Royal Education Past Present And Future

Peter Beer

Royal Education Past Present And Future:

Royal Education Peter Gordon, Denis Lawton, 2003 Many people assume that kings and queens have generally received a good education perhaps the best that money could buy at the time This book investigates the reality what is known about the education of British sovereigns from the beginning of the Tudor period to the end of the 20th century There have been enormous differences in the seriousness with which education was regarded at different points in history For example Henry VIII and his children were educated at a high point in the Renaissance when educational ideas were regarded as important as well as exciting Queen Elizabeth I was by any standards extremely well educated by contrast Queen Elizabeth II s education has been described as undemanding because her parents wanted her to have a happy childhood Peter Gordon and Denis Lawton have traced changes in royal education through the centuries and related them not only to educational ideas and theories but also to changing political social and religious contexts The monarchy itself has changed as an institution from the semi absolute authority of the Tudors to a much more limited kind of monarchy by the end of the Stuart period after one king had been executed and another exiled to the constitutional monarchy of the 20th century To what extent have such changes made any difference to royal education What is the most appropriate kind of education for future kings and queens in our present day democracy In this book the authors confront these and other such questions and explore some of the answers

Royal Heirs Frank Lorenz Müller, 2023-01-12 Against the odds monarchies flourished in nineteenth century Europe In an era marked by dramatic change and revolutionary upheaval Europe s monarchies experienced an unexpected late flowering *Royal Heirs* focuses on the roles and personalities of the heirs to the throne from more than a dozen different dynasties that ruled the continent between the French Revolution and the end of the First World War The book explores how these individuals contributed to the remarkable survival of the crowns they were born to wear Constitutions family relationships education politics the media the need to generate soft power and the militarisation of monarchy all shaped the lives of princes and princesses while they were playing their part to embody and secure the future of monarchy Ranging from Norway to Spain and from Greece to Britain *Royal Heirs* not only paints a vivid picture of a monarchical age but also explores how such disparate monarchies succeeded in adapting to change and defending their position

The Struggle for the General Teaching Council Richard Willis, 2020-10-28 This book chronicles the history of the struggle to promote a self governing body for the teaching profession from its early problems at the start of the twentieth century right through to the establishment of the General Teaching Council of England in 2000 It also explores the interest groups and policy makers who impeded its achievement and the attitude of teacher unions and the teachers themselves to the establishment of such a body The book will be of interest to academics researchers and historians as well as postgraduate students

Curriculum Change in Secondary Schools, 1957-2004 Norman Evans, 2007-05-07 This book is about curriculum change in secondary schools and shows how the quality of education has been affected by increasing intervention from central government Following the story

of one secondary school between 1957 and 2004 Norman Evans looks at the school before and after the introduction of the National Curriculum the changing role of LEAs and governors the characteristics since 1992 of school inspections responsible for policing the operation of the national tests predictions of results and examination results nationally set targets compliance with detailed prescription of school curricula This is the back story of today's educational climate as seen through the eyes of seven successive head teachers and long serving assistant staff who worked at the school during this momentous forty year period How did the changes affect what they sought to do as professionals Where have these changes taken us in terms of what happens in classrooms and what happens in the school as a whole And what can be learned from the development of the curriculum over this time to inform future practice Making History Now and Then D.

Cannadine, 2008-06-17 Collects twelve previously unpublished essays by one of Britain's most eminent historians David Cannadine including his inaugural and valedictory lectures at the Institute of Historical Research A unique volume discussing the study and nature of History itself and a range of key topics and periods in British and Imperial History The Heirs to the Savoia Throne and the Construction of 'Italianità', 1860-1900 Maria Christina Marchi, 2022-05-26 This book explores the evolution of the role of the heirs to the throne of Italy between 1860 and 1900 It focuses on the future kings Umberto I 1844 1900 and Vittorio Emanuele III 1869 1947 and their respective spouses Margherita of Savoia 1851 1926 and Elena of Montenegro 1873 1952 It sheds light on the soft power the Italian royals were attempting to generate by identifying and examining four specific areas of monarchical activity firstly the heirs public role and the manner in which they attempted to craft an Italian identity through a process of self presentation secondly the national royal linguistic and military education of the heirs thirdly the promotion of a family centred dynasty deploying both male and female elements in the public realm and finally the readiness to embrace different modes of mobility in the construction of Italianity By analysing the growing importance of the royal heirs and their performance on the public stage in post Risorgimento Italy this study investigates the attempted construction of a cohesive national identity through the crown and more specifically the heirs to the throne

