Self-Identity and Powerlessness Alice Koubová, 2013-05-30 In *Self Identity and Powerlessness* Alice Koubová proposes a conception of human existence that does not essentially depend on the definition of self identity The author shows that the philosophical stress on human identity fails to grasp essential aspects of human existence By emphasizing the moments of Dasein's powerlessness in Heidegger's fundamental ontology she develops in her analysis of various philosophers literary examples and social psychology an original phenomenology of alternation of existence and affair How necessary is identity for thinking Are we capable of philosophical thought even when we have neither ourselves nor the world under our full control Is it possible to relax become powerless and yet think precisely These questions are to be answered in this book

From Self-Care to We-Care Jordan Quaglia, 2025-05-06 Learn to harmonize self care with caring for others through we care a science based approach designed to enhance personal and social well being promote healthy boundaries and offer a path of healing and transformation Too many of us are familiar with the burnout that can come from overextending ourselves for others Self care is often promoted as the solution to this imbalance but there are growing concerns that an overemphasis on self care is exacerbating interpersonal challenges fraying the fabric of our communities and diminishing our responsiveness to broader social issues In a world where time can feel increasingly

scarce we find ourselves in a dilemma should we prioritize ourselves or others Yet as psychologist and compassion scientist Jordan Quaglia demonstrates this choice is based on a false dichotomy The emerging science and practice of we care reframes the very concept of care as a social force that includes both self and other Through personal stories guided inquiries practical social exercises and insights from cutting edge neuroscience Quaglia offers a framework and toolset designed to help you find a more balanced way to express your innate sense of compassion This holistic approach sparks transformative changes across your health relationships and work uplifting yourself and others while supporting a stronger more connected society for us all

Hermeneutics of Education Andrzej Wiercinski,2020-03-10 A hermeneutics of education pays special attention not to educational structures but the central role of conversation in the educational process The key issue is the formation of the person as a unique reality of being and acting while supporting intersubjective understanding The polyphony of understanding places the human search for meaning within the horizon of incompleteness and allows for both spontaneity and rigor in order to reach an understanding of what is happening to us and in us when we understand Reflection on education is always inseparable from educational practice

demonstrates how these misreadings signal a problem with the coherence of the School's broader worldview. The Kyoto School's Takeover of Hegel suggests how this problem could have been mitigated, making the School's philosophy of nothingness more effective than it is today. *Greek Tragedy and Political Philosophy* Peter J. Ahrensdorf, 2009-04-06. In this book, Peter Ahrensdorf examines Sophocles' powerful analysis of a central question of political philosophy and a perennial question of political life: should citizens and leaders govern political society by the light of unaided human reason or religious faith? Through an examination of Sophocles' timeless masterpieces *Oedipus the Tyrant*, *Oedipus at Colonus*, and *Antigone*, Ahrensdorf offers a sustained challenge to the prevailing view championed by Nietzsche in his attack on Socratic rationalism: that Sophocles is an opponent of rationalism. Ahrensdorf argues that Sophocles is a genuinely philosophical thinker and a rationalist, albeit one who advocates a cautious political rationalism. Ahrensdorf concludes with an incisive analysis of Nietzsche, Socrates, and Aristotle on tragedy and philosophy. He argues against Nietzsche that the rationalism of Socrates and Aristotle incorporates a profound awareness of the tragic dimension of human existence and therefore resembles in fundamental ways the somber and humane rationalism of Sophocles.
