Selected Essays Of John Crowe Ransom:

Selected Essays of John Crowe Ransom John Crowe Ransom, Thomas Daniel Young, John J. Hindle, 1984 *Selected Essays of John Crowe Ransom* John Crowe Ransom, **Selected Letters of John Crowe Ransom** John Crowe Ransom, The Collected Poems of John Crowe Ransom John Crowe Ransom, 2015 Poetry Edited by Ben Mazer The first ever complete edition of the poems of John Crowe Ransom restoring to the world in the name not of mercy but of justice a great many poems that he himself had once and quite rightly judged perfectly worthy of publication poems that joining now his select poems will enjoy a renaissance **John Crowe Ransom's Secular Faith** Kieran Quinlan, 1999-03-01 Recent interest in the life and works of John Crowe Ransom has brought to light the many apparent contradictions and discontinuities in the career of this important man of letters A noted poet Ransom chose to devote his energies primarily to the composition of prose A southern agrarian in the 1930s he later rejected the movement as nostalgic and unrealistic But perhaps more central to his development as a man of letters he came to renounce all traditional religious beliefs even though he was descended from a line of Methodist ministers In John Crowe Ransom's Secular Faith Keiran Quinlan examines these and other incongruities within the context of the writer's career and offers a substantially revisionist interpretation of his subject Quinlan argues that the key to understanding Ransom's development lies in his early rejection of the tenets of Christian theology and in his consequent effort at articulating an alternative philosophy to live by Ransom's literary efforts are viewed as a philosophical project aimed at discovering an empirical validity for the world rather than a transcendental one Quinlan examines Ransom's development against the background of the literary and philosophic movements that influenced the writer He shows how thinkers like Kant Hegel Dewey and the logical positivists and poets like Arnold Hardy Stevens Eliot and Graves all made significant contributions to Ransom's progress Although Ransom has often been allied with T S Eliot who turned to religion and a transcendental knowledge of the world Quinlan contends that Ransom's real sympathies were with Wallace Stevens who sought a suitable substitute for religious faith in the celebration of a world he felt was emptied of its transcendental component Ransom's difficulties are in many ways symptomatic of the struggles of our age the supplanting of God and a supernatural world view by scientific advances the loss of faith and thus the need to find an alternative meaning in existence Quinlan stresses that although the gradual emergence of Ransom's secular faith was a direct result of his lifelong dialogue with the Christian tradition his final belief was that this is the best of all possible worlds inasmuch as it is not possible for imagination to acquaint us with any other world Quinlan concludes therefore that Ransom belongs squarely in the American pragmatist tradition **John Crowe Ransom; Critical Essays and a Bibliography** Thomas Daniel Young, 1968 **The Program Era** Mark McGurl, 2009-08-30 McGurl offers a fundamental reinterpretation of postwar American fiction asserting that it can be properly understood only in relation to the rise of mass higher education and the creative writing program The Program Era will be at the center of debates about postwar literature and culture for years to come

Hagenstein, Sara M. Gregg, Brian Donahue, 2011-01-01 From Thomas Jefferson's Monticello to Michelle Obama's White House organic garden the image of America as a nation of farmers has persisted from the beginnings of the American experiment In this rich and evocative collection of agrarian writing from the past two centuries writers from Hector St Jean de Crevecoeur to Wendell Berry reveal not only the great reach and durability of the American agrarian ideal but also the ways in which society has contested and confronted its relationship to agriculture over the course of generations Drawing inspiration from Virgil's agrarian epic poem Georgics this collection presents a complex historical portrait of the American character through its relationship to the land From the first European settlers eager to cultivate new soil to the Transcendentalist utopian and religious thinkers of the nineteenth century American society has drawn upon the vision of a pure rural life for inspiration Back to the land movements have surged and retreated in the past centuries yet provided the agrarian roots for the environmental movement of the past forty years Interpretative essays and a sprinkling of illustrations accompany excerpts from each of these periods of American agrarian thought providing a framework for understanding the sweeping changes that have confronted the nation's landscape

Ghostly Parallels Randolph Runyon, 2006 America's most eminent man of letters in his later years and certainly one of the greatest Southern writers Robert Penn Warren has increasingly come to be known for his poetry Ghostly Parallels is a close examination of the heart of his poetic corpus the eight collections published between 1935 and 1976 Thirty Six Poems Eleven Poems on the Same Theme Promises You Emperors and Others Tale of Time Incarnations Or Else and Can I See Arcturus from Where I Stand Ghostly Parallels shows how Warren constructed collections of poems based on common subjects and contexts and also contends that while the poems are distinctive taken together they reveal intricate patterns of theme imagery and diction within explicit sequences Runyon demonstrates that Warren's collections are integrated well crafted wholes and each poem references its predecessor sometimes in intriguingly self referential ways Runyon shows that despite the many changes in diction tone and subject that Warren underwent in his long career his concern for writing his poems in such a way that they could reach out beyond themselves to other poems remained remarkably constant In the arrangement Warren gave them his poems form ghostly

parallels an expression that appears in *The Return An Elegy* where they refer to the railroad tracks that bring the poet home to his dying mother This return to the mother is a persistent leitmotif in the poems and forms the other major theme of this study Warren s personal poetic myth in which such images as golden light and mirror images are signs of the mother s presence as both Danae mother of Perseus and Medusa whom Perseus confronted Through pursuing sequential patterns as well as echoes and myth *GhostlyParallels* brings a wealth of insights to the work of this prolific novelist critic and essayist An important guide for undergraduate and graduate students alike *Ghostly Parallels* will also appeal to anyone with an interest in Robert Penn Warren and southern literature

