concluding chapter by Harold Burman of the Office of Private International Law of the U S Department of State *Ensuring the Quality, Credibility, and Relevance of U.S. Justice Statistics* National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on National Statistics, Panel to Review the Programs of the Bureau of Justice Statistics, 2009-09-02 The Bureau of Justice Statistics BJS of the U S Department of Justice is one of the smallest of the U S principal statistical agencies but shoulders one of the most expansive and detailed legal mandates among those agencies Ensuring the Quality Credibility and Relevance of U S Justice Statistics examines the full range of BJS programs and suggests priorities for data collection BJS s data collection portfolio is a solid body of work well justified by public information needs or legal requirements and a commendable effort to meet its broad mandate given less than commensurate fiscal resources The book identifies some major gaps in the substantive coverage of BJS data but notes that filling those gaps would require increased and sustained support in terms of staff and fiscal resources In suggesting strategic goals for BJS the book argues that the bureau s foremost goal should be to establish and maintain a strong position of independence To avoid structural or political interference in BJS work the report suggests changing the administrative placement of BJS within the Justice Department and making the BJS directorship a fixed term appointment In its thirtieth year BJS can look back on a solid body of accomplishment this book suggests further directions for improvement to give the nation the justice statistics and the BJS that it deserves The Corporation, Law and Capitalism Grietje Baars, 2019-03-25 In *The Corporation Law and Capitalism* Grietje Baars offers a radical Marxist perspective on the role of law in the global political economy Closing a major gap in historical materialist scholarship they demonstrate how the corporation capitalism s main engine from city state and colonial times to the present multinational is a masterpiece of legal technology The symbiosis between law and capital becomes acutely apparent in the question of corporate accountability Baars provides a detailed analysis of corporate human rights and war crimes trials from the Nuremberg industrialists trials to current efforts The book shows that precisely because of law s relationship to capital law cannot prevent or remedy the externalities produced by corporate capitalism This realisation will generate the space required to formulate a different answer to the question of the corporation and to global corporate capitalism more broadly outside of the law **Occupational Health Law** Diana Kloss, 2013-03-15 Kloss on Occupational Health Law has become the standard reference work on the subject since it was first published in 1989 Detailed but highly readable it provides an essential source of information for health professionals working in occupational health and also for human resources staff In the years since the 4th edition was written there have been many changes in the field of occupational health which has achieved a higher profile nationally with the publication of Dame Carol Black s review of the health of Britain s working age population in 2008 This edition which has been fully revised includes new sections on age discrimination and expert witnesses and the sections on discrimination especially disability discrimination the Working Time Regulations stress related illness corporate manslaughter and confidentiality in particular
