Committee on the Judiciary of the United States Senate in the Matter of the Nomination of Oscar R. Hundley to be United States District Judge for the Northern District of Alabama. February 7th, 1908 United States. Congress. Senate. Committee on the Judiciary, 1908 **Abetting Batterers** Andrew R. Klein, Jessica L. Klein, 2020-02-24 Whatever the number domestic violence victims remain far too many for a preventable crime More and more victims of intimate partner violence are reaching out to police prosecutors and judges only to be sorely disappointed even betrayed While laws and programs have multiplied over the last few decades to address domestic violence the country is getting safer for almost everyone except for women who have or have had abusive male intimate partners Andrew R Klein and Jessica L Klein look at the criminal justice response to domestic violence across America today ranging from police to prosecutors and courtrooms across the nation Abetting Batterers reveals the troubling pattern of inattention and incompetence that compromises the safety of women and encourages their male abusers to continue their abuse and violence Although criminal justice system agencies vary among cities towns and counties within the same state they all too often relegate domestic violence to the backburners of the system dismissing victims and ignoring even the most serious and chronic abusers The variation reveals the real problem in preventing intimate partner violence lies in these agencies commitment and will rather than their ability to do the job The authors unveil what is working in regard to protecting victims of domestic violence and holding their abusers accountable and they suggest strategies for ensuring that what is being done right can be replicated and become the law and practice across the nation The wide variation in how intimate partner violence is handled by similar jurisdictions demonstrates the real problem in preventing it lies in these agencies commitment rather than ability to do the job This book proves to be invaluable in understanding what is and is not being done in the reality of domestic violence in America

Homeland Security Michael Chertoff, 2011-11-29 In 2003 the President and the U S Congress established the Department of Homeland Security From the beginning its mission was clear prevent terrorist attacks protect against threats

to America's safety and security and prepare the nation to respond effectively to disasters both natural and man made This monumental mission demands a comprehensive strategy It also requires a crystal clear explanation of that strategy to Americans and their allies worldwide In a revealing new book Homeland Security Assessing the First Five Years Michael Chertoff provides that explanation In a refreshingly candid and engaging manner America's former homeland security secretary depicts the department's long term approach what it has achieved and what it has yet to do The strategy begins with the threats America faces from terrorist groups like al Qaeda to hurricanes like Ike or Gustav Once these threats are identified Chertoff writes we can confront them using every tool at our disposal We can stop terrorists from entering the country and discourage people from embracing terrorism by combating its lethal ideology We can protect our critical assets and reduce our vulnerabilities to natural disasters We can plan and prepare for emergencies and respond in a way that minimizes the consequences And we can work closely with our allies abroad to reduce the risk of future disasters In each of these areas Chertoff informs the reader what the nation has done and what it still must do to secure its future How well has this strategy fared in a post 9 11 world Since that fateful day there have been no global terror attacks on American soil Yet in the face of continued dangers Michael Chertoff warns repeatedly against complacency He urges America and its leaders to strengthen their resolve stay the course and build creatively on past successes
