Children's Emotions in Europe, 1500 – 1900 Jeroen J. H. Dekker, 2024-04-04 This book gives you the historical sensation of coming face to face with the bodily expression and regulation of children's emotions over time The study does this by encouraging you to look through the eyes of well known artists like Albrecht Dürer Domenico Ghirlandaio Jan Steen Antony van Dyck Rembrandt and Titian in early modern Europe and Jean Baptiste Simon Chardin Thomas Lawrence Jean Honor Fragonard Philipp Otto Runge Willem Bartel van der Kooi Paul Gauguin Auguste Renoir and Jozef Israëls in the late 18th and 19th centuries These sources are supplemented by works from less famous artists as well as popular emblem books child advice manuals observations from the emerging child sciences and personal documents Jeroen Dekker observes children's emotions mainly in the child's world and in the domestic emotional space and connects them with history's ongoing underlying discourse on education and the emotions This discourse was developed by theologians philosophers and moralists like Augustine Aquinas Erasmus Descartes Jacob Cats John Locke and Jean Jacques Rousseau by Romantic educationalists like Friedrich Fröbel and Ellen Key and by scientists like Charles Darwin and William James who emphasized the biological instead of the moral fundament of children's emotions The story of children's emotions is told in the context of cultural movements like the Renaissance Humanism the Reformation the Enlightenment Romanticism and the starting Age of Child Science Children's Emotions in Europe 1500 1900 crucially highlights the continuous co existence of regulation oriented and child oriented educational views on children's emotions

**Representations of Art and Art Museums in Children's Picture Books** Perry Nodelman, 2024-10-17 What happens when the assumptions and practices of museum curators and art educators intersect with the assumptions and practices of publishing for children This study explores how over three hundred children's picture books most of them published in the last three decades in English introduce children to art and art museums It considers how the books emerge from and relate to a range of theories and assumptions about childhood and childhood development children's literature and culture illustration visual art museology and art education As well as examining how these theories and assumptions influence what picture books teach young readers about visiting museums and about how to look at and think about art it examines which artists and artworks appear most often in picture books and offers a survey of different kinds of art related picture books ones that claim to be purely informational ones that make

looking at art a game or a puzzle ones in which children visit art museums and many more Since the books all include reproductions of or allusions to museum artworks the study also considers the problems illustrators face in depicting museum artworks in illustrations in a different style      Reaching Standards and Beyond in Kindergarten Gera Jacobs,Kathy Crowley,2010 Focusing on research based developmentally appropriate practices this book shows teachers how to help young children reach standards through creative play activities that ignite their enthusiasm to learn      *Children's Literature* Barbara Stoodt,1996      **Catalog of Copyright Entries** Library of Congress.
