Seduction In Berlin

Joshua Parker

Seduction In Berlin:

Seduction in Berlin William Kotzwinkle,1985 *A Seduction in Berlin* Nicola Cameron,2024-12-16 Three people Two homelands One irresistible desire The year is 1923 the Great War is over and Berlin is the manic playground of Europe s elite Against a glittering background of nightclubs champagne and hot jazz three people a sensual heiress with a taste for dominance a wounded playboy who craves the touch of his own kind and a desperate German army officer who uncovers hidden desires forge a decadent pact of pleasure But nights of uninhibited passion soon lead to a dangerous emotional connection one that will threaten their futures and their lives Note This book was previously published as *Behind the Iron Cross* Willing Seduction Barbara Kosta,2012 This fascinating cultural history of *The blue angel* provides a new

interpretive framework with which to approach this classic Weimar film and suggests that discourses on mass and high culture are integral to the film s thematic and narrative structure These discourses surface in the relationship between the two main characters the cabaret entertainer Lola Lola Marlene Dietrich and the high school teacher Immanuel Rath one time Oscar winner Emil Jannings In addition to offering insight into some of the major debates that informed the Weimar Republic this book also demonstrates how similar issues continue to shape the contemporary cultural landscape of Germany where Dietrich serves as a cultural icon whose symbolic value has contributed significantly to nation building since German unification rear cover **Seduction and Power** Silke Knippschild,Marta Garcia Morcillo,2013-08-15 This volume focuses on the reception of antiquity in the performing and visual arts from the Renaissance to the twenty first century It explores the tensions and relations of gender sexuality eroticism and power in reception Such universal themes dictated plots and characters of myth and drama but also served to portray historical figures events and places from Classical history Their changing reception and reinterpretation across time has created stereotypes models of virtue or immoral conduct that blend the original features from the ancient world with a diverse range of visual and performing arts of the modern era The volume deconstructs these traditions and shows how arts of different periods interlink to form and transmit these images to modern audiences and viewers Drawing on contributions from across Europe and the United States a trademark of the book is the inclusive treatment of all the arts beyond the traditional limits of academic disciplines **Tales of Berlin in American**

Literature up to the 21st Century Joshua Parker,2016-03-17 Of all European cities Americans today are perhaps most curious about Berlin whose position in the American imagination is an essential component of nineteenth century postwar and contemporary transatlantic imagology Over various periods Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe symbolizing the ultimate evil and the power of redemption This volume offers a comprehensive examination of the city s image in American literature from 1840 to the present Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels short stories plays and poems *Tales of Berlin* presents a composite landscape not only of the

German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today

Artful Seduction Karl Posso, 2017-12-02 The controversial works of Brazilian authors Silviano Santiago 1936 and Caio Fernando Abreu 1948 96 offer distinctive but complementary explorations of male homosexual subjectivities formulated through displacement exile and the abject Posso examines the innovative ways in which these writers stage manage Western poststructuralist thought to critique heterosexist exclusion in Brazil and in globalized popular and folk culture and he explains how they draw on diverse cultural productions and art works to extend a general undermining of oppositional logic and psychoanalytic theory

Resounding Pasts Drago Momcilovic, 2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re-fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that re-sound the past

Power and Space John Allen, 2024-08-05 Power and Space sets out the inherently spatial nature of power today and seeks to change the conversation around how power exercises us in the contemporary moment The essays brought together in this book are a response to the fact that conventional descriptions of power and its ordered geographies no longer chime with our lived experience Spatiality matters to the workings of power nowadays and this book sheds light on what it is that we face when power is exercised through more subtle spatially nuanced arrangements It is divided into three parts each representing a different kind of engagement with power's relationship to space from the spatial shifts in the way power is exercised through to its assemblage like entanglements and in turn its progressive topological character Throughout the book a wide range of social political and economic examples are drawn upon to illustrate a more provisional sense of power ranging for instance from the seductive logic of privatized public spaces to the attempt by a data analytics company to manipulate political behaviour through to the offshore spaces invented by rising financial elites to challenge the established banking order Illustrating the new found abilities of the powerful to make their presence felt this book provides an accessible account of the practical workings of power in the present day It will be invaluable to students and academics in human geography and urban studies as well as politics sociology and cultural studies

Changing the Subject in English

Class Marshall W. Alcorn, 2002 Alcorn English and humanities George Washington U argues that the gradual shift in the teaching of composition from a curriculum that looked at literature as an attempt to represent reality to one that stresses the subjectivity of the student in decoding texts has incorporated an insufficiently complex understanding of subjectivity The current cultural studies programs stress political ideas over expressive writing but Alcorn argues that political ideas will never be right unless there is attention to self expression Basing his work in the conceptual world of psychoanalytic theory he outlines a cultural studies practice that develops anti ideological identity Annotation copyrighted by Book News Inc Portland OR *Present Pasts* Andreas Huyssen, 2003 This book analyzes the relation of public memory to history forgetting and selective memory in three late twentieth century cities that have confronted major social or political traumas Berlin Buenos Aires and New York
