

A man with dark hair and a light beard, wearing a blue suit and white shirt, stands with his hands clasped in front of him. He is looking directly at the camera with a serious expression. The background is a nighttime city skyline with many lit-up buildings.

convictions had no proper place in the operation of markets This conviction rested upon the false belief that people are essentially selfish competitive individuals seeking personal happiness The aim of Christian Socialists was to replace this rotten moral foundation with another based on the view that people are social and cooperative by nature rather than competitive Their goal was nothing less than a new society built not upon selfishness and aggression but upon social virtues such as equality fellowship cooperation service and justice They did not deny the presence of selfishness however they believed that the social nature of humankind lies deeper than egotism and conflict and they sought a society built upon this belief

Endless Punishment Thomas Jefferson Sawyer, 1845 *Aristotle and the Philosophy of Friendship* Lorraine Smith Pangle, 2002-11-14 This book offers a comprehensive account of the major philosophical works on friendship and its relationship to self love The book gives central place to Aristotle's searching examination of friendship in the *Nicomachean Ethics* Lorraine Pangle argues that the difficulties surrounding this discussion are soon dispelled once one understands the purpose of the *Ethics* as both a source of practical guidance for life and a profound theoretical investigation into human nature The book also provides fresh interpretations of works on friendship by Plato Cicero Epicurus Seneca Montaigne and Bacon The author shows how each of these thinkers sheds light on central questions of moral philosophy is human sociability rooted in neediness or strength is the best life chiefly solitary or dedicated to a community with others Clearly structured and engagingly written this book will appeal to a broad swathe of readers across philosophy classics and political science

Celestina's Brood Roberto González Echevarría, 1993 Published in 1499 and centered on the figure of a bawd and witch Fernando de Rojas dark and disturbing *Celestina* was destined to become the most suppressed classic in Spanish literary history Routinely ignored in Spanish letters the book nonetheless echoes through contemporary Spanish and Latin American literature This is the phenomenon that *Celestina's Brood* explores Roberto González Echevarría one of the most eminent and influential critics of Hispanic literature writing today uses Rojas text as his starting point to offer an exploration of modernity in the Hispanic literary tradition and of the Baroque as an expression of the modern His analysis of *Celestina* reveals the relentless probing of the limits of language and morality that mark the work as the beginning of literary modernity in Spanish and the start of a tradition distinguished by a penchant for the excesses of the Baroque González Echevarría pursues this tradition and its meaning through the works of major figures such as Cervantes Lope de Vega Calderón de la Barca Alejo Carpentier Carlos Fuentes Gabriel García Márquez Nicolás Guillén and Severo Sarduy as well as through the works of lesser known authors By revealing continuities of the Baroque *Celestina's Brood* cuts across conventional distinctions between Spanish and Latin American literary traditions to show their profound and previously unimagined affinity
