

The background of the book cover is a painting of a seascape at sunset or sunrise. A large, snow-capped mountain dominates the horizon. Several sailing ships are visible on the dark water. The sky is a mix of orange, pink, and blue. The foreground is dark and indistinct.

Place and Locality in Modern France Philip Whalen, Patrick Young, 2014-10-23 Place and Locality in Modern France analyses the significance and changing constructions of local place in modern France Drawing on the expertise of a range of scholars from around the world this book provides a timely overview of the cross disciplinary thinking that is currently taking place over a central issue in French history The contributed chapters address a range of subjects that include the politics of administrative reform decentralization regionalism and local advocacy the role of commerce in engendering narratives and experience of local place the importance of ethnic class gender

and race distinctions in shaping local connection and identity the generation and transmission of knowledge about local place and culture through academia civic heritage and popular memory As a reconsideration of the local in French history Place and Locality in Modern France bridges the divide between micro and macro history for all those interested in ideas of locality and culture in modern French and European history **Sherlock Holmes and the Baron of Brede Place** Daniel D.

Reproduction of the original **Claiming Her Place in Congress** Katherine H. Adams,2019-07-01 The fall of 2018 saw an unprecedented number of women elected to Congress changing estimates of how long it might take to achieve equal representation For the first time women candidates used techniques honed by America s political families which have helped women enter politics since 1916 Drawing on extensive research and conversations with successful women politicians this book offers a history of the political opportunities provided through familial connections Family networks have a long history of enabling women to run for political office There is much for the latest group of candidates to emulate **Power, Place, and State-Society Relations in Korea** Jongwoo Han,2013-11-26 No book has addressed the simultaneous phenomena of Korea s rapid economic development and its vibrant democratization in a single coherent paradigm The late developmentalist approach emphasizes the strong role of Korea s state and bureaucratic efficiency but does not explain how political development was concurrent with the economic miracles in the Han River modernization and dependence theories also fail to explain the aspect of simultaneity in this phenomenon What these three theories commonly miss is the unique relationship between state and society in Korea s long history of political culture In this book Jongwoo Han takes a holistic approach to understanding these phenomena by examining the state s role in the unprecedented economic development and society s capabilities to resist the state s centralized power Han re articulates state society relations through Onuf s social constructivist approach based on three rules of a political community hegemony hierarchy and heteronomy This book expands upon this effort to re construct the state and society relations in two ways First it produces case studies of the

capital city of Hanyang Joseon Dynasty from 1392 to 1910 Kyeongseong Japanese colonial control from 1910 to 1945 and Seoul 1945 current The capital city is analyzed as a container for the major ideologies and ways of thinking that have shaped three important political eras Second i adopts two indigenous thoughts Neo Confucianism and geomancy as sources of the main political and cultural ideologies that shape Korea s state and society relations These sources have never been treated as units of political analysis This book finds that both Neo Confucianism and geomancy over two periods of Hanyang and Kyeongseong are two main contributing factors of the emergence of the developmental state and vibrant democracy in Korea in the Seoul era *The Place of Science in Modern Civilisation and Other Essays* Thorstein Veblen,1919 **The Archive of Place** William Turkel,2011-11-01 The Archive of Place weaves together a series of narratives about environmental history in a particular location British Columbia s Chilcotin Plateau In the mid 1990s the Chilcotin was at the centre of three territorial conflicts Opposing groups in their struggle to control the fate of the region and its resources invoked different understandings of its past and different types of evidence to justify their actions These controversies serve as case studies as William Turkel examines how people interpret material traces to reconstruct past events the conditions under which such interpretation takes place and the role that this interpretation plays in historical consciousness and social memory It is a wide ranging and original study that extends the span of conventional historical research **The Hemingway Review** ,1997
