**Fanshen** William Hinton, Fred Magdoff, 1992-01-01 More than forty years after its initial publication William Hinton's *Fanshen* continues to be the essential volume for those fascinated with China's revolutionary process of rural reform and social change. A pioneering work, *Fanshen* is a marvelous and revealing look into life in the Chinese countryside where tradition and modernity have had both a complimentary and caustic relationship in the years since the Chinese Communist Party first came to power. It is a rare concrete record of social struggle and transformation as witnessed by a participant. *Fanshen* continues to offer profound insight into the lives of peasants and China's complex social processes. Rediscover this classic volume which includes a new preface by Fred Magdoff.

[Revolution in a Chinese Village](#) Isabel Crook, David Crook, 1959 *Revolution in a Chinese Village* is a ten years history of one Chinese village covering the period immediately before the setting up of the Chinese People's Republic. The authors describe in vivid detail based on first hand observation the social, political and economic changes involved in passing from the landlord regime under the Kuomintang to the distribution of land to the peasants under the Communists with the organization of the villagers both for resistance to the Japanese armies and for the seizure of land from the landlords and rich peasants. The writers spent a long time in the village living with the farmers and getting material directly from them and from village records.

[A Century of Change in a Chinese Village](#) Lin Juren, Xie Yuxi, 2018-05-04 Over the last half century China has evolved from a poor rural country to a geopolitical powerhouse. Rapid urbanization has been at the heart of that transformation and as migrant laborers have left their villages, what has become of the rural communities that were once the center of economic, social and cultural life? And how do contemporary Chinese scholars understand those changes? These are the questions that this compelling book answers.

Lengshuigou village located near the Shandong provincial capital of Jinan was first studied by Japanese social scientists in the early 1940s and then again in the 1980s and 1990s. Building on these rich surveys, this book traces changes from the early twentieth century to the present day in family and lineage, social stratification, personal networks, annual and life cycle rituals, village politics and elite formation. Drawing on their own large scale survey of contemporary village households, the authors analyze the physical and institutional changes that have altered the community as well as the shifts in interpersonal relations and attitudes that have upended centuries old systems of patriarchy and generational order. This important book presents for the first time in English analysis by Chinese sociologists on the radical transformation of Chinese rural society.

The book is based on a study of an industrialized peasant village in Guangdong Province from 1994 to 1996 and subsequent visits from 2000 to 2002. According to the authors, the rural economic reforms of the 1980s in southern China have challenged and reinforced the deep structure of Chinese familism, and this has led to tensions between tradition and modernity. The first section of the book explores how attitudes toward marriage and courtship have changed over the past fifty years through personal accounts of three different marriages from different generations. In Part II, the transition from a traditional to a modern society is discussed from the perspective of several women from different generations. The third section focuses on sexual relationships and the growing sex trade in the village. Part IV includes updates to the original survey and takes a look at village politics.      The Jewish-Chinese Nexus M. Avrum Ehrlich, 2008-06-26 The Jewish Chinese Nexus explores through a collection of articles the nexus between two of the oldest intact, starkly contrasting and most interesting civilizations on earth: Jews and Chinese. This volume studies how they are interacting in modernity, how they view each other, and what areas of cooperation are evolving between their scholars, activists, and politicians, and what talents, qualities, and social assets are being recognized on each side for the purpose of cooperation and exchange. Featuring contributions from some of the most important scholars and activists from China and from around the Jewish Diaspora, the essays purview China-related themes including the fascination of Chinese with Jews and Judaism and its potential value in Chinese national and religious reconstruction, religious and ethnic identity, East-West interactions. It deals with the growing Jewish community in China and its impact, as well as the development of Jewish studies in China and the translation of Jewish texts into Chinese and their impact. The work is a first of its kind, identifying an emerging meeting point between these two people and arguing that despite the giant contrasts in their national constructs, they have nonetheless other important patterns and themes in common which pave the way for fruitful cooperation and mutual respect.      **Chinese Politics and Society** Flemming Christiansen, Shirin Rai, 2014-02-04 An introduction to Chinese Politics which provides an accessible overview of the structures and dynamics of Chinese politics today.