Place in Literature Roberto Maria Dainotto,2000 Since the 1840s when Victorian England emerged into the modern era and industrial cities became the new cultural centers regionalist literature has posited itself as an aesthetic alternative to nationalist culture Yet what differentiates regionalism s claims of authenticity derived from blood and soil from those of nationalism Through close readings and theoretical elaborations Roberto M Dainotto reveals the degree to which regionalism mimics nationalism in valorizing ethnic purity He interprets regionalism not as a genre in the pastoral tradition but as a rhetorical trope a way of reading in which regionalism figures as the other against a historical process that disrupts the organic wholeness of place Dainotto traces the genealogy of the idea of place in literature examining European texts from Victorian England to Fascist Italy He finds for example in Thomas Hardy s *The Return of the Native* a virtual thesaurus of regionalist commonplaces Elizabeth Gaskell s *North and South* mediates between Madame de Stal s privileging of the sophisticated north and Jean Jacques Rousseau s nostalgia for the naive south The regionalism of the Sicilian philosopher Giovanni Gentile exhibits a deep longing for the humanities as they define Italy and Western culture Dainotto concludes with a close look at the rhetoric of Nazism and Fascism dramatizing the convergence of regionalist aesthetics and nationalist ideology in Italy and Germany between the two World Wars

Fierce Solitude: a Life of J.g. Fletcher (c) , Unhinging Perception Inês Robalo, *Unhinging Perception Fiction and Materiality in the Nineteenth Century Realist Novel* reconsiders realism s relationship to materiality fictionality and human perception Through a comparatist reading of novels by George Eliot Theodor Fontane and Emilia Pardo Baz n the book situates their works within broader epistemological debates of the period and explores realism s metafictional mechanisms and their capacity to interrogate the limits of perception and interpretation Engaging with questions central to literary theory narrative studies and material culture *Unhinging Perception* contributes to ongoing conversations about realism and its critical legacies

The Global Remapping of American Literature Paul Giles,2018-06-12 This book charts how the cartographies of American literature as an institutional category have varied radically across different times and places Arguing that American literature was consolidated as a distinctively nationalist entity only in the wake of the U S Civil War Paul Giles identifies this formation as extending until the beginning of the Reagan presidency in 1981 He contrasts this with the more amorphous boundaries of American culture in the eighteenth century and with ways in which conditions of globalization at the turn of the twenty first

century have reconfigured the parameters of the subject In light of these fluctuating conceptions of space Giles suggests new ways of understanding the shifting territory of American literary history ranging from Cotton Mather to David Foster Wallace and from Henry Wadsworth Longfellow to Zora Neale Hurston Giles considers why European medievalism and Native American prehistory were crucial to classic nineteenth century authors such as Emerson Hawthorne and Melville He discusses how twentieth century technological innovations such as air travel affected representations of the national domain in the texts of F Scott Fitzgerald and Gertrude Stein And he analyzes how regional projections of the South and the Pacific Northwest helped to shape the work of writers such as William Gilmore Simms Jos Mart Elizabeth Bishop and William Gibson Bringing together literary analysis political history and cultural geography *The Global Remapping of American Literature* reorients the subject for the transnational era

New Critical Nostalgia Christopher Rovee, 2024-01-02 *New Critical Nostalgia* weighs the future of literary study by reassessing its past It tracks today s impassioned debates about method back to the discipline s early professional era when an unprecedented makeover of American higher education with far reaching social consequences resulted in what we might call our first crisis of academic life Rovee probes literary study s nostalgic attachments to this past by recasting an essential episode in the historiography of English the vigorous rejection of romanticism by American New Critics in the new light of the American university s tectonic growth In the process he demonstrates literary study s profound investment in romanticism and reveals the romantic lyric s special affect nostalgia as having been part of English s professional identity all along *New Critical Nostalgia* meticulously shows what is lost in reducing mid century American criticism and the intense quirky and unpredictable writings of central figures such as Cleanth Brooks Josephine Miles and W K Wimsatt to a glib monolith of New Critical anti romanticism In Rovee s historically rich account grounded in analysis of critical texts and enlivened by archival study readers discover John Crowe Ransom s and William Wordsworth s shared existential nostalgia witness the demolition of the immature Percy Shelley in the revolutionary textbook *Understanding Poetry* explore the classroom give and take prompted by the close reading of John Keats consider the strange ambivalence toward Lord Byron on the part of formalist critics and romantic scholars alike and encounter the strikingly contemporary quantitative studies by one of the mid century s preeminent poetry scholars Josephine Miles These complex and enthralling engagements with the romantic lyric introduce the reader to a dynamic intellectual milieu in which professionals with varying methodological commitments from New Critics to computationalists working in radically different academic locales from Nashville and New Haven to Baton Rouge and Berkeley wrangled over what it means to read with nothing less than the future of the discipline at stake
