discourses and how these masculinities are distributed received and transformed within the setting of the market place This volume is divided into three interrelated parts the local cinematic tradition the transnational context and reverberations and the larger production reception and mediation environments The combination of these three perspectives will reveal the dynamics and tensions between the local and the transnational between production and reception and between text and context in the gendered manifestations of Hong Kong cinema *Theorising Chinese Masculinity* Kam Louie,2002-04 This book is the first comprehensive analysis of Chinese masculinity Kam Louie uses the concepts of wen cultural attainment and wu martial valour to explain attitudes to masculinity This revises most Western analyses of Asian masculinity that rely on the yin yang binary Examining classical and contemporary Chinese literature and film the book also looks at the Chinese diaspora to consider Chinese masculinity within and outside China Excess and Masculinity in Asian Cultural Productions Kwai-Cheung Lo,2010-08-04 In *Excess and Masculinity in Asian Cultural Productions* Kwai Cheung Lo explores the excesses associated with the phenomenal economic growth in East Asia including surplus capital environmental waste and the unbalanced ratio of men to women in the region connecting the production of capitalist excess to the production of new forms of transnational Asian masculinity Lo draws on Lacanian psychoanalysis and Marxist ideas as well as gender theory in his examination of East Asian cultural products such as religious and parenting books transgender literary fantasies travel writing gangster movies female action heroes and online games Through this analysis Lo argues that the excess of Asia s masculine modernization throws into relief the internal inconsistencies of capitalism itself posing new challenges to the order of global capitalism and suggesting new possible configurations of global modernity Hong Kong Neo-Noir Esther Yau,2017-04-28 The first comprehensive collection on the subject of Hong Kong neo noir cinema this book examines the way Hong Kong has developed its own unique and culturally specific version of the neo noir genre while at the same time drawing on and adapting existing international noir cinemas With a range of contributions from established and emerging scholars this book illuminates the origins of Hong Kong neo noir its styles and contemporary manifestations and its connection to mainland China Case studies include classics such as *The Wild Wild Rose* 1960 and more recent films like *Full Alert* 1997 and *Exiled* 2007 as well as an in depth look at the careers of iconic figures like Johnnie To and Jackie Chan By examining at its past and its contemporary development Hong Kong Neo Noir also points towards the genre s possible future development

Exploiting East Asian Cinemas Ken Provencher, Mike Dillon, 2018-01-11 From the 1970s onward exploitation cinema as a concept has circulated inside and outside of East Asian nations and cultures in terms of aesthetics and marketing However crucial questions about how global networks of production and circulation alter the identity of an East Asian film as mainstream or as exploitation have yet to be addressed in a comprehensive way

Exploiting East Asian Cinemas serves as the first authoritative guide to the various ways in which contemporary cinema from and about East Asia has trafficked across the somewhat elusive line between mainstream and exploitation Focusing on networks of circulation distribution and reception this collection treats the exploitation cinemas of East Asia as mobile texts produced consumed and in many ways re appropriated across national and hemispheric boundaries As the processes of globalization have decoupled products from their nations of origin transnational taste cultures have declared certain works as art or trash regardless of how those works are received within their native locales By charting the routes of circulation of notable films from Japan China and South Korea this anthology contributes to transnationally accepted formulations of what constitutes East Asian exploitation cinema

Directory of World Cinema: Japan 3 John Berra, 2015-01-01 Like its predecessors *Directory of World Cinema Japan 3* endeavours to move scholarly criticism of Japanese film out of the academy and into the hands of cinephiles the world over This volume will be warmly welcomed by those with an interest in Japanese cinema that extends beyond its established names to equally remarkable filmmakers who have yet to receive such rigorous attention

Body Genre David Scott Diffrient, 2023-11-27 In this groundbreaking work author David Scott Diffrient explores largely understudied facets of cinematic horror from the various odors permeating classic and contemporary films to the wetness sliminess and stickiness of these productions which he argues practically scream out for a tactile mode of textural analysis as much as they call for more traditional forms of textual analysis Dating back to Carol Clover's and Linda Williams's pioneering work on horror cinema film scholars have long conceptualized this once disreputable category of cultural production as a body genre However despite the growing recognition that horror serves important biological and social functions in our lives scholars have only scratched the surface of this genre with regard to its affective corporeal and sensorial appeals Diffrient anatomizes horror films in much the same way that a mad scientist might handle the body separating and recombining constitutive parts into a new analytical whole Further he challenges the tendency of scholars to privilege human over nonhuman beings and calls into question ableist assumptions about the centrality to horror films of sight and sound to the near exclusion of other forms of sense experience In addition to examining the role that animals living or dead real or fake play in human centered

fictions this volume asks what it means for audiences to consume motion pictures in which actors stunt performers and other creative personnel have put their own bodies and lives at risk for our amusement Historically grounded and theoretically expansive *Body Genre Anatomy of the Horror Film* moves the study of cinematic horror into previously uncharted waters and breathes life into a subject that not coincidentally is intimately connected to breathing as our most cherished dividing line between life and death

Cultural Control and Globalization in Asia Laikwan Pang, 2007-05-07 This book challenges the prevailing view of cinema and cinema culture that Hollywood the US creates produces and exports with other countries importing sometimes modifying and sometimes pirating original American work

Legacies of the Drunken Master Luke White, 2020-04-30 In 1978 the films *Snake in the Eagle's Shadow* and *Drunken Master* both starring a young Jackie Chan caused a stir in the Hong Kong cinema industry and changed the landscape of martial arts cinema Mixing virtuoso displays of acrobatic kung fu with knockabout humor to huge box office success they broke the mold of the tragic and heroic martial arts film and sparked not only a wave of imitations but also a much longer trend for kung fu comedies that continues to the present day *Legacies of the Drunken Master* the first book length analysis of kung fu comedy interrogates the politics of the films and their representations of the performing body It draws on an interdisciplinary engagement with popular culture and an interrogation of the critical literature on Hong Kong and martial arts cinema to offer original readings of key films These readings pursue the genre in terms of its carnival aesthetic the utopias of the body it envisions its highly stylized depictions of violence its images of masculinity and the registers of its hysterical laughter The book's analyses are carried out amidst kung fu comedy's shifting historical contexts including the aftermath of the 1960s radical youth movements the rapidly globalizing colonial enclave of Hong Kong and the emerging consciousness of its 1997 handover to China and the transnationalization of cinema audiences It argues that through kung fu comedy's images of the body the genre articulated in complex and often contradictory ways political realities relevant to late twentieth century Hong Kong and the wider conditions of globalized capitalism The kung fu comedy entwines us in a popular cultural history that stretches into the folk past and forward into utopian and dystopian possibilities Theoretically rich and critical *Legacies of the Drunken Master* aims to be at the forefront of scholarship on martial arts cinema It also addresses readers with a broader interest in Hong Kong culture and politics during the 1970s and 1980s postcolonialism in East Asia and action and comedy films in a global context as well as those fascinated with the performing body in the martial arts

Jackie Chan Clyde Gentry, 1997-04-01 Jackie Chan *Inside the Dragon* is the first biography of this international star Drawn from one on one interviews with Chan himself and the actors actresses directors and other stuntmen who've worked with him fans will finish this book knowing all the details behind Chan's life and films
