms and Golden Sections create a time world of an expanded present, never ceasing. Bergson's perception of real time is ever changing, bringing the past into the present and open to unforeseen novelty. This book is intended primarily for scholars in the disciplines of musicology, music theory and philosophy and can be used as a text for upper-level undergraduate or graduate courses in musicology or music theory. **Rachel Carson** Mary Ellen Snodgrass, 2021-03-16 Rachel Carson was a marine biologist credited with the founding of the ecology movement and the rise in ecofeminism. One of her most popular works was *Silent Spring*, which challenged the use of DDT, an insecticide infamous for its negative environmental effects and questioned the claims of modern industry. Carson also wrote essays, reviews, articles and speeches to educate the public about the impacts of chemical pollutants on both the environment and the human body. This literary companion provides readers with Carson's key messages via an A to Z index of topics discussed in her works, including carcinogens, endangered species and radioactivity. **The Faith of Scientists** Nancy K. Frankenberry, 2008-08-11 *The Faith of Scientists* is an anthology of writings by twenty-one legendary scientists from the dawn of the Scientific Revolution to the frontiers of science today about their faith, their views about God and the place religion holds or doesn't in their lives in light of their commitment to science. This is the first book to bring together so many world-renowned figures of Western science and present them in their own words, offering an intimate window into their private and public reflections on science and faith. Leading religion scholar Nancy Frankenberry draws from diaries, personal letters, speeches, essays and interviews and reveals that the faith of

scientists can take many different forms whether religious or secular supernatural or naturalistic conventional or unorthodox These eloquent writings reflect a spectrum of views from diverse areas of scientific inquiry Represented here are some of the most influential and colossal personalities in the history of science from the founders of science such as Galileo Johannes Kepler Francis Bacon Isaac Newton Charles Darwin and Albert Einstein to modern day scientists like Carl Sagan Stephen Jay Gould Jane Goodall Freeman Dyson Stephen Hawking Edward O Wilson and Ursula Goodenough Frankenberg provides a general introduction as well as concise introductions to each chapter that place these writings in context and suggest further reading from the latest scholarship As surprising as it is illuminating and inspiring *The Faith of Scientists* is indispensable for students scholars and anyone seeking to immerse themselves in important questions about God the universe and science

Spring After Spring Stephanie Roth Sisson, 2018-08-14 From Stephanie Roth Sisson the creator of *Star Stuff* comes a picture book biography of Rachel Carson the iconic environmentalist who fought to keep the sounds of nature from going silent As a child Rachel Carson lived by the rhythms of the natural world Spring after spring year after year she observed how all living things are connected And as an adult Rachel watched and listened as the natural world she loved so much began to fall silent *Spring After Spring* traces Rachel's journey as scientist and writer courageously speaking truth to an often hostile world through her book and ultimately paving the way for the modern environmental movement *The Oxford Handbook of Ralph Waldo Emerson* Christopher Hanlon, 2024-07-12 *The Oxford Handbook of Ralph Waldo Emerson* is the most expansive collection of critical essays on Emerson to date a survey that approaches Emerson from the vantages of climate change racial justice print culture the digital humanities the new religious studies hemispheric American Studies health humanities and affect theory among other critical perspectives Curated between a forward by editor Christopher Hanlon who makes the case for a capacious and contemporary Emerson and Cornel West the activist scholar whose influential work on Emerson merges with a career of advocacy for economic and racial justice this collection assesses the history and state of Emerson scholarship while charting pathways for new work on this most essential American writer Comprised of new works by leading figures in nineteenth century Americanist literary studies the volume suggests directions into underexamined facets of Emerson's writing life and reputation From Emerson's engagements with energy infrastructure and the processes of extraction that undergirded the locomotives he rode and the energy economies he sometimes extolled to the vicissitudes of age he experienced alongside the romantic tropes of youthful vigour he both re-circulated and re-tooled to Emerson's poetry both in its philosophical formulations and in its reflections of the material circumstances of nineteenth century print culture to Emerson's resonance beyond the United States elsewhere in the western hemisphere to the Black press and its refractions of Emersonian transcendentalism in the midst of ante and post bellum justice struggles to the legacies of Emerson to be found in the writings of W E B Du Bois James Baldwin Rachel Carson and in the versions of Emerson to be found in children's literature to his often fraught and often fruitful engagements with reform movements of

various sorts to the prospects for digital processes of re reading Emerson and his contemporaries styles of textual production and engagement The Oxford Handbook of Ralph Waldo Emerson is a necessary resource for students scholars and general readers committed to the study of Emerson transcendentalism and current critical approaches to United States literature

A More Perfect Union Linda Sargent Wood, 2012-09-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell Silent Spring to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today

Spiritual Path Famous Women Saints Trust God Divine Inspiration Faith **American Women of Science since 1900**

