Seeming Being And Becoming Acting In Our Century:

Seeming, Being, and Becoming Robert L. Benedetti, 1976

Seeming, Being, and Becoming Robert L. Benedetti, 1976

The Director as Collaborator Robert Knopf, 2015-10-05 The Director as Collaborator teaches essential directing skills while emphasizing how directors and theatre productions benefit from collaboration Good collaboration occurs when the director shares responsibility for the artistic creation with the entire production including actors designers stage managers and technical staff Leadership does not preclude collaboration in theatre these concepts can and should be complementary Students will develop their abilities by directing short scenes and plays and by participating in group exercises **The End of Acting** Richard Hornby, 1992 From Richard Hornby's preface This book is written for those who act those who teach acting and those who are interested in seeing it It is both a theoretical work and a call for action This book is an unashamed attack on the American acting establishment The concepts derive from my graduate seminars in acting theory and history in the School of Theatre at Florida State University Much of the feistiness of those classes carries over into this book If my arguments serve only to stimulate new dialogue they will have been valuable *Soul of Beijing Opera, The Ruru* Li, 2010-05-01 This book will act as a powerful introduction to the story of Beijing Opera over the course of the twentieth century with a particularly strong emphasis on the Communist period and its influence on contemporary performance Using excellent oral history research and with a strong focus on practice and performance techniques Li Ruru places the genre in both its historical and global context not a timeless Chinese tradition but a product of China's turbulent twentieth century and the global interactions that were a key part of that history Henrietta Harrison Harvard University This meticulously researched and colourful account of the highly complex performance form jingju will be of interest to a wide constituency of theatre scholars and cultural historians Writing from the unique dual perspective of insider practitioner and academic Li Ruru deftly weaves oral and cultural histories together with detailed performance analyses including a fascinating chapter on the secrets of jingju training This book promises to raise significantly the profile of this Chinese total theatre for English speaking audiences Jonathan Pitches founding co editor of Theatre Dance and Performance Training Li Ruru's unique and valuable perspective combines the critical eye of the imaginative researcher with the intimate perspective of a true jingju insider the daughter of one of the twentieth century's leading female performers Impeccably researched passionate and personal this aptly titled book provides readers with an exciting and thought provoking look at jingju history and performance practice through its focus on the lives and work of six controversial leading artists Elizabeth Wichmann Walczak University of Hawai'i at Manoa Any traditional theatre has to engage the changing world to avoid becoming a living fossil How has Beijing Opera a highly stylized theatre with breath taking acrobatics and martial arts fabulous costumes and striking makeup survived into the new millennium while coping with a century of great upheavals and competition from new entertainment forms Li Ruru's *The Soul of Beijing Opera* answers that question looking at the evolution of singing and

performance styles make up and costume audience demands as well as stage and street presentation modes amid tumultuous social and political changes Li's study follows a number of major artists' careers in mainland China and Taiwan drawing on extensive primary print sources as well as personal interviews with performers and their cultural peers One chapter focuses on the illustrious career of Li's own mother and how she adapted to changes in Communist ideology In addition she explores how performers as social beings have responded to conflicts between tradition and modernity and between convention and innovation Through performers' negotiation and compromises Beijing Opera has undergone constant re-examination of its inner artistic logic and adjusted to the demands of the external world Play Directing Francis Hodge, Michael

McLain, 2015-11-19 Play Directing describes the various roles a director plays from selection and analysis of the play to working with actors and designers to bring the production to life The authors emphasize that the role of the director as an artist leader collaborating with actors and designers who look to the director for partnership in achieving their fullest most creative expressions The text emphasizes how the study of directing provides an intensive look at the structure of plays and acting and of the process of design of scenery costume lighting and sound that together make a produced play **Acting (Re)Considered** Phillip B. Zarrilli, 2005-06-28 Acting Re Considered is an exceptionally wide-ranging collection of theories on acting ideas about body and training and statements about the actor in performance This second edition includes five new essays and has been fully revised and updated with discussions by or about major figures who have shaped theories and practices of acting and performance from the late nineteenth century to the present The essays by directors historians actor trainers and actors bridge the gap between theories and practices of acting and between East and West No other book provides such a wealth of primary and secondary sources bibliographic material and diversity of approaches It includes discussions of such key topics as how we think and talk about acting acting and emotion the actor's psychophysical process the body and training the actor in performance non-Western and cross-cultural paradigms of the body training and acting Acting Re Considered is vital reading for all those interested in performance *Encyclopedia of Creativity* Steven R.

Pritzker, 1999-08-09 The Encyclopedia of Creativity is the sourcebook for individuals seeking specialized information about creativity and motivation Subjects include theories of creativity techniques for enhancing creativity individuals who have made significant contributions to creativity physiological aspects of creativity and virtually any topic that touches upon the subject Entries are placed in alphabetical order with cross-references to other topics and entries where appropriate Each entry is written in simple easy-to-understand terms summarizing the most important aspects of creative research and writing relating to the specific topic A bibliography in the back of each article suggests additional sources for more information The text is visually enhanced throughout by illustrations and photographs A source book of specialized information about creativity and motivation Includes virtually any topic dealing with creativity Entries are placed in alphabetical order with cross-references Written in easy-to-understand terms Illustrations and photographs throughout Contains select biographies

of internationally renowned creative individuals from throughout history

Education, Modernity, and Fractured

Meaning Donald W. Oliver, 1989-07-18 An indictment of the ideology of modernity which has resulted in our leading incoherent and fragmented lives Oliver and Gershman's book explores the profound paradigmatic differences that exist among the world's people and describes a rich theory of knowing and being commonly called process philosophy The promise of process philosophy is in its potential to allow us to participate more fully in the flow of all of time and nature But what does it mean for a teacher and student in the learning situation to have a process point of view The authors also discuss many of the various implications in regard to language space power relationships and time as they place process philosophy in the educational context

Tonality as Drama Edward David Latham, 2008 Drawing on the fields of dramaturgy music theory and historical musicology this book answers a question about twentieth century music Why does tonality persist in opera even after it has been abandoned in other genres

Seeming Being And Becoming Acting In Our Century Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the power of words has been evident than ever. They have the capability to inspire, provoke, and ignite change. Such may be the essence of the book **Seeming Being And Becoming Acting In Our Century**, a literary masterpiece that delves deep into the significance of words and their effect on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we will explore the book's key themes, examine its writing style, and analyze its overall effect on readers.