Military Education and the British Empire, 1815-1949 Douglas E. Delaney, Robert C. Engen, Meghan Fitzpatrick, 2018-09-15 Common military education was the lifeblood of the armies navies and air forces of the British Empire It permeated every aspect of the profession of arms and was an essential ingredient for success in both war and peace Military Education and Empire is the first major scholarly work to address the role of military education in maintaining the empire throughout the nineteenth and twentieth centuries Bringing together the world's top scholars on the subject this book places distinct national narratives Canadian Australian South African British and Indian within a comparative context The contributors examine military education within the British Empire as a generator of institutional knowledge as a socializing agent and as an enhancer of interoperability This volume is the first to examine military education from a transnational perspective which allows readers the opportunity to consider the connections between education and empire Royals on

tour Robert Aldrich, Cindy McCreery, 2018-05-13 *Royals on Tour* explores visits by European monarchs and princes to colonies and by indigenous royals to Europe in the 1800s and early 1900s with case studies of travel by royals from Britain France Portugal Germany Italy the Netherlands Belgium Japan the Dutch East Indies and French Indochina Such tours projected imperial dominion and asserted the status of non European dynasties The celebrity of royals the increased facility of travel and the interest of public and press made tours key encounters between Europeans and non Europeans The reception visitors received illustrate the dynamics of empire and international relations Ceremonies speeches and meetings formed part of the popular culture of empire and monarchy Mixed in with pageantry and protocol were profound questions about the role of monarchs imperial governance relationships between metropolitan and overseas elites and evolving expressions of nationalism

The Schooling of Working-Class Girls in Victorian Scotland Jane McDermid, 2013-01-11 The portrayal of Scotland as a particularly patriarchal society has traditionally had the effect of marginalizing Scottish women both teachers and students in both Scottish and British history *The Schooling of Working Class Girls in Victorian Scotland* examines and challenges this assumption and analyzes in detail the course of events which has led to a more enlightened system Education was and is seen as integral to Scottish distinctiveness but the Victorian period saw anxious debate about the impact of outside influences at a time when Scottish society seemed to be fracturing This book examines the gender blindness of the educational tradition with its notion of the democratic intellect testing the claim of superiority for the Scottish system and questioning the assumption that Scottish women were either passive victims or willing dupes of a peculiarly patriarchal ideal Considering the influences of the related ideologies of patriarchy and domesticity and the crucial importance of the local and regional economic context in focusing on female education this book provides a much wider comparative study of Scottish society during a period of tremendous upheaval and a perceived crisis in national identity in which women as well as men participated

Hanoverian to Windsor Consorts Aidan Norrie, Carolyn Harris, J.L. Laynesmith, Danna R. Messer, Elena Woodacre, 2023-02-24 This book examines the lives and tenures of the consorts of the Hanoverian Saxe Coburg and Gotha and Windsor monarchs from 1727 to the present Some of the consorts examined in this volume such as Queen Elizabeth the Queen Mother consort to George VI are well known while others including Adelaide of Saxe Meiningen consort to William IV are more obscure These innovative and authoritative biographies bring a fresh approach to the consorts of this period revealing their lasting influence on the monarchy In addition to covering a period that has seen the development of constitutional monarchy and increased media scrutiny of the whole royal family this volume also looks to the future of the British monarchy suggesting ways that future consorts can learn from the example of their predecessors This volume and its companions reveal the changing nature of British consortship from the Norman Conquest to today