Tiffany K. Wayne, 2010-10-11 A comprehensive examination of American women scientists across the sciences throughout the 20th century providing a rich historical context for understanding their achievements and the way they changed the practice of science Much more than a Who's Who this exhaustive two volume encyclopedia examines the significant achievements of 20th century American women across the sciences in light of the historical and cultural factors that affected their education employment and research opportunities With coverage that includes a number of scientists working today the encyclopedia shows just how much the sciences have evolved as a professional option for women from the dawn of the 20th century to the present American Women of Science since 1900 focuses on 500 of the 20th century's most notable American women scientists many overlooked undervalued or simply not well known In addition it offers individual features on 50 different scientific disciplines Women in Astronomy etc as well as essays on balancing career and family girls and science education and other sociocultural topics Readers will encounter some extraordinary scientific minds at work getting a sense of the obstacles they faced as the scientific community faced the questions of feminism and gender confronting the nation as a whole *Figuring* Maria Popova, 2019-02-05 *Figuring* explores the complexities of love and the human search for truth and meaning through the interconnected lives of several historical figures across four centuries beginning with the astronomer Johannes Kepler who discovered the laws of planetary motion and ending with the marine biologist and author Rachel Carson who catalyzed the environmental movement Stretching between these figures is a cast of artists writers and scientists mostly women mostly queer whose public contribution have risen out of their unclassifiable and often heartbreaking private relationships to change the way we understand experience and appreciate the universe Among them are the astronomer Maria Mitchell who paved the way for women in science the sculptor Harriet Hosmer who did the same in art the journalist and literary critic Margaret Fuller who sparked the feminist movement and the poet Emily Dickinson Emanating from these lives are larger questions about the measure of a good life and what it means to leave a lasting mark of betterment on an imperfect world Are achievement and acclaim enough for happiness Is genius Is love Weaving through the narrative is a set of peripheral figures Ralph Waldo Emerson Charles Darwin Elizabeth Barrett Browning Herman Melville Frederick Douglass Nathaniel Hawthorne and Walt Whitman and a tapestry of themes spanning music feminism the history of science the rise and decline of religion and how the intersection of astronomy poetry and Transcendentalist philosophy fomented the environmental movement *Spirituality in the Flesh* Robert C. Fuller, 2008-09-08 It is now generally accepted that the structure and function of the human body deeply influence the nature of human thought As a consequence our religious

experiences are at least partially determined by our sensory organs emotional programs sexual sensibilities and the neural framework of our brains In *Spirituality in the Flesh* Robert C Fuller investigates how studying the body can help us to answer the profoundest spiritual questions Why is it that some religious traditions assign spiritual currency to pain How do neurochemically driven emotions such as fear shape our religious actions What is the relationship between chemically altered states of consciousness and religious innovation Using recent biological research to illuminate religious beliefs and practices Fuller delves into topics as diverse as apocalypticism nature religion Native American peyotism and the sexual experimentalism of nineteenth century communal societies in every case seeking middle ground between the arguments currently emanating from scientists and humanists He takes most scientific interpreters to task for failing to understand the inherently cultural aspects of embodied experience even as he chides most religion scholars for ignoring new knowledge about the biological substrates of human thought and behavior Comfortable with the language of scientific analysis and sympathetic to the inherently subjective aspects of religious events Fuller introduces the biological study of religion by joining together this era s unprecedented understanding of bodily states with an expert s knowledge of religious phenomena Culling together insights from scientific observations historical allusions and literary references *Spirituality in the Flesh* offers a bold look at the biological underpinnings of religion and opens up new and exciting agendas for understanding the nature and value of human religiosity

Women Who Invented the Sixties Steve Golin, 2022-09-20 While there were many protests in the 1950s against racial segregation economic inequality urban renewal McCarthyism and the nuclear buildup the movements that took off in the early 1960s were qualitatively different They were sustained not momentary they were national not just local they changed public opinion rather than being ignored *Women Who Invented the Sixties* tells the story of how four women helped define the 1960s and made a lasting impression for decades to follow In 1960 Ella Baker played the key role in the founding of the Student Nonviolent Coordinating Committee which became an essential organization for students during the civil rights movement and the model for the antiwar and women s movements In 1961 Jane Jacobs published *The Death and Life of Great American Cities* changing the shape of urban planning irrevocably In 1962 Rachel Carson published *Silent Spring* creating the modern environmental movement And in 1963 Betty Friedan wrote *The Feminine Mystique* which sparked second wave feminism and created lasting changes for women Their four separate interventions helped together to end the 1950s and invent the 1960s *Women Who Invented the Sixties* situates each of these four women in the 1950s Baker s early activism with the NAACP and the Southern Christian Leadership Conference Jacobs s work with Architectural Forum and her growing involvement in neighborhood protest Carson s conservation efforts and publications and Friedan s work as a labor journalist and the discrimination she faced before exploring their contributions to the 1960s and the movements they each helped shape

Sustaining Lake Superior Nancy Langston, 2017-10-24 A compelling exploration of Lake Superior s conservation recovery and what it can teach us in the face of climate change Lake

Superior the largest lake in the world has had a remarkable history including resource extraction and industrial exploitation that caused nearly irreversible degradation But in the past fifty years it has experienced a remarkable recovery and rebirth In this important book leading environmental historian Nancy Langston offers a rich portrait of the lake s environmental and social history asking what lessons we should take from the conservation recovery as this extraordinary lake faces new environmental threats In her insightful exploration Langston reveals hope in ecosystem resilience and the power of community advocacy noting ways Lake Superior has rebounded from the effects of deforestation and toxic waste wrought by mining and paper manufacturing Yet despite the lake s resilience threats persist Langston cautions readers regarding new mining interests and persistent toxic pollutants that are mobilizing with climate change
