The Dominion of Youth Cynthia Comacchio, 2008-10-08 Adolescence like childhood is more than a biologically defined life stage it is also a sociohistorical construction The meaning and experience of adolescence are reformulated according to societal needs evolving scientific precepts and national aspirations relative to historic conditions Although adolescence was by no means a discovery of the early twentieth century it did assume an identifiably modern form during the years between the Great War and 1950 The Dominion of Youth Adolescence and the Making of Modern Canada 1920 to 1950 captures what it meant for young Canadians to inhabit this liminal stage of life within the context of a young nation caught up in the self formation and historic transformation that would make modern Canada Because the young at this time were seen paradoxically as both the hope of the nation and the source of its possible degeneration new policies and institutions were developed to deal with the problem of youth This history considers how young Canadians made the transition to adulthood during a period that was developmental both for youth and for a nation also working toward individuation During the years considered here those who occupied this dominion of youth would see their experiences more clearly demarcated by generation and culture than ever before With this book Cynthia Comacchio offers the first detailed study of adolescence in early twentieth century Canada and demonstrates how young Canadians of the period became the nation's first modern teenagers

University Women Sara Z. MacDonald, 2021-11-15 Bessie Scott nearing the end of her first year at university in the spring of 1890 recorded in her diary Wore my gown for first time It didn't seem at all strange to do so Often deemed a cumbersome tradition by men the cap and gown were dearly prized by women as an outward sign of their hard won admission to the rank of undergraduates For the first generations of university women higher education was an exhilarating and transformative experience but these opportunities would narrow in the decades that followed In *University Women* Sara MacDonald explores the processes of integration and separation that marked women's contested entrance into higher education Examining the period between 1870 and 1930 this book is the first to provide a comparative study of women at universities across Canada MacDonald concludes that women's higher education cannot be seen as a progressive narrative a triumphant story of trailblazers and firsts of doors being thrown open and staying open The early promise of equal education was not fulfilled in the longer term as a backlash against the growing presence of women on campuses resulted in separate academic programs closer moral regulation and barriers that restricted their admission into the burgeoning fields of science technology engineering and mathematics The modernization of higher education ultimately marginalized women students researchers and faculty within the diversified universities of the twentieth century *University Women* uncovers the systemic inequalities based on gender race and class that have shaped Canadian higher education It is indispensable reading for those concerned with the underrepresentation of girls and women in STEM and current initiatives to address issues of access and

equity within our academic institutions **Respectable Citizens** Lara A. Campbell, 2009-10-21 High unemployment rates humiliating relief policy and the spectre of eviction characterized the experiences of many Ontario families in the Great Depression Respectable Citizens is an examination of the material difficulties and survival strategies of families facing poverty and unemployment and an analysis of how collective action and protest redefined the meanings of welfare and citizenship in the 1930s Lara Campbell draws on diverse sources including newspapers family and juvenile court records premiers papers memoirs and oral histories to uncover the ways in which the material workings of the family and the discursive category of respectable citizenship were invested with gendered obligations and Anglo British identity Respectable Citizens demonstrates how women and men represented themselves as entitled to make specific claims on the state shedding new light on the cooperative and conflicting relationships between men and women parents and children and citizen and state in 1930s Canada **Sex and the Married Girl** Heather Stanley, 2022-11-01 Sex who was having it who shouldn't have it and who was supposed to be having it but wasn't was a major concern to social authorities in the immediate postwar era Though they are often remembered with nostalgia as a sexually simpler time the 1950s and early 1960s were incredibly sexually productive years Sex and the Married Girl examines how two interrelated and dominant groups in Canada medical professionals and church leaders used married heterosexual female sexuality as a lever to rebuild the Canadian family and the state itself Using embodied historical methodologies the book examines not only discourses around sex but also how those discourses could influence the actual experience of sex for married women Heather Stanley draws upon extensive oral life histories of women who lived married and had sex during this liminal social period to demonstrate that this was a time of simultaneous sexual and gender quiescence and change **The Struggle for Canadian Sport** Bruce Kidd, 2017-06-22 Canadian sports were turned on their head during the years between the world wars The middle class amateur men's organizations which dominated Canadian sports since the mid nineteenth century steadily lost ground swamped by the rise of consumer culture and badly battered and split by the depression In The Struggle for Canadian Sport Bruce Kidd illuminates the complex and fractious process that produced the familiar contours of Canadian sport today the hegemony of continental cartels like the NHL the enormous ideological power of the media the shadowed participation of women in sports and the strong nationalism of the amateur Olympic sports bodies Kidd focuses on four major Canadian organizations of the interwar period the Amateur Athletic Union the Women's Amateur Athletic Federation the Workers Sport Association and the National Hockey League Each of these organizations became focal points of debate and political activity and they often struggled with each other Each had a radically different agenda the AAU sought the making of men and the strengthening of English Canadian nationalism the WAAF promoted the health and well being of sportswomen the WSA was a vehicle for socialism and the NHL was concerned with lucrative spectacles These national organizations stimulated and steered many of the resources available for sport and contributed significantly to the expansion of opportunities They enjoyed far more power than other

Canadian cultural organizations of the period and they attempted to manipulate both the direction and philosophy of Canadian athletics Through their control of the rules and prestigious events and their countless interventions in the mass media they shaped the dominant practices and coined the very language with which Canadians discussed what sports should mean The success and outcome of each group as well as their confrontations with one another were crucial in shaping modern Canadian sports The Struggle for Canadian Sport adds to our understanding of the material and social conditions under which people created and elaborated sports and the contested ideological terrain on which sports were played and interpreted
