Rubens and the Eloquence of Drawing Catherine H. Lusheck, 2017-08-07 Rubens and the Eloquence of Drawing re-examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist's approach to disegno during and following his formative Roman period 1600 08 this volume highlights Rubens's high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter-long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens's early practice of drawing Focusing on Rubens's Medea Fleeing with Her Dead Children Los Angeles Getty Museum and Kneeling Man Rotterdam Museum Boijmans Van Beuningen these close looking case studies demonstrate Rubens's commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens's intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age

"Rubens, Vel?uez, and the King of Spain " Larry Silver, 2017-07-05 This study provides a new analysis of the pictorial ensemble of the Torre de la Parada the hunting lodge of King Philip IV of Spain Created in the late 1630s by a group of artists led by Peter Paul Rubens this cycle of

mythological imagery and hunting scenes was completed by Diego Velázquez. Despite the lack of a written program surviving, works provide eloquent testimony of several basic themes that embody Neostoic ideals of self-restraint and prudent governance. While Rubens set the moral tone through his serio-comic Ovidian narratives, Velázquez added an important grace note with his portraits of ancient philosophers and royals and fools of the court. This study is the first to consider in depth their joint artistic contributions and shared ambition. Through analysis of individual works, the authors situate these pictorial inventions within broader intellectual currents in both Spanish Flanders and Spain, especially in the advice literature and drama presented to the Spanish king. Moreover, they point to the lasting resonance of *Torre de la Parada* for Velázquez, especially within his late masterworks *Las Meninas* and *Las Hilanderas*. Ultimately, this study illuminates the dialogical nature of this ensemble in which Rubens and Velázquez offer a set of complementary views on subjects ranging from the nature of classical gods to the role of art as a mirror of the prince.

The Collected Letters of Sir George and Lady Beaumont to the Wordsworth Family, 1803-1829 Jessica Fay, 2021-04-01 Sir George Beaumont is a key figure in the history of British art As well as being a respected amateur landscape painter he was a prominent patron a collector and co founder of the National Gallery William Wordsworth described Beaumont s friendship as one of the chief blessings of his life and this edition reveals that the two men became collaborators as well as companions In addition to documenting unique perspectives on social political and cultural events of the early nineteenth century providing new contexts for reading Wordsworth s mature poetry the letters collected here chart the progress of an increasingly intimate inter familial relationship The picture that emerges is of a coterie that in influence creativity and affection rivals Wordsworth s more famous exchange with Coleridge at Nether Stowey in the 1790s The edition includes an extended study of how Wordsworth and Beaumont helped shape one another s work tracing processes of mutual artistic development that involved not only a meeting of aristocratic refinement and rural simplicity of a socialite and a lover of retirement of a painter and a poet but also an aesthetic rapprochement between neoclassical and romantic values between the impulse to idealize and the desire to particularize