The Letters of Sarah Scott Vol 1 Nicole Pohl, 2024-08-01 Sarah Robinson Scott was a writer translator and social reformer While Scott s legacy presents her as a committed Anglican philanthropist the letters she wrote reveal her to

have been a witty even savage commentator on eighteenth century life This is the first edition of Scott's letters to be published and presents all extant copies *Playboy Princes* Peter Beer, 2016-07-20 A fascinating dual biography proves that controversial Royal Family members are not necessarily only a feature of late 20th or 21st century life Edward VII 1841 1910 and his grandson Edward VIII 1894 1972 were born in different eras but it is illuminating to compare the early and middle years of the two Princes of Wales as kings in waiting and discover how their youth informed their years on the British throne The privileges of rank aside they were heirs to an unenviable role and this study presents a unique portrait of strained apprenticeships for which there was no satisfactory precedent Theirs was an upbringing dictated by dogmatic prescription and the heavy weight of obligation As they pursued their lives according to their distinct personalities they were never relieved of parental strictures especially with regard to Queen Victoria and her eldest son who filled the void with shallow interests a profligate style of living and the delights of Parisian nightlife Inevitably the two princes were consigned to filling much of their time with insubstantial engagements not best suited to their characters and which reveal a common vulnerability In the case of the future Edward VIII he took a jaundiced view of matters of state and preferred dance floors riding to hounds and the ministrations of lovers This book is the story of the heirs progress that provides often unexpected perspectives on two public figures better known through the history of their respective reigns For readers in this era the similar position of Prince Charles ensures that this survey is a timely as well as a surprisingly entertaining read **The King** Christopher Andersen, 2022-11-08 From 1 New York Times bestselling author Christopher Andersen comes a vivid and unsparing yet sympathetic portrait of one of the most complex and enigmatic figures of our time Charles who has taken his place on the throne after being the oldest and longest serving heir in British history Since the day Charles Philip Arthur George was born he has been groomed to be King After more than seventy years of waiting he finally ascends the throne The King examines the private life of this historically important and controversial figure set against the grand thousand year sweep of the British monarchy This richly detailed biography covers it all from his military training to his marriage to Lady Diana through their separation and her tragic death to his marriage to Camilla Parker Bowles In the process it provides a balanced but fully honest look into the life of the new monarch This book will tell you what the King a man who has remained something of an enigma shrouded in speculation and intrigue is really like The King is the first biography of Charles since he has become monarch and serves as an authoritative chronicle of his life **On Royalty** Jeremy Paxman, 2008-07-31 The notable characteristic of the royal families of Europe is that they have so very little of anything remotely resembling true power Increasingly they tend towards the condition of pipsqueak principalities like Liechtenstein and Monaco fancy dress fodder for magazines that survive by telling us things we did not need to know about people we have hardly heard of How then have kings and queens come to exercise the mesmeric hold they have upon our imaginations In *On Royalty* renowned BBC journalist Jeremy Paxman examines the role of the British monarchy in an age when divine right no longer prevails and

governing powers fall to the country's elected leaders With intelligence and humor he scrutinizes every aspect of the monarchy and how it has related to politics religion the military and the law He takes us inside Buckingham Palace and illuminates the lives of the monarchs at once mundane absurd and magical What Desmond Morris did for apes Paxman has done for these primus inter primates the royal families Gilded history weird anthropology and surreal reportage of the royals up close combine in *On Royalty* a brilliant investigation into how an ancient institution struggles for meaning in a modern country

