Diminutives in English Klaus P. Schneider, 2012-10-24 That English has no diminutives is a common myth The present study shows however that English does possess diminutives and not only analytic but also synthetic diminutive markers Analytic markers include first and foremost little as well as other adjectives from the same word field whereas the inventory of synthetic markers comprises suffixes as for instance *ette* *let* *kin* *een* *s* *er* *poo* and *pegs* These markers are examined from a grammatical and a pragmatic perspective in an integrative formal functional framework The grammatical perspective involves phonological morphological and semantic features while the pragmatic perspective involves pragmalinguistic as well as sociopragmatic features on the levels of the speech act and larger interactive units in dialogue The findings reveal that English diminutive suffixes are in fact among the most productive suffixes of the English language While the suffixes share a number of features each has developed its own profile specifically regarding semantic and pragmatic features In everyday conversation there is a division of labour between the synthetic and the analytic type of formation concerning the communicative functions of diminutives and their distribution in discourse The choice of formal device and its function depend crucially on pragmatic factors notably on the illocution the interactive status the realisation strategy and the politeness value of the utterances in which diminutives are employed and also on the relationship between the interlocutors

Opening Windows on Texts and Discourses of the Past Janne Skaffari, Matti Peikola, Ruth Carroll, Risto Hiltunen, Brita Wårvik, 2005-03-24 This volume presents a variety of pragmatic and discourse analytical approaches to a wide range of linguistic data and historical texts including data from English French Irish Latin and Spanish This diversity of research questions and methods is a feature of the field of historical pragmatics which by its very nature has to take into account the multiplicity of historical contexts and the infinite variety of human interaction This is highlighted in the book's introduction by means of the metaphor of opening windows Each chapter is a window affording a different view of the linguistic and textual landscape Some of these windows were opened by historical linguists who have acquired discourse perspectives some by pragmaticians with historical interests and others by literary scholars drawing from linguistic pragmatics Contributors include L J Brinton A H Jucker F Salager Meyer I Taavitsainen B Wehr L Wright and sixteen others

Manual of Judaeo-Romance Linguistics and Philology Guido Mensching, Frank Savelsberg, 2023-10-24 This manual provides a detailed presentation of the various Romance languages as they appear in texts written by Jews mostly using the Hebrew alphabet It gives a comprehensive overview of the Jews and the Romance languages in the Middle Ages part I as well

as after the expulsions part II These sections are dedicated to Judaeo Romance texts and linguistic traditions mainly from Italy northern and southern France French and Occitan and the Iberian Peninsula Catalan Spanish Portuguese The Judaeo Spanish varieties of the 20th and 21st centuries are discussed in a separate section part III due to the fact that Judaeo Spanish can be considered an independent language This section includes detailed descriptions of its phonetics phonology morphology lexicon and syntax

Hybridity in Translated Chinese Guangrong Dai, 2016-05-20 This book investigates the characteristics of hybridity in Chinese texts that have been translated from English It also explores the potential impact of translation and hybridity on written Chinese over the past 70 years It suggests that English Chinese translations have introduced more and more hybrid structures into Chinese This book can help us with understanding language change and development and it can also shed new light on the translation process and help identify translation norms

Functional Perspectives on Grammar and Discourse Christopher Butler, Raquel Hidalgo Downing, Julia Lavid, 2007 This book a tribute to Angela Downing consists of twenty papers taking a broadly functional perspective on language with topics ranging from the general grammar as an evolutionary product text comprehension integrative linguistics to particular aspects of the grammars of languages Bulgarian English Icelandic Spanish Swedish The more specific papers are sequenced according to Halliday's division into ideational textual and interpersonal aspects of the grammar and cover a wide range of areas including aspect argument structure noun phrase nominal group structure and nominalisations pronominal clitics theme in relation to writing skills discourse structures and markers the role of attention in conversation the functions of topic phatic communion subjectification formulaic language and modality A recurrent theme in the volume is the use of corpus materials in order to base functional descriptions on authentic productions Overall the volume constitutes a panoramic but nevertheless detailed view of some important current trends in functional linguistics
