themes Tom Phillips examines masterpieces from the history of the visual arts that have been inspired by music In a series of colorful images we meet the music makers the men and women who in the act of playing and listening to music have provided rich subject matter for artists throughout the centuries The long affair between these arts had its passionate moments The orchestral angels of the Renaissance and the seraphic choristers of the Baroque yield to the domestic music making of the masters of the Dutch interior The pastoral concerts of Venetian and French artists of the 17th and 18th centuries give way to the Impressionists and the still lifes and soloists of Cubism Finally the musical abstractions of Paul Klee and Wassily Kandinsky lead to the often ironic or iconoclastic references to music in the experimental art of the end of this century Tom Phillips seeks out these colorful meetings between the sister arts and spins an intriguing web of anecdote and interpretation to link them through the ages As an artist he understands how pictures are made and as a writer he can convey this understanding with humor and clarity Since he is also a composer in his own right his insights have the added value of musical authenticity as well as artistic authority Each of the 50 short essays focuses on a particular work of art or contrasts two or more approaches to a similar theme A diverse range of artists is featured including Rembrandt Leonardo Veronese Titian Caravaggio Renoir Van Gogh Matisse and Picasso We are introduced to composers who are painters and painters who are accomplished musicians and learn how their thoughts can often provide the key to understanding musical and artistic styles

Modern Art on Display K. Porter Aichele, 2016-05-19 Modern Art on Display The Legacies of Six Collectors is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored Duncan Phillips and Augustus Vincent Tack Albert Barnes and Chaim Soutine Albert Eugene Gallatin and Juan Gris Lillie Bliss and Paul C zanne Etta Cone and Henri Matisse G

David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915 1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized

Exiled in Modernity David O'Brien, 2018-02-06 Notions of civilization and barbarism were intrinsic to Eugène Delacroix's artistic practice he wrote regularly about these concepts in his journal and the tensions between the two were the subject of numerous paintings including his most ambitious mural project the ceiling of the Library of the Chamber of Deputies in the Palais Bourbon *Exiled in Modernity* delves deeply into these themes revealing why Delacroix's disillusionment with modernity increasingly led him to seek spiritual release or epiphany in the sensual qualities of painting While civilization implied a degree of control and the constraint of natural impulses for Delacroix barbarism evoked something uncontrolled and impulsive Seeing himself as part of a grand tradition extending back to ancient Greece Delacroix was profoundly aware of the wealth and power that set nineteenth century Europe apart from the rest of the world Yet he was fascinated by civilization's chaotic underbelly In analyzing Delacroix's art and prose David O'Brien illuminates the artist's effort to reconcile the erudite tradition bound aspects of painting with a desire to reach viewers in a more direct unrestrained manner Focusing chiefly on Delacroix's musings about civilization in his famous journal his major mural projects on the theme of civilization and the place of civilization in his paintings of North Africa and of animals O'Brien links Delacroix's increasingly pessimistic view of modernity to his desire to use his art to provide access to a more fulfilling experience With more than one hundred illustrations this original astute analysis of Delacroix and his work explains why he became an inspiration for modernist painters over the half century following his death Art historians and scholars of modernism especially will find great value in O'Brien's work

informelle **A Study of the Parallels between Visual Art and Music** Boštjan Jurečič, 2019-11-15 Standard surveys of 20th century visual art imply that there is a continuity between say Rembrandt and Koons between Caravaggio and Hirst Even the sharp critics of artists who dominate the contemporary art scene such as Warhol Hirst Ai Weiwei and countless others imply such a continuity They are all wrong There is no such continuity or more precisely it is only very weak at best This book explains why and how the claims regarding this continuity are false and how we arrived at this point of great confusion about the arts
