Secular Art With Sacred Themes:

Secular Art with Sacred Themes. Derain - Chagall - Manzù - Picasso - Newman Jane Dillenger, 1969 **Secular Art with Sacred Themes** Jane Dillenger, 1969 The Oxford Handbook of Religion and the Arts Frank Burch Brown, 2018 This volume offers 37 original essays from leading scholars on the crucial topics issues methods and resources for studying and teaching religion and the arts **A Theology of Artistic Sensibilities** John Dillenger, 2004-10-19 For most of history argues John Dillenger the visual arts were for better or worse part of the very fabric of the life and thought of the church But with the Reformation and the Counter Reformation a major change took place Protestant rejection of the visual was matched in Roman Catholicism by the reduction of its formative power While the visual arts dropped out of the lives of Protestant churches they became a memory rather than a source of ennoblement or power in the Roman Catholic Church Thus in different but allied ways Protestants and Catholics lost the power of the visual Part art history part historical theology and part theological reflection this book is both an argument and a program for the recovery of the visual arts in the life of the church for reclaiming seeing as part of religious perception It offers a theological understanding of the visual and provides a basis upon which the visual arts may again be incorporated into Protestantism and reinvigorated in Roman Catholicism The first part is devoted to historical reconstruction exploring those moments in Western history in which the relation between religion and the arts was in ferment Part 2 is given to contemporary delineation and analysis of spiritual perceptions in modern American painting and sculpture of modern church art and architecture and of the changing views of contemporary theologians toward the visual arts Citing David Tracy Karl Rahner Langdon Gilkey and others as examples Dillenger argues that contemporary theology is moving away from the modern rationalistic understanding of theological analogy to one far closer to the arts Part 3 is constructive developing a theological perspective that demands and includes the visual arts and suggesting ways in which this can be accomplished in pastoral and theological education The world of art says Professor Dillenger is more aware of the role of religion in the arts than the world of religion is of art Thus it is time for the church to resume its historic association with the visual arts albeit in analogous rather than reprimating ways

The Spiritual Dynamic in Modern Art C. Spretnak, 2014-10-22 This book demonstrates that numerous prominent artists in every period of the modern era were expressing spiritual interests when they created celebrated works of art This magisterial overview insightfully reveals the centrality of an often denied and misunderstood element in the cultural history of modern art *Barnett Newman and Heideggerian Philosophy* Claude Cernuschi, 2012-03-22 As a major member of the New York School Barnett Newman is celebrated for his radical explorations of color and scale and as a precursor to the Minimalist movement for his significant contribution to the development of twentieth century American art But if his reputation and place in history have grown progressively more secure the work he produced remains highly resistant to interpretation His paintings are rigorously abstract and his writings full of references to arcane metaphysical concepts

Frustrated over their inability to reconcile the works with what the artist said about them some critics have dismissed the paintings as impenetrable The art historian Yve Alain Bois called Newman the most difficult artist he could name and the philosopher Jean Fran ois Lyotard declared that there is almost nothing to consume in his work or if there is I do not know what it is In order to advance interpretation this book investigates both Newman s writings and paintings in light of ideas articulated by one of Germany s most important and influential philosophers Martin Heidegger Many of the themes explored in Newman s statements and echoed in the titles of his paintings betray numerous points of intersection with Heidegger s philosophy the question of origins the distinctiveness of human presence a person s sense of place the sensation of terror the definition of freedom the importance of mood to existence the particularities of art and language the impact of technology on modern life the meaning of time and the human being s relationship to others and to the divine When examined in the context of Heideggerian thought these issues acquire greater concreteness and in turn their relation to the artist s paintings becomes clearer It is the contention of this book that at the intersection of art history and philosophy an interdisciplinary framework emerges wherein the artist s broader motivations and the specific meanings of his paintings prove more amenable to elucidation

ReVisioning James Romaine,Linda Stratford,2014-05-20 ReVisioning Critical Methods of Seeing Christianity in the History of Art examines the application of art historical methods to the history of Christianity and art As methods of art history have become more interdisciplinary there has been a notable emergence of discussions of religion in art history as well as related fields such as visual culture and theology This book represents the first critical examination of scholarly methodologies applied to the study of Christian subjects themes and contexts in art ReVisioning contains original work from a range of scholars each of whom has addressed the question in regard to a well known work of art or body of work How have particular methods of art history been applied and with what effect The study moves from the third century to the present providing extensive treatment and analysis of art historical methods applied to the history of Christianity and art

Art As Religious Studies Douglas G. Adams,Diane Apostolos-Cappadona,2001-04-17 **Secular Steeples** Conrad Ostwalt,2003-03-24 Conrad Ostwalt explores the confluence of religion and popular cultural forms in the secular world demonstrating that a secular religiosity has co opted some of the functions previously reserved for religions institutions