Long Live the Queen Bryan Kozlowski, 2020-11-10 Does this crown make me look old said the Queen never Her longevity health and physical stamina are legendary Now the longest reigning monarch in British history Elizabeth II has spent over half a century on the throne rarely taking a sick day and in her tenth decade remains amazingly comfortable in her own skin How does one do it Ma'am For the first time step behind Palace doors to unlock the little known strategies behind the Queen's remarkable self preservation Investigating the 23 rules of her iconic resilience you'll learn how to channel your inner royal at work at play or at the table in this fascinating plunge into the House of Windsor's famous fountain of youth Extensively researched and delightfully revelatory it's the story of how one strong queen can make stronger happier healthier subjects of us all Long live you *Colonial naval culture and British imperialism, 1922-67* Daniel Spence, 2015-11-01 Naval forces from fifteen colonial territories fought for the British Empire during the Second World War providing an important new lens for understanding imperial power and colonial relations on the eve of decolonisation With sources from Britain the Caribbean Africa and Asia this book examines the political social and cultural impact of these forces how they fortified British prestige against rival imperialisms and colonial nationalisms the importance of men on the spot collaboration naval theatre and propaganda in mobilising colonial navalism the role of naval training within the civilising mission and colonial development and how racial theory influenced naval recruitment strategy and management affecting imperial sentiment ethnic relations colonial identities customs and order This book will appeal to imperial maritime and regional historians by broadening our understanding of navies as social and cultural institutions where power was expressed through the ideas and relations they cultivated as well as their guns *Educating the Tudors* Amy McElroy, 2023-02-16 Education during the Tudor era was a privilege and took many forms including schools colleges and apprenticeships Those responsible for delivering education came from a variety of backgrounds from the humble parish priest to the most famed poet laureates of the day Curriculums varied according to wealth gender and geography The wealthy could afford the very best of tutors and could study as much or as little as they chose while the poorer members of society could only grasp at opportunities in the hopes of providing themselves with a better future The Tudors were educated during a time when the Renaissance was sweeping across Europe and Henry VIII became known as a Renaissance Prince but what did his education consist of Who were his tutors How did his education differ to that of his elder brother Prince Arthur and how did Henry's education change upon the death of his brother There is no doubt Henry was provided with an excellent education

particularly in comparison to his sisters Margaret and Mary Henry's own education would go on to influence his decisions of tutors for his own children. Who had the privilege of teaching Henry's children and did they dare to use corporal punishment? Educating the Tudors seeks to answer all of these questions delving into the education of all classes, the subjects they studied, educational establishment and those who taught them. *For King and Country* Heather Jones, 2021-09-23 This is a ground-breaking history of the British monarchy in the First World War and of the social and cultural functions of monarchism in the British war effort. Heather Jones examines how the conflict changed British cultural attitudes to the monarchy, arguing that the conflict ultimately helped to consolidate the crown's sacralised status. She looks at how the monarchy engaged with war, recruitment, bereavement, gender norms as well as at its political and military powers and its relationship with Ireland and the empire. She considers the role that monarchism played in military culture and examines royal visits to the front as well as the monarchy's role in home front morale and in interwar war commemoration. Her findings suggest that the rise of republicanism in wartime Britain has been overestimated and that war commemoration was central to the monarchy's revered interwar status up to the abdication crisis. Dictionary of British Education Professor Peter Gordon, Peter Gordon, Professor Denis Lawton, Denis Lawton, 2004-08-02 This is an up to date guide for teachers and parents, administrators, governors, students and others to help them find their way about the increasingly complex world of education. The main section provides a dictionary that is more than a simple set of definitions; many words in education have been put into some kind of historical context to become fully meaningful. The second part gives some important landmarks from the nineteenth century to the present time and also provides a list of political heads of education since state education was established. The final section is devoted to a list of acronyms and abbreviations, both of which have been the subject of multiple definitions in recent years. **Women, Clubs and Associations in Britain** David Doughan, Peter Gordon, 2007-01-24 Women have been consistently excluded from all manner of clubs and associations over the years, whether as the direct result of an anti-woman policy or indirectly through prohibitive entry requirements, social constraints or conflict of interests and tastes. Retaliation from women has taken two directions: some women have set up their own exclusive clubs that reflect their own interests and aims, while others have taken on the men and striven to break down resistance to their joining men's clubs on an equal footing. This book traces the development of the current situation, drawing from a wide range of sources, some of which have never been published before. Looking at the different types of clubs and associations that include women and girls from the WI to the Girl Guides, this book is a rich social history full of fascinating observations and stories and will be absorbing reading for anyone interested in sociology, women's history or the transformation of Britain's social life.
