Rousseau Nature And History:

Rousseau, Nature, and History Asher Horowitz, 1987 *Jean-Jacques Rousseau: Human nature and history* John T. Scott, 2006 Bringing together critical assessments of the broad range of Rousseau's thought with a particular emphasis on his political theory this systematic collection is an essential resource for both student and scholar *A Commentary on Rousseau* Richard Timothy Simpson, 1977 **Natural Right and History** Leo Strauss, 2013-12-27 In this classic work Leo Strauss examines the problem of natural right and argues that there is a firm foundation in reality for the distinction between right and wrong in ethics and politics On the centenary of Strauss's birth and the fiftieth anniversary of the *Waldgreen Lectures* which spawned the work *Natural Right and History* remains as controversial and essential as ever Strauss makes a significant contribution towards an understanding of the intellectual crisis in which we find ourselves and brings to his task an admirable scholarship and a brilliant incisive mind John H. Halliwell *American Political Science Review* Leo Strauss 1899-1973 was the Robert Maynard Hutchins Distinguished Service Professor Emeritus in Political Science at the University of Chicago *The Decline of Nature* Gilbert F. LaFreniere, 2012-07 **Rousseau's God** John T. Scott, 2023-04-18 Rousseau's God offers a comprehensive interpretation of Rousseau's theological and religious writings both in themselves and in relation to his philosophy of the natural goodness of man John T. Scott argues that there is a complicated relationship between Rousseau's philosophy on the one hand and his theological and religious thought This relationship revolves around two oppositions first between the attributes and psychological needs of natural man and social or moral man second between the criteria of truth and utility for evaluating theological and religious doctrines In short because the justification of nature through the natural goodness of man does not suffice for developed humans Rousseau offers theological and religious doctrines which are less true than useful psychologically morally or politically **History and Nature in the Enlightenment** Nathaniel Wolloch, 2016-04-22 The mastery of nature was viewed by eighteenth century historians as an important measure of the progress of civilization Modern scholarship has hitherto taken insufficient notice of this important idea This book discusses the topic in connection with the mainstream religious political and philosophical elements of Enlightenment culture It considers works by Edward Gibbon Voltaire Herder Vico Raynal Hume Adam Smith William Robertson and a wide range of lesser and better known figures It also discusses many classical medieval and early modern sources which influenced Enlightenment historiography as well as eighteenth century attitudes toward nature in general **The Illusion of History** Andrew R. Russ, 2013 European radical political thought represented by Jean-Jacques Rousseau Karl Marx and Michel Foucault has deeply impacted the Western intellectual tradition and political life These thinkers sought to transform Western societies by critiquing institutions that they felt led to oppression of groups They saw societies and institutions as part of a history that constantly develops and has no objective timeless purpose or principles They understood the history of things people do and of events that happen in a primarily evolutionary way As a

result these radical political thinkers have often been thought to have a strong historical consciousness Andrew Russ argues in this book that a closer look at their philosophical underpinnings finds that Rousseau Marx and Foucault are much less historical in their methodology than is widely believed Instead they share a more timeless view one indebted to principles ordinarily seen as timeless or transcendent Russ finds that these thinkers are actually quite dependent on the philosopher who concluded the Enlightenment Immanuel Kant Russ s study shows how Kant s view of human freedom and subjectivity as timeless actually informs the work of the radical political position ABOUT THE AUTHOR Andrew R Russ is lecturer in European studies at the University of Adelaide *The French Enlightenment and the Emergence of Modern Cynicism*

Sharon A. Stanley,2012-03-19 Sharon A Stanley chronicles the emergence of a recognizably modern form of cynicism during the French Enlightenment by discussing the work of philosophers such as Denis Diderot and Jean Jacques Rousseau While recent scholarly and popular commentary has depicted cynicism as a novel contemporary phenomenon that threatens healthy democratic functioning this book shows that cynicism has much earlier roots and may contribute to the health of democracies

The Open Boundary of History and Fiction Suzanne Gearhart,2019-02-19 Challenging the view that a critical sense of history is missing from the Enlightenment Suzanne Gearhart links the works of Voltaire Montesquieu Diderot and Rosseau with the inquiry into the boundary between literature and history in contemporary critical discourse She considers the theories of Levi Strauss Foucault Althusser Genette White de Man and Derrida in order to develop a critical approach to fiction and history and to reveal that investigations into the foundations of historical knowledge and specifically

