

A scenic landscape featuring a winding road that curves through a field of tall, golden-brown grass. In the background, a body of water stretches towards a distant shoreline under a dramatic sky with a bright sunset or sunrise. The sun is low on the horizon, casting a warm, golden glow across the scene. The sky is filled with soft, white clouds. The overall mood is peaceful and contemplative.

We Computers Hamid Ismailov,2025-08-19 A multilayered exploration of poetry authorship and digital intelligence by a writer of immense poetic power The Guardian Many paths cross in Ismailov s beautiful new work poetry history and the infinite imagination Every path winding into another Every path worth taking Patti Smith In the late 1980s French poet and psychologist Jon Perse finds himself in possession of one of the most promising inventions of the century a computer Enchanted by snippets of Persian poetry he learns from his Uzbek translation partner Abdulhamid Ismail Jon Perse builds a computer program capable

of both analyzing and generating literature But beyond the text on his screen there are entire worlds of history philosophy and maybe even of love in the stories and people he and AI conjure Hamid Ismailov brings together his work as a poet translator and student of literature of both East and West to craft a postmodern ode to poetry across centuries and continents Crossing the poetes maudits with beloved Sufi classics blending absurdist dreams with the life of the famed Persian poet Hafez moving from careful mathematical calculations to lyrical narratives Ismailov invents an ingenious transnational poetics of love and longing for the digital age Situated at the crossroads of a multilingual world and mediated by the unreliable sensibilities of digital intelligence this book is a dazzling celebration of how poetry resonates across time and space

Spirituality and Emotional Intelligence Gilmore Crosby, 2021-08-17 This book weaves together spirituality and a systemic version of emotional intelligence that incorporates Kurt Lewin's social science and other sources Emotional intelligence calls on us to be fully present to the moment It calls on us to be appreciative of ourselves and our relationships Likewise a calm and compassionate presence is almost universally recognized as a spiritual way of being In other words the overwhelming majority of the world's spiritual sources call on us to be emotionally intelligent and that link is explored with unique clarity in this simple yet powerful text We are all reactive at times Becoming more objective and less attached allows us to feel our feelings without being a prisoner to acting on them in habitual ways From a more detached perspective feelings are neither good nor bad but simply clues as to how we are perceiving our environment especially our social environment This is especially important in terms of our relationships at work Our perceptions about what people intend trigger our emotional reactions Think about the difference when you perceive critical feedback as a sincere attempt to help or when you perceive it as an attack of some sort Perception evokes different emotional responses Objectivity about our own perception is even more important than objectivity about emotion because the former usually precedes the later Paradoxically being detached allows one to appreciate and experience one's emotions more fully Recognizing emotion as part of your inner guidance system instead of as something dangerous that must be controlled or denied is freeing The less emotion runs you the more you can accept feeling what you feel Emotion is a form of physical energy Fighting your own feelings takes energy Allowing the ebb and flow of emotion is essential to physical and emotional health and to accepting ourselves as we are

Treatment of Schizophrenia Michael J. Goldstein, Iver Hand, Kurt Hahlweg, 2012-12-06 A group of people are seated together in a room to try to explain it to you you wouldn t be in a room Recently they have shared two derstand and this went on and on in a big circle nowhere no information at all important experiences they have lived The feelings of these relatives are not with a close relative usually an offspring or spouse who has been through an episode unique Until recently many relatives of a major mental disorder most often of a schizophrenic patients experienced some schizophrenic type and they have also been form of rebuff by mental health professionals participants in an experimental program sionals while their relative was treated as an designed to assist them and their disturbed inpatient and little or no involvement in the relative in modifying family patterns to aftercare process when the relative re foster rehabilitation The experimental turned home These attitudes of mental programs involve maintenance pharmacological health personnel reflected both the prevail therapy as well as a combination of family ing wisdom of the time that the family be education and therapy Roads Not Taken Michael Kimmel, 2024-11-12 Using a range of in depth historical case studies this timely work excavates the oft forgotten tradition of progressive

populism and highlights the relevance of such movements to our own tumultuous times Populism in its 21st century guise is often centered around exclusionary notions of nationality and the exultation of an authoritarian leader Yet as this book demonstrates this has not always been the case As demonstrated by the Levellers in the English Civil War and the Sans Culottes in the French Revolution the ideas of progressive populism have often surfaced in the midst of revolution where they have sought to ensure that revolutions do not deviate from their lofty ideals Progressive populism has also emerged during periods of crisis and social dislocation reasserting conceptions of the moral economy and a romanticized view of the past in support of their goals By looking at the trajectories of past iterations of these ideas Michael Kimmel retrieves a different populism based not upon the illusory entity of the people but something more concrete the capacity of real people living their lives with a sense of both autonomy and community This book will be of interest to students and scholars in disciplines including sociology history and political science
