government shutdown has just been announced wreaking havoc on the Hill and Dan Dixon's chief of staff and Kit's supervisor is an inexperienced lightweight flying blind. Then there's Kit's distracted live-in boyfriend Doug who doesn't seem any closer to popping the question. Kit's best friend Meg is up to her eyeballs with her new beau and oversight committee job and Clarence the beagle mix will certainly not win Capitol Canine if Meg has to campaign for him all by herself. Bad as things are now they are about to get much worse. Early one morning Representative Dixon is caught standing over the corpse of Jack Drysdale, the Speaker of the House's top staffer, a man she argued with in front of the press the day before. The murder weapon was the Speaker's gavel. This item was entrusted to Dixon at the time leading the police to believe they've found their killer. To save her job Kit must clear her boss's name and quickly Dixon's career may be over if the police declare her a suspect or an anonymous blogger known as Hill Rat breaks the story. Solving this murder will test Kit's courage and all her fledgling powers of deduction as she roams a spooky sparsely populated Capitol Hill looking for clues and sounding out suspects. As Margaret Truman knows from firsthand experience, living in the White House can be exhilarating and maddening, alarming and exhausting, but it is certainly never dull. Part private residence, part goldfish bowl, and part national shrine, the White House is both the most important address in America and the most intensely scrutinized. In this splendid blend of the personal and historic, Margaret Truman offers an unforgettable tour of the president's house across the span of two centuries. Opened though not finished in 1800 and originally dubbed a palace, the White House has been fascinating from day one. In Thomas Jefferson's day it was a

reeking construction site where congressmen complained of the hazards of open rubbish pits Andrew Jackson's supporters descending twenty thousand strong from the backwoods of Kentucky and Tennessee nearly destroyed the place during his first inaugural Teddy Roosevelt expanded it Jackie Kennedy and Pat Nixon redecorated it Through all the vicissitudes of its history the White House has transformed the characters and often the fates of its powerful occupants In *The President's House* Margaret Truman takes us behind the scenes into the deepest recesses and onto the airiest balconies as she reveals what it feels like to live in the White House Here are hilarious stories of Teddy Roosevelt's rambunctious children tossing spitballs at presidential portraits as well as a heartbreaking account of the tragedy that befell President Coolidge's young son Calvin Jr Here too is the real story of the Lincoln Bedroom and the thrilling narrative of how first lady Dolley Madison rescued a priceless portrait of George Washington and a copy of the Declaration of Independence before British soldiers torched the White House in 1814 Today the 132 room White House operates as an exotic combination of first class hotel and fortress with 1 600 dedicated workers an annual budget over 1 billion and a kitchen that can handle anything from an intimate dinner for four to a reception for 2 400 But ghosts of the past still walk its august corridors including a phantom whose visit President Harry S Truman described to his daughter in eerie detail From the basement swarming with reporters to the Situation Room crammed with sophisticated technology to the Oval Office where the president receives the world's leaders the White House is a beehive of relentless activity deal making intrigue gossip and of course history in the making In this evocative and insightful book Margaret Truman combines high stakes drama with the unique perspective of an insider The ultimate guided tour of the nation's most famous dwelling *The President's House* is truly a national treasure