into what distinguishes history from fiction were central to the Enlightenment. This book questions many assumptions basic to contemporary criticism by establishing a dialogue between major theorists and Enlightenment figures. It challenges certitudes of fiction and literature by examining the historicity of language form and literature itself, redefining history to show its crucial relevance to literary studies and opening historiography to the insights of literary theory. Suzanne Gearhart is Associate Professor of Literature at the University of California San Diego. A History of Modern French Literature Christopher Prendergast, 2025-06-17 An accessible and authoritative new history of French literature written by a highly distinguished transatlantic group of scholars. This book provides an engaging, accessible and exciting new history of French literature from the Renaissance through the twentieth century, from Rabelais and Marguerite de Navarre to Samuel Beckett and Assia Djebar. Christopher Prendergast, one of today's most distinguished authorities on French literature, has gathered a transatlantic group of more than thirty leading scholars who provide original essays on carefully selected writers, works and topics that open a window onto key chapters of French literary history. The book begins in the sixteenth century with the formation of a modern national literary consciousness and ends in the late twentieth century with the idea of the national coming increasingly into question as inherited meanings of French and Frenchness expand beyond the geographical limits of mainland France. Provides an exciting new account of French literary history from the Renaissance to the end of the twentieth century. Features more than thirty original essays on key writers, works and topics written by a distinguished transatlantic group of scholars. Includes an introduction and index. The contributors include Etienne Beaulieu, Christopher Braider, Peter Brooks, Mary Ann Caws, David Coward, Nicholas Cronk, Edwin M. Duval, Mary Gallagher, Raymond Geuss, Timothy Hampton, Nicholas Harrison, Katherine Ibbett, Michael Lucey, Susan Maslan, Eric M. Choulan, Hassan Melehy, Larry F. History of Political Theory: An Introduction George Klosko, 2013-02-07 History of Political Theory: An Introduction is an engaging introduction to the main figures in the history of Western Political Theory and their most important works. The second volume traces the origin and development of liberal political theory and so the foundations for contemporary views.

Reason and Self-Enactment in History and Politics F.M. Barnard, 2006-03-03 Reason and Self-Enactment in History and Politics also offers a reappraisal of basic political principles and constructs. Barnard argues for bridging differences among a plurality of truths and forming practical

judgments through cultivation of a sense of situational appropriateness An Intellectual History of Liberalism Pierre Manent, 2019-12-31 Highlighting the social tensions that confront the liberal tradition Pierre Manent draws a portrait of what we citizens of modern liberal democracies have become For Manent a discussion of liberalism encompasses the foundations of modern society its secularism its individualism and its conception of rights The frequent incapacity of the morally neutral democratic state to further social causes he argues derives from the liberal stance that political life does not serve a higher purpose Through quick moving highly synthetic essays he explores the development of liberal thinking in terms of a single theme the decline of theological politics The author traces the liberal stance to Machiavelli who in seeking to divorce everyday life from the pervasive influence of the Catholic church separated politics from all notions of a cosmological order What followed as Manent demonstrates in his analyses of Locke Hobbes Rousseau Guizot and Constant was the evolving concept of an individual with no goals outside the confines of the self and a state with no purpose but to prevent individuals from dominating one another Weighing both the positive and negative effects of such a political arrangement Manent raises important questions about the fundamental political issues of the day among them the possibility of individual rights being reconciled with the necessary demands of political organization and the desirability of a government system neutral about religion but not about public morals *Essays in the History of Ideas* Arthur O. Lovejoy, 2019-12-01 Originally published in 1948 In the first essay of this collection Lovejoy reflects on the nature methods and difficulties of the historiography of ideas He maps out recurring phenomena in the history of ideas which the essays illustrate One phenomenon is the presence and influence of the same presuppositions or other operative ideas in very diverse provinces of thought and in different periods Another is the role of semantic transitions and confusions of shifts and of ambiguities in the meanings of terms in the history of thought and taste A third phenomenon is the internal tensions or waverings in the mind of almost every individual writer sometimes discernible even in a single writing or on a single page arising from conflicting ideas or incongruous propensities of feeling or taste to which the writer is susceptible These essays do not contribute to metaphysical and epistemological questions they are primarily historical An Intellectual History of Cannibalism Călin Avramescu, 2011-08-28 Annotation

Based on the research he undertook in rare book collections housed in Scotland the United States Finland Iceland Holland Germany and Austria the author presents a systematic history of cannibalism as reflected in the mirror of philosophy

Edinburgh Critical History of Nineteenth-Century Philosophy Alison Stone, 2011-06-06 This volume begins with the rise of German Idealism and Romanticism traces the developments of naturalism positivism and materialism and of later century attempts to combine idealist and naturalist modes of thought Written by a team of leading international scholars this crucial period of philosophy is examined from the novel perspective of themes and lines of thought which cut across authors disciplines and national boundaries This fresh approach will open up new ways for specialists and students to conceptualise the history of 19th century thought within philosophy politics religious studies and literature **History of International**
